The goal of English language arts is for students to read, understand, and express understanding of complex texts independently. To accomplish this goal, programs must build students' knowledge and skill in language, comprehension, conversations, and writing integrated around a volume of complex texts and tasks.² In grades K-5, programs must also build students' foundational skills to be able to read and write about a range of texts³ independently. Thus, a strong ELA classroom is structured with the below components.

1. Quality of Texts (Non-negotiable)	
2. Text-Dependent Questions (Non-negotiable)	
3. Coherence of Tasks (Non-negotiable)	
4. Foundational Skills (Non-negotiable)	
5. Range and Volume of Texts	
6. Writing to Sources, Speaking and Listening, and Language	
7. Assessments	
8. Scaffolding and Support	

Each set of submitted materials was evaluated for alignment with the standards beginning with a review of the indicators for the non-negotiable criteria. If those criteria were met, a review of the other criteria ensued.

Tier 1 ratings received a “Yes” for all Criteria 1-8.

Tier 2 ratings received a “Yes” for all non-negotiable criteria, but at least one “No” for the remaining criteria.

Tier 3 ratings received a “No” for at least one of the non-negotiable criteria.

To evaluate instructional materials for alignment with the [standards](#) and determine tiered rating, begin with **Section I: Non-negotiable Criteria**.

- Review the **required**⁴ Indicators of Superior Quality for each **Non-negotiable** criterion.
- If there is a “Yes” for all **required** Indicators of Superior Quality, materials receive a “Yes” for that **Non-negotiable** Criterion.
- If there is a “No” for any of the **required** Indicators of Superior Quality, materials receive a “No” for that **Non-negotiable** Criterion.
- Materials must meet **Non-negotiable** Criterion 1 for the review to continue to **Non-negotiable** Criteria 2 and 3. For grades K-5, materials must meet all of the **Non-negotiable** Criteria 1-3 in order for the review to continue to Section II⁵ and all of the **Non-negotiable** Criteria 1-4 to continue to Section III. For grades 6-12, materials must meet **Non-Negotiable** Criteria 1-3 for the review to continue to Section III.
- If materials receive a “No” for any **Non-negotiable** Criterion, a rating of Tier 3 is assigned, and the review does not continue.

If all Non-negotiable Criteria are met, then continue to **Section III: Additional Criteria of Superior Quality**.

- Review the **required** Indicators of Superior Quality for each criterion.
- If there is a “Yes” for all **required** Indicators of Superior Quality, then the materials receive a “Yes” for the additional criteria.
- If there is a “No” for any **required** Indicator of Superior Quality, then the materials receive a “No” for the additional criteria.

Tier 1 ratings receive a “Yes” for all Non-negotiable Criteria and a “Yes” for each of the Additional Criteria of Superior Quality.

Tier 2 ratings receive a “Yes” for all Non-negotiable Criteria, but at least one “No” for the Additional Criteria of Superior Quality.

Tier 3 ratings receive a “No” for at least one of the Non-negotiable Criteria.

⁴ **Required Indicators of Superior Quality** are labeled “Required” and shaded yellow. Remaining indicators that are shaded white are included to provide additional information to aid in material selection and do not affect tiered rating.

⁵ For grades K-5: Materials must meet Non-negotiable Criterion 1 for the review to continue to Non-negotiable Criteria 2-3. Materials must meet all of the Non-negotiable Criteria 1-3 in order for the review to continue to Section II.

