

PARENT GUIDE TO ELPT

As schools and students begin their final preparations for the English Language Proficiency Test (ELPT), the Louisiana Department of Education (LDOE) created this fact sheet to provide parents with general information about the test, and what you and your child can expect when taking the test.

KNOW THE TEST

ENGLISH LANGUAGE PROFICIENCY TEST: ELPT

Students who have been identified as English Learners (ELs) enrolled in grades K-12 take the ELPT. This online assessment is untimed, and measures a student's English proficiency in the four language domains:

- ✓ Reading
- ✓ Writing
- ✓ Speaking
- ✓ Listening

The ELPT assesses the English-language proficiency of students who meet the participation criteria for ELs as they progress from year to year. ELPT draws upon emerging technologies and innovative methods to measure progress, to encourage reclassification relative to grade-appropriate performance, and determine which school systems are meeting accountability goals for ELs.

ELPT DESIGN AND PERFORMANCE LEVELS

The ELPT measures and reports on students' overall English-language proficiency, as well as performance in the language domains of reading, writing, speaking, and listening. The language domains correspond to scores in reporting categories, and then these scores compile to form an overall proficiency determination. The ELPT has five Performance Levels and three Proficiency Determinations. Proficiency requires meeting a **combination of expectations across all four domains**.

Performance Level	Definition
Level 1	Beginning: displays few grade-level English-language skills and will benefit from EL program support
Level 2	Early Intermediate: presents evidence of developing grade-level English-language skills and will benefit from EL program support
Level 3	Intermediate: applies some grade-level English-language skills and will benefit from EL program support
Level 4	Early Advanced: demonstrates English-language skills required for engagement with grade-level academic content instruction at a level comparable to non-ELs
Level 5	Advanced: exhibits superior English-language skills as measured by the ELPT

Students will receive a Performance Level score in each domain as well as an overall Proficiency Level.

Proficiency Determination	Definition
Emerging	Students are <i>Emerging</i> when they have not yet attained a level of English-language skill necessary to produce, interpret, and collaborate on grade-level, content-related academic tasks in English. Students scoring <i>Emerging</i> are eligible for ongoing program support.
Progressing	Students are <i>Progressing</i> when, with support, they approach a level of English-language skill necessary to produce, interpret, and collaborate on grade-level, content-related academic tasks in English. Students scoring <i>Progressing</i> are eligible for ongoing program support.
Proficient	Students are <i>Proficient</i> when they attain a level of English-language skill necessary to independently produce, interpret, collaborate on and succeed in grade-level, content-related academic tasks in English. Students scoring Proficient are eligible for reclassification.

The Proficiency Level is determined by student performance level in each domain. Additional information will be included with the student's scores.

Results from the ELPT will be used to determine a student's level of English proficiency and to decide which language services and supports the student will need to fully participate in core content classes.

ELs take this assessment until they achieve a rating of "Proficient". A student is "Proficient" when they attain a level of English-language skill necessary to independently produce, interpret, collaborate on and succeed in grade-level, content-related academic tasks in English.

Even those students who have refused participation in an EL program are required to take ELPT. Students with the most significant disabilities may be eligible to take ELPT Connect. Refer to the [ELPT Connect Parent Guide](#) for more information.

ONLINE TESTING SCHEDULE: FEBRUARY 10–MARCH 19, 2025

Schools determine the schedule for administering the online tests during this window; therefore, testing days and session rotations will vary by school.

TEST RESULTS

Schools and school systems will receive ELPT results in May. Each school system will decide how to share this information, but teachers, parents and students will be provided with the student's English proficiency in each domain. The results will include the Domain Performance Level as well as the Overall Proficiency Level.

PREPARE FOR THE TEST

KNOW WHAT YOUR CHILD IS LEARNING

To find out the learning expectations for your student's grade level, take a look at the [LA Connectors for ELs](#). The LA Connectors for ELs provide a connection between language and academic content acquisition. The connectors highlight and amplify the critical aspects of language, knowledge about language, and skills using language needed by ELs as they develop competencies in each course of study. The LA Connectors for ELs allow students to participate in the same academic content and curriculum as native English speakers by providing opportunities to take on complex texts and challenging activities while developing language necessary to master each subject and to effectively participate in the classroom.

Other ways to help your child include:

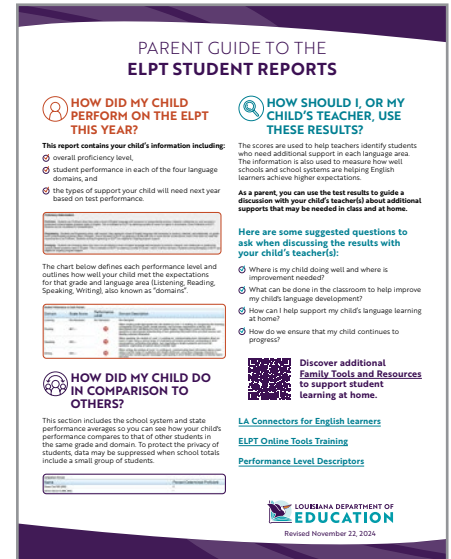

- ✓ Having your child read to you (or a younger sibling).
- ✓ Visiting your local library and borrowing audiobooks.
- ✓ Attending parent-teacher conferences at your child's school.
- ✓ Watching television or listening to music in English.
- ✓ Practicing reading and writing in your native language as well (research shows that doing so helps to support English literacy skills).
