

## Family Math Engagement Grab & Go: Comparing Integers

This activity would be  
best used by:

Schools  Families

### Materials:

- Blank sheet of paper
- Pencil or marker/crayon

### Steps:

1. Write the following numbers on a sheet of paper.  
-9, 5, 8, 10, 4, -2, -12, 15
2. Have your child order them from least to greatest.
3. Once listed, have students create a number line and plot the numbers on the number line.

### Lagniappe:

- Once students are ready, write any number down and have your child come up with a number larger and smaller than that number.
- When ready, you can give your child a number and have your child come up with a scenario for that number. For example,
  - Number: -5
  - Scenario: I owe John \$5.

### Answer Key:

- -12, -9, -2, 4, 5, 8, 10, 15
