If yes, please explain how the LEA will provide expanded academic support for students in grades three through eight who failed to achieve mastery on any statewide assessment administered pursuant to the state's school and district accountability system in reading or math in the previous academic year? (All areas outlined in [RS 17:100.13](#) should be addressed)

The LEA will look at students LEAP scores to determine who failed to achieve mastery in reading or math. It will the prioritize those students for expanded academic support.

Response to LDOE Review:

As explained throughout this plan and in prior plans, the LEA will provide tutoring and small-group instruction to students who failed to achieve mastery on statewide assessments in reading or math in the previous academic year. These sessions will take place during each regular school day and be provided by the LEA's trained staff using Tier I curricula. The LEA will also offer afterschool tutoring and summer school to these students. The LEA looks at diagnostic and interim assessment results four times during the year with The Achievement Network. This allows staff to monitor student progress and make instructional decisions about the support being provided to students based on their changing needs.
