

Family Math Engagement Grab & Go: Geometry - Shapes

This activity would be
best used by:

Schools Families

Materials:

- Paper
- Pencil or Crayon

Steps:

- Identify shapes within the environment.
- Shapes include squares, circles, triangles, rectangles, hexagons, cubes, cones, cylinders, and spheres. For example,
 - The moon is a **circle**.
 - The roof looks like a **triangle**.
 - The door is a **rectangle**.

Lagniappe:

- For children who are ready, children identify and draw triangles, quadrilaterals, pentagons, and hexagons. Talk to your children about the number of sides and angles in each shape.