<p>SECTION I. K-12 NON-NEGOTIABLE CRITERIA OF SUPERIOR QUALITY Materials must meet Non-negotiable Criterion 1 for the review to continue to Non-negotiable Criteria 2 and 3. For grades K-5, materials must meet all of the Non-negotiable Criteria 1-3 in order for the review to continue to Section II and all of the Non-negotiable Criteria 1-4 in order for the review to continue to Section III. For grades 6-12, materials must meet all of the Non-Negotiable Criteria 1-3 in order for the review to continue to Section III.</p>			
<p>Non-negotiable 1. QUALITY OF TEXTS: Texts are of sufficient scope and quality to provide text-centered and integrated learning that is sequenced and scaffolded to (1) advance students toward independent reading of grade-level texts and (2) build content knowledge (e.g., ELA, social studies, science, and the arts). The quality of texts is high—they support multiple readings for various purposes and exhibit exceptional craft and thought and/or provide useful information. Materials present a progression of complex texts as stated by Reading Standard 10.</p> <p><i>(Note: In K and 1, Reading Standard 10 refers to read-aloud material. Complexity standards for student-read texts are applicable for grades 2+.)</i></p> <p><input checked="" type="checkbox"/> Yes <input type="checkbox"/> No</p>	<p>Required 1a) Materials provide texts that are appropriately complex for the identified grade level according to the requirements outlined in the standards.</p> <ul style="list-style-type: none"> • A text analysis that includes complexity information is provided. Measures for determining complexity include quantitative and qualitative analysis, as well as reader and task considerations. Poetry and drama are analyzed only using qualitative measures. • In grades K-2, extensive read-aloud texts allow sufficient opportunity for engagement with text more complex than students could read themselves. 	<p>Yes</p>	<p>Materials provide texts that are appropriately complex for the identified grade level according to the requirements outlined in the standards. The materials include a qualitative and quantitative complexity text analysis in the Teacher’s Edition in the “Planning” section at the beginning of each text. The resource demonstrates that materials are appropriate in complexity for students in Grade 9.</p> <p>In Unit 1, Finding Common Ground, the Lexile band is cited as 820L-1390L which is appropriate for the grade level. In the teacher’s guide, text complexity and scaffolding information are found in both the Instructional Overview and the Resources sections. Materials provide texts that are appropriately complex for the identified grade level. The unit includes the following texts: “Once Upon a Time,” a short story by Nadine Gordimer (1390L), “The Gettysburg Address,” a speech by Abraham Lincoln (1170L), “Making the Future Better, Together,” a blog by Eboo Patel (1170L), “Oklahoma Bombing Memorial Address,” a speech by Bill Clinton (1060L), and “Night Calls,” a short story by Lisa Fugard (1110L).</p>

CRITERIA	INDICATORS OF SUPERIOR QUALITY	MEETS METRICS (YES/NO)	JUSTIFICATION/COMMENTS WITH EXAMPLES
			<p>Unit 1 features the text “Once Upon a Time” by Nadine Gordimer. “Once Upon a Time” is two stories in one. The first story is an introduction in which the narrator, who is a writer, hesitates to write a children’s story. The second story is a bedtime story the narrator tells herself when she can’t sleep. Both stories explore how fear can affect both individuals and society. The text has a lexile score of 1390 which meets the grade level requirements for text complexity. Qualitative measures include somewhat complex story concepts, complex and varied sentence structure, and cultural and literary knowledge essential to understanding.</p> <p>In Unit 3, The Bonds Between Us, students read the short story, “The Grasshopper and the Bell Cricket” by Yasunari Kawabata to analyze the story’s setting and make inferences about its theme. Quantitatively, the short story measures a 1060L with a qualitative measure of fairly complex due to the cultural background knowledge necessary for full comprehension of the text. Students also read “Loser,” by Aimee Bender, as the unit mentor text with a quantitative measure of 900L. Qualitative measures suggest that the text has meaning that is implied but requires inferential reasoning. Meaning must also be interpreted using symbolism. Structurally, the text is mostly chronological with some</p>

			<p>deviation. The knowledge demands for the text are considered somewhat conventional but can be easily envisioned.</p> <p>In Unit 4, The Price of Freedom, students read the personal essay, “The Price of Freedom,” by Noreen Riols. The informational text has a quantitative measure of 760L with qualitative measures in which ideas presented are somewhat explicit and reasoning is required and inferred. Text structure is primarily explicit and chronological, with one perspective. Language usage within the text is often explicit with some figurative and historically contextual vocabulary. Students also read “Love’s Vocabulary,” by Diane Ackerman, as the unit mentor text. This essay serves as a model for students to follow when they reach the unit writing task. The quantitative measure of the text is 1020L and qualitative measures indicate the language demands are very complex due to the text's use of mostly Tier II and Tier III words. Knowledge demands require some references to other texts and the structure is also considered complex because multiple perspectives are presented.</p>

