ELA and Mathematics K-12 Louisiana Student Standards Review

Louisiana educators engaged in a professional review of the state's academic standards for English language arts (ELA) and mathematics to ensure they continue to maintain strong expectations for teaching and learning aligned with college and workplace demands. As part of the Louisiana Department of Education's (LDOE's) support for a seamless transition to these new standards, the LDOE identified the major changes in the standards and their potential impact on the criteria used to review instructional materials. The LDOE reached out to publishers with posted Tier 1 ELA, ELA Intervention, and Math state reviews and requested access to their instructional materials to examine for the following changes in alignment resulting from the Louisiana Student Standards Review:
