

## Office of Career and College Readiness

# 2025-2026 Course Choice Courses

---

The [Louisiana Course Choice Program](#) allows students to customize their education by selecting courses that best align with their academic goals, interests, and career aspirations. These courses are offered by [SCA Private Providers and Public Higher Education Providers](#) (Louisiana Public Colleges and Universities). This program provides access to a variety of learning opportunities. By participating, students can explore subjects beyond the traditional school curriculum, gain specialized skills, and earn college credits and credentials while still in high school. This flexibility ensures that each student receives a tailored educational experience that supports their future success. Parents play a vital role in guiding their children through course selection, ensuring they make informed decisions that align with their strengths and ambitions.
