- Workforce Investment and Opportunity Act

The JAG Model

Bridging the Homework Gap

JAG was founded to be a high-impact force for change in boosting genuine equality of outcomes in education, job and life, and has proven to be one of the “great equalizers” in America. Many students need support at this critical point so that they can successfully transition into “what’s next.”

The Role of the JAG Specialist

Specialists are front-line staff members who implement the JAG model virtually, in-person or as a hybrid with 35-50 students identified by schools as facing significant life challenges. They support student successes in class, on the job, and at home. **JAG Specialists are committed to students for 12 months after graduation** to help them secure jobs, identify career pathways and/or move on to post-secondary education.