The "I Have a Dream" speech was delivered by Martin Luther King, Jr. before an audience of 250,000 people in 1963 at the March on Washington. The Unit also includes an NPR Podcast with John Lewis, an American statesman and civil rights leader, who served in the United States House of Representatives for Georgia's 5th congressional district from 1987 until his death in 2020. The unit also includes excerpts from Hidden Figures, a historical writing by Margot Lee Shetterly, and the poem "We Wear the Mask" by Paul Laurence Dunbar.</p> <p>In Unit 5, students read "Deep Survival" by Laurence Gonzales in which the author explains how the mind processes strong emotions and instincts and continuously adjusts those models in stressful and demanding circumstances as he tells numerous stories of catastrophe and accidents.</p> <p>In Unit 6, students read the drama "Macbeth" by William Shakespeare in which a Scottish general named Macbeth receives a prophecy from three witches that one day he will become King of Scotland. At the end of the unit, students write a personal essay about themselves, sharing an experience, opinion, or response to an event. All of the texts in the unit revolve around the essential question and require students to read fictional texts such as “Once Upon a Time,” a short story by Nadine Gordim, and nonfiction texts such as “A Quilt of a Country,” an argument by Anna Quindie, and “The Gettysburg Address,” a speech by Abraham Lincoln, to build their knowledge so that they can demonstrate their understanding at the end of the unit writing task. For an example of a well-written personal essay, students review the essay “Unusual Normality.” Students also end Unit 1 with a reflection task that directly requires them to revisit the Essential Question and reflect on their reading throughout the whole unit and their cumulative writing task.</p> <p>Unit 2, The Struggle for Freedom, includes various texts and text types that present a wide variety of perspectives on the struggle for freedom and equality that African Americans have faced in America. Then, students listen to an NPR podcast interview with civil rights activist John Lewis to consider how his speech came to inspire people. Students continue to determine the effects of various speech elements and their impacts on the listener/reader. Next, students read an excerpt from historical writing “Hidden Figures” in order to gain a better understanding of segregation in the United States. From there, students read about censorship and how it impacts free speech. They compare and contrast the opposing viewpoints of Booker T. Washington and W.E.B. Dubois and research the Iranian government and society after reading a short story about injustice. These texts all connect with the universal theme of the struggle for freedom.</p>

Additionally, when responding to the Essential Question of the unit, students are redirected back to the text and their annotations.</p> <p>In Unit 1, students read the speech “The Gettysburg Address” by Abraham Lincoln. Students are expected to be able to compare the speech with a video. As students read, they analyze the author’s purpose and audience, the author’s use of rhetoric devices, and contrasts and contradictions. After reading the text initially, students refer back to the text in order to complete the check for understanding and then analyze the text questions which require students to cite text evidence. Furthermore, the materials ask students to build knowledge through their research of the following questions: “Find out more about the people who were present to hear Lincoln speak. What were they doing at Gettysburg? What were their reactions? How did the media report on the speech?” After researching, students prepare an oral presentation in which they critique the speech for its effectiveness. Students also refer back to the text to</p>

Each unit within the materials presents a “Collaborate & Compare” opportunity that allows students to revisit texts in small groups for specific details and/or meaning.</p> <p>In Unit 4, Sweet Sorrow, students read the sonnet, “Having It Both Ways,” by Elizabeth Jennings. Upon their first read, students are instructed to note how the poet makes language choices to communicate message and tone. Students are then instructed to “Specifically, think about how she uses diction and syntax to give voice to thoughts and feelings about love.” During reading, students use the Notice and Note signposts to help them make connections. After reading, students begin to connect ideas. Students must first go back and annotate the first stanza of the sonnet and explain what they think the poet is saying in the</p>

Students express their understanding for the text by completing constructed response questions that ask students to, “Reread the first paragraph. What tone, or attitude, is created by the author’s use of the first-person pronouns we and our? Why do you think she chose to introduce her topic to read this way?” Students also evaluate certain paragraphs of the text to explain how the author connects information to key ideas represented in the text. For example, “How does she connect this information to the key idea that friendships are essential to our sense of who we are?” Students are then asked to, “Support your response with evidence from the text.”</p> <p>In Unit 4, <i>Sweet Sorrow</i>, students read Williams Shakespeare’s “The Tragedy of Romeo and Juliet.” Throughout the reading of the play, students engage with text-dependent and text-specific questions. Questions include language of the standards such as various conflicts, interactions with other characters, and develop the theme.</p> <p>Notice & Note signposts provide opportunities for students to engage in critical questions using the academic language of the standard. An example can be found in Unit 2, Lesson 4 in the reading of "Night" by Elie Wiesel. The second Notice & Note signpost requires students to respond to comprehension questions like, "How does this complex sentence contribute to the tone of the paragraph?" (RL.9-10.4). Also in Unit 2, Lesson 4, students read "The Pianist" by Władysław Szpilman in which students must Notice & Note the author's purpose (RL.9-10.6).</p> <p>Following the reading of both mentor texts in Unit 2, Lesson 4, students are then tasked with comparing and contrasting both texts with particular attention paid to the characters, points of view, settings, and authors' purpose for each selection.</p>

