

Family Math Engagement Grab & Go: Addition and Subtraction

This activity would be
best used by:

Schools Families

Materials:

- Objects to add or subtract, examples include legos, jelly beans, pennies, etc.
- Paper
- Pencil

Steps:

1. Select a group of 5 objects.
2. Ask the child to break the group into two groups.
3. Write the number sentence that represents the child's group. For example, the child makes a group of 2 and a group of 3, then writes $2 + 3 = 5$.

Lagniappe:

- For children who are ready, work with larger groups of up to 20 objects.
