

LOUISIANA DEPARTMENT OF EDUCATION

To: Louisiana retailers of sanitation and food supplies

From: Louisiana State Superintendent of Education, Dr. Cade Brumley

Date: February 1, 2021

Re: Permission for essential care providers to access more than rationed amounts for basic supplies and PPE

This letter is to request that as a Louisiana retailer, please consider allowing this purchaser to exceed the rationing maximum when purchasing food, paper products and cleaning supplies. The bearer of this letter is providing child care, a critical support service, to working families. However, in order to provide this service properly and safely, it requires they be able to make these purchases for large groups to last for an extended period of time.

To verify their role in providing emergency care, the bearer of this letter can provide to you:

- A copy of their state license from the Department of Education
- A copy of their Louisiana driver's license

Please reach out to LDOECOV19support@la.gov with any questions or to report a Louisiana retailer not honoring the intent of this letter.