Tasks and assessments demand the use of multiple texts and require students to build connections among texts that share a theme or topic.</p> <p>In Unit 1, Finding Common Ground, all questions and tasks revolve around the students answering the Essential Question “How can we come together despite our differences?” Students build knowledge and integrate skills through a combination of reading, writing, speaking and listening. These skills can be found in Writing Tasks, Respond, Notice & Note, and other exercises throughout each reading assignment. Lesson activities build upon the text and allow students to complete culminating tasks. In Unit 1, Lesson 1, students read the text “A Quilt of a Country” and work to evaluate the author’s use of claims and counterclaims. Additionally, students independently read, “We Wear the Mask,” a poem by Paul Laurence Dunbar, “The Prisoner Who Wore Glasses,” a short story by Bessie Head, “America’s Women: Reforming the World,” by Gail Collin, from “Long Walk to Freedom,” by Nelson Mandela, and “Eulogy for Martin Luther King Jr.” by Robert F. The collection of texts in Unit 6 includes excerpted sections from “The Odyssey,” “The Journey,” “Siren Song,” and multiple informational texts focused on topics that directly impact the theme of heroes and quests. In Unit 6, Lesson 2, Archaeology’s Tech Revolution Since Indiana Jones, the materials use an informational text to practice making predictions using evidence from the text. The student answers questions to infer information about the central thesis and conclusion of the text. The coherence of these questions are connected as the unit progresses. In a later informational text titled “The Real Reasons We Explore Space,” students generate questions that are used in the later culminating tasks and discussion.</p>

In Lesson 4, after reading “The Vietnam Wall,” students analyze graphic elements and imagery to create an imagery board and present to the class. In Lesson 5, after reading “The Gettysburg Address/Saving Lincoln,” students analyze rhetoric and prepare to deliver an oral presentation to the class. They also analyze film and have a panel discussion. In Lessons 7, 8, and 9, students independently read the texts “Making the Future Better, Together,” “Oklahoma Bombing Memorial Address,” and “Night Calls,” to answer comprehension questions about the texts. In Lessons 10 and 11, students write a personal essay and develop a photo essay as their media project.</p> <p>As students further engage with each of the texts within each of the units, questions and tasks follow the same model and procedure where students read and express understanding in writing, speaking and listening, and language.</p>

The materials contain multiple opportunities for students to examine language conventions while examining word meanings and the relationships between words and phrases as presented in the text selections. Students engage in various levels of vocabulary acquisition throughout the course of the unit and the annotation prompts students to stop, re-read, and annotate with the purpose of a deeper examination of language as it is presented in the text selection.</p> <p>Each unit begins with an Academic Vocabulary section where students have to complete a word network for five academic terms that will be repeated throughout the unit with most texts and incorporated into the culminating writing task. Before reading, students are presented with the Critical Vocabulary section that presents five to ten words that are important to the overall understanding of the text selection. Students also experience a sidebar and footnotes per reading selection where they are further supported with unfamiliar vocabulary within the text being read. Students examine word choices the author makes with language and vocabulary to demonstrate understanding of the author's choices in craft by applying similar choices to writing of their own.</p>

			<p>For example, in Unit 2, The Struggle for Freedom, students complete Word Networks for the Academic Vocabulary words that will be discussed, read, and used for written expression throughout the unit. During the peer review process for the unit culminating writing assignment, partners are encouraged to identify the use of Academic Vocabulary in their partner’s writing.</p> <p>Unit 5, A Matter of Life or Death, provides multiple opportunities for students to examine language in the context of the text. Specifically, when students engage with the text, “Is Survival Selfish?” an argument by Lane Wallace, students work with critical vocabulary words: laud, transfix, consume, berate, and edict. To begin, students practice determining and applying the meaning of the words based on context within the text. Then students learn to identify synonyms as a vocabulary strategy to use when they are faced with a complex text and difficult words. Students are given the opportunity to use a thesaurus to find at least two synonyms for the word that would best fit the context of how the critical vocabulary is used in the text. Finally, students practice applying the new vocabulary by writing a sentence with each of the critical vocabulary words. Later, students respond to the essential question and integrate at least one of the critical vocabulary words into their response.</p>

