

| <i>Investment Examples</i>                                | <i>Unit</i>                         | <i>Cost</i> | <i>Considerations</i>  |
|---|-------------------------------------|-------------|--|
| Increase early childhood seats for children birth to four | Per student (staffing ratio 6-12:1) | \$12,000    | <p>If increasing seats by opening new programs rather than expanding seats at existing programs, also consider the cost of curriculum, facilities and administrators.</p> <p>Additional guidance on early childhood staffing ratios is <a href="#">here</a>.</p> |
