

Family Math Engagement
Grab & Go: Addition and Subtraction Practice

This activity would be best used by:	
<input type="checkbox"/> Schools	<input checked="" type="checkbox"/> Families

Materials:

- Paper
- Pencil
- Calculator (for the parent)

Steps:

1. Create addition and subtraction problems that utilize numbers up to 1000.
 - (a) Examples should incorporate numbers that utilize composition or decomposition of the tens and hundreds.
 - (b) Examples: $457 + 328 =$, $724 - 258 =$
2. Allow your child to solve the problems using any method.
3. Listen to your child's reasoning for his/her method of solving the problem.
4. Parents use the calculator to check your child's accuracy.

Lagniappe:

- In upper elementary school, students develop fluency with addition, subtraction, multiplication, and division with multi-digit numbers.