FINAL EVALUATION <i>Tier 1 ratings</i> receive a “Yes” for all Non-negotiable Criteria and a “Yes” for each of the Additional Criteria of Superior Quality. <i>Tier 2 ratings</i> receive a “Yes” for all Non-negotiable Criteria, but at least one “No” for the Additional Criteria of Superior Quality. <i>Tier 3 ratings</i> receive a “No” for at least one of the Non-negotiable Criteria.			
Compile the results for Sections I-III to make a final decision for the material under review.			
Section	Criteria	Yes/No	Final Justification/Comments
I. K-12 Non-negotiable Criteria of Superior Quality⁷	1. Quality of Texts	Yes	Materials provide texts that are appropriately complex for the identified grade level according to the requirements outlined in the standards. At least 90% of texts are of publishable quality and offer rich opportunities for students to meet Grade 9 ELA standards. Texts are well-crafted, representing the quality of content, language, and writing that is produced by experts in various disciplines. Materials provide a coherent sequence or collection of connected texts that build vocabulary knowledge and knowledge about themes with connected topics and ideas through tasks in reading, writing, listening, speaking, and language. Within a sequence or collection, quality texts of grade level complexity are selected for multiple, careful readings throughout the unit of study.
	2. Text-Dependent Questions	Yes	A majority of questions in the materials are text dependent and text specific with student ideas expressed through both written and spoken responses. Questions and tasks include the language of the standards and require students to engage in thinking at the depth and complexity

⁷ Must score a “Yes” for all Non-negotiable Criteria to receive a Tier I or Tier II rating.

CRITERIA	INDICATORS OF SUPERIOR QUALITY	MEETS METRICS (YES/NO)	JUSTIFICATION/COMMENTS WITH EXAMPLES
	3. Coherence of Tasks	Yes	<p>required by the grade-level standards to advance and deepen student learning over time.</p> <p>Coherence sequences of questions and tasks focus students on understanding the text and its illustrations, making connections among the texts in the collection, and expressing their understanding of the topics, themes, and ideas presented in the texts. Knowledge is built across the sequence of questions and tasks and supports students in making meaning of complex texts. Tasks and assessments demand the use of multiple texts and require students to build connections among texts that share a theme or topic. Questions and tasks are designed so that students build and apply knowledge and skills in reading, writing, speaking, listening, and language through quality, grade-level complex texts. Questions and tasks support students in examining the language critical to the meaning of texts measured by Criteria 1 and 2. Questions and tasks also focus on advancing depth of word knowledge through emphasizing word meaning and relationships among words rather than isolated vocabulary practice, and engaging students with multiple repetitions of words in varied contexts.</p>

FINAL DECISION FOR THIS MATERIAL: <u>Tier I, Exemplifies quality</u>			

*As applicable

⁹ Must score a “Yes” for all Additional Criteria of Superior Quality to receive a Tier I rating.

Qualified for Abbreviated Review¹

The goal of English language arts is for students to read, understand, and express understanding of complex texts independently. To accomplish this goal, programs must build students' knowledge and skill in language, comprehension, conversations, and writing integrated around a volume of complex texts and tasks.² In grades K-5, programs must also build students' foundational skills to be able to read and write about a range of texts³ independently. Thus, a strong ELA classroom is structured with the below components.

¹ Abbreviated Reviews are conducted in K-12 ELA and K-12 Math for submissions that **Meet Expectations** for Gateways 1 and Gateway 2 through EdReports. Reviewers considered these reports as they reviewed materials for alignment to Louisiana state standards and quality Non-negotiable indicators. See the full EdReports review at <https://www.edreports.org/reports/overview/into-literature>.

² A volume of texts is a collection of texts written about similar topics, themes, or ideas.

³ A range of texts are texts written at different reading levels.

To evaluate instructional materials for alignment with the [standards](#) and determine tiered rating, begin with **Section I: Non-negotiable Criteria**.

- Review the **required**⁴ Indicators of Superior Quality for each **Non-negotiable** criterion.
- If there is a “Yes” for all **required** Indicators of Superior Quality, materials receive a “Yes” for that **Non-negotiable** Criterion.
- If there is a “No” for any of the **required** Indicators of Superior Quality, materials receive a “No” for that **Non-negotiable** Criterion.
- Materials must meet **Non-negotiable** Criterion 1 for the review to continue to **Non-negotiable** Criteria 2 and 3. For grades K-5, materials must meet all of the **Non-negotiable** Criteria 1-3 in order for the review to continue to Section II⁵ and all of the **Non-negotiable** Criteria 1-4 to continue to Section III. For grades 6-12, materials must meet **Non-Negotiable** Criteria 1-3 for the review to continue to Section III.
- If materials receive a “No” for any **Non-negotiable** Criterion, a rating of Tier 3 is assigned, and the review does not continue.

If all Non-negotiable Criteria are met, then continue to **Section III: Additional Criteria of Superior Quality**.

- Review the **required** Indicators of Superior Quality for each criterion.
- If there is a “Yes” for all **required** Indicators of Superior Quality, then the materials receive a “Yes” for the additional criteria.
- If there is a “No” for any **required** Indicator of Superior Quality, then the materials receive a “No” for the additional criteria.

Tier 1 ratings receive a “Yes” for all Non-negotiable Criteria and a “Yes” for each of the Additional Criteria of Superior Quality.

Tier 2 ratings receive a “Yes” for all Non-negotiable Criteria, but at least one “No” for the Additional Criteria of Superior Quality.

Tier 3 ratings receive a “No” for at least one of the Non-negotiable Criteria.

⁴ **Required Indicators of Superior Quality** are labeled “Required” and shaded yellow. Remaining indicators that are shaded white are included to provide additional information to aid in material selection and do not affect tiered rating.

⁵ For grades K-5: Materials must meet Non-negotiable Criterion 1 for the review to continue to Non-negotiable Criteria 2-3. Materials must meet all of the Non-negotiable Criteria 1-3 in order for the review to continue to Section II.

<p>SECTION I. K-12 NON-NEGOTIABLE CRITERIA OF SUPERIOR QUALITY Materials must meet Non-negotiable Criterion 1 for the review to continue to Non-negotiable Criteria 2 and 3. For grades K-5, materials must meet all of the Non-negotiable Criteria 1-3 in order for the review to continue to Section II and all of the Non-negotiable Criteria 1-4 in order for the review to continue to Section III. For grades 6-12, materials must meet all of the Non-Negotiable Criteria 1-3 in order for the review to continue to Section III.</p>			
<p>Non-negotiable 1. QUALITY OF TEXTS: Texts are of sufficient scope and quality to provide text-centered and integrated learning that is sequenced and scaffolded to (1) advance students toward independent reading of grade-level texts and (2) build content knowledge (e.g., ELA, social studies, science, and the arts). The quality of texts is high—they support multiple readings for various purposes and exhibit exceptional craft and thought and/or provide useful information. Materials present a progression of complex texts as stated by Reading Standard 10.</p> <p><i>(Note: In K and 1, Reading Standard 10 refers to read-aloud material. Complexity standards for student-read texts are applicable for grades 2+.)</i></p> <p><input checked="" type="checkbox"/> Yes <input type="checkbox"/> No</p>	<p>Required 1a) Materials provide texts that are appropriately complex for the identified grade level according to the requirements outlined in the standards.</p> <ul style="list-style-type: none"> • A text analysis that includes complexity information is provided. Measures for determining complexity include quantitative and qualitative analysis, as well as reader and task considerations. Poetry and drama are analyzed only using qualitative measures. • In grades K-2, extensive read-aloud texts allow sufficient opportunity for engagement with text more complex than students could read themselves. 	<p>Yes</p>	<p>Materials provide texts that are appropriately complex for the identified grade level according to the requirements outlined in the standards. The materials include a qualitative and quantitative complexity text analysis in the Teacher’s Edition in the “Planning” section at the beginning of each text. The resource demonstrates that materials are appropriate in complexity for students in Grade 10.</p> <p>In Unit 1, <i>Ourselves and Others</i>, the mentor text, “By Any Other Name,” is a memoir that has a Lexile score of 1120L which meets grade level text complexity requirements. The structure of the text is complex because it offers dual perspectives. Qualitative measures include somewhat complex story concepts, complex and varied language, and cultural and historical references essential to understanding.</p> <p>Texts in Unit 3, <i>The Natural World</i>, fall between moderately complex and very complex based upon the qualitative measure and the Lexile levels range from 910L to 1300L. The following text titles are included in Unit 3: “My Life as a Bat” by Margaret Atwood (1020L) which includes</p>

The text has a quantitative measure of 1190L and qualitative measure indicates that the text is complex due to the use of unfamiliar, academic, or domain-specific words, as well as complex sentence structures. Knowledge demands are also complex due to specialized knowledge required, complex civics concepts, and the use of many religious references.</p> <p>In Unit 6, Absolute Power, students read “The Tragedy of Macbeth” by William Shakespeare to analyze elements of a drama, including character and theme. Quantitative measures are not applicable because the text is a play, but qualitative measures describe the text as somewhat complex due to the use of archaic, unfamiliar language and sentence structures, multiple levels of meaning and implicit themes, and unfamiliar experiences and situations. Students also read “The</p>

The materials include an excerpt from “Total Eclipse” by Annie Dillard which was written as a personal account in response to viewing a solar eclipse. The text covers the experience of a total eclipse as something that is “unlike anything you would imagine, even if you knew every detail of what would happen and why.” The author provides a poetic description that illustrates the total eclipse as “a dramatic experience that can alter perceptions, affect emotions, and make people feel dislocated in time and space.” There are no indications of this text being written to be used as instructional materials which is why it offers rich opportunities for students.</p>

Students also acquire word knowledge by completing Word Network activities in which students are asked to identify synonyms, antonyms, and related forms of words found within unit texts.</p> <p>In Unit 1, Ourselves and Others, the essential question is “How do we engage with others while staying true to ourselves?” Students explore how people interact with people who agree and disagree with each other while still staying true to their own beliefs. At the end of the unit, students write a personal essay that asks them to reflect on a significant event in their lives. Unit texts revolve around the essential question and require students to read fiction and nonfiction texts to build their knowledge so that they can demonstrate their understanding at the end of the unit writing task in which students are tasked with writing a personal essay, a short work of nonfiction in which the writer expresses an opinion or provides insight</p>

For an example of a well written personal essay, students review, “By Any Other Name.” Students also end Unit 1 with a reflection task that directly requires them to revisit the Essential Question and reflect on their reading throughout the whole unit and the culminating writing task.</p> <p>In Unit 2, How We See Things, texts build an understanding and knowledge of the connected theme of the effect of a person’s personal point of view. Students engage with multiple texts to answer the essential question, “How does our point of view shape what we think we know?” At the end of the unit, students write a short story that is surprising, suspenseful, and focuses on a plot where things are not at all what they seem. To gain the understanding and knowledge to complete the culminating tasks, students engage with a range of texts that are centered around perspective and how to learn from that perspective.</p> <p>First, students engage with the text “Coming to Our Senses,” a science essay by Neil deGrasse Tyson, in which Tyson provides an explanation of how the five senses can allow humans to perceive much about the world around us and yet there is a need to develop scientific instruments that enhance and augment the senses so as to not become overly dependent on the five senses to understand the world. While reading, students are instructed to pay attention to the details that help develop a mental image of the story’s two cultural and historical settings. Students then write a one-page analysis of the story’s theme or central message about human nature or the human experience.</p> <p>As students write the short story for the culminating writing tasks, they refer to the Mentor Text to make choices similar to that of Julio Cortázar in their own writing. For example, students analyze a section of the text for the author’s craft noting that “sensory and descriptive details can be very effective in evoking a setting. Note the way the author uses an appeal to the sense of smell when introducing the Aztec setting in ‘The Night Face Up.’” Then students apply what they have learned to their own writing and are instructed to “Be creative in your use of sensory and descriptive details when you describe your setting.”</p>

The materials have close reading and analysis tasks built in to ensure that multiple readings support a student’s ability to build knowledge throughout the course of the unit. Notice and Note opportunities are employed in the materials to provide multiple opportunities for students to reread and cite evidence in support of student created written responses. For example, students read each text and pause at various “signposts” to analyze vocabulary; language; details such as setting and conflict; and author’s choices. In this way, students engage in close reading of the text and have to return to a particular paragraph or section, requiring students to reread important parts of the text for better understanding. Additionally, when responding to the Essential Question of the unit students are redirected back to the text and their annotations.</p> <p>In Unit 1, Ourselves and Others, students read the speech “By Any Other Name” by Abraham Santa Rama Rue. Students analyze historical content before reading the memoir to build background knowledge. As students read, they analyze the author’s purpose and audience, historical content, and contrasts and contradictions. After reading the text initially, students have to refer back to the text in order to complete</p>

Support your responses with evidence from the text.” Furthermore, the materials ask students to build knowledge by analyzing critical vocabulary and vocabulary strategies, and language conventions, such as “Think of an exciting or striking experience you had. Write a few sentences using appropriate verb tenses to describe the experience, events that came before it, and your current perspective on it.”</p> <p>In Unit 3, The Natural World, students read, “My Life as a Bat,” a short story by Margaret Atwood to answer the Essential Question, “What effect do we have on nature, and how does nature affect us?” As students read, they analyze the structure of the text by identifying: exposition, rising action, climax, falling action, and resolution of the narrative structure. Students also use the short story to analyze the author’s use of language. Students strengthen their understanding of figurative language and sensory descriptions to build knowledge for additional texts they will read later in the unit.</p> <p>In Unit 5, “Responses to Change,” students read the Mentor text, and excerpt from</p>

Then, as a group, students identify a process provided in the text for preventing the spread of specific diseases. Students then respond to the essential question by re-reading the text and reviewing annotations and notes made during the reading.</p>

Students engage with the text “Mirror,” a poem by Sylvia Plath. While reading, students respond to the following prompts and questions, “Highlight the words that help you identify and understand the speaker. Why does the speaker claim ‘I am not cruel, only truthful?’ Do you agree with the speaker? Why or why not? What does the mirror compare itself to in the second stanza? Highlight the words and phrases that help you understand this comparison. How would you describe the mirror’s attitude toward the woman?”</p> <p>Additionally, students discuss text dependent and text specific questions. For example, students complete the following task, “The speaker in ‘Mirror’ says that the woman is searching for ‘what she really is.’ In a small group, discuss whether mirrors show people the most accurate versions of themselves. Use details from the poem and personal experience to support your ideas.”</p>

Support your response with evidence from the text.” This question includes language from the Standard RI.9-10.4 where students are expected to explain how specific word choices affect the meaning and tone of a text.</p> <p>In Unit 5, Response to Change, students read an excerpt from “The Fever” a science writing by Sonia Shah. After reading the text, students respond to questions such as, “What historical allusions does the author make? Students also choose to independently read one or more of the following texts: “Before I got my eye put out,” a poem by Emily Dickinson; “What Our Telescopes Couldn’t See,” an essay by Pippa Goldschmid; an excerpt from “Big Bang: The Origin of the Universe,” an informational text by Simon Singh; and “By the Waters of Babylon,” a short story by Stephen Vincent Benét.</p> <p>With each of the texts, students answer questions and engage in tasks in order to make meaning of the complex texts. At the beginning of the unit, students are provided with a graphic organizer that allows them to gather evidence from each text that addresses the Essential Questions. While engaging with each of the complex texts, questions and tasks require students to closely analyze for meaning, craft, and structure.</p>

Students then analyze the text by responding to 1-5 constructive response questions which require students to cite textual evidence. Students also analyze language and vocabulary as it is used in the text. Students continue by working in groups to discuss the texts and to respond on a long writing task. After completing this work with all texts, students then use their built knowledge and annotations from the Unit Opener Graphic Organizer to organize ideas and complete the culminating writing task, which consists of a writing and speaking and listening task in response to the Essential Question of the Unit.</p> <p>In Unit 3, The Natural World, students conduct an analysis of "The Seventh Man," a short story by Haruki Murakami. Finally, students write a vignette to demonstrate their understanding of the mentor text. In the Unit 3 analysis of “The Seventh Man” by Haruki Murakami, students complete a series of analysis signposts throughout their reading of the text. Students then read the poem “Carry,” by Linda Hogan, answering a series of text analysis questions based on their understanding of both texts, including a series of compare and contrast questions.</p>

Throughout the unit, students engage in several different types of writing, speaking, and language tasks in the Close Reading Screencasts, Speaking and Listening Studio, Vocabulary and Grammar Studio, and the Reading and Writing Studio, all of which demonstrate the quality and language of ELA Standards for Grade 10. For example, students read, “What, of this Goldfish, you wish?,” to write a fable that includes an archetype and teaches a lesson and presents a fable, incorporating expression, gestures, and visuals. Students use context clues to define unfamiliar words and phrases, adjust writing for audience and purpose, and show comprehension of a short story through basic reading skills, such as rereading and retelling.</p> <p>In Lesson 2, students read “By Any Other Name,” to conduct research about a person who has changed his or her name. Then students read “American Flag Stands for Tolerance” where they research opinions to evaluate credibility and bias, write a letter to the editor that cites evidence, and participate in a class debate using opinions and evidence they gathered over the course of the unit. Finally, students complete the Collaborate and Compare section of the unit and respond to the prompt that asks them to, “Research what experts do to de-escalate heated conflicts. Take notes on recommended strategies that you think might be effective.”</p> <p>As students further engage with each of the texts within each of the units, questions and tasks follow the same model and procedure where students read and express understanding in writing, speaking and listening, and language.</p>

SCAFFOLDING AND SUPPORT: Materials provide all students, including those who read below grade level, with extensive opportunities and support to encounter and comprehend grade-level complex text as required by the standards. <input type="checkbox"/> Yes <input type="checkbox"/> No	Required 8a) As needed, pre-reading activities and suggested approaches to teacher scaffolding are focused and engage students with understanding the text itself (i.e. providing background knowledge, supporting vocabulary acquisition). Pre-reading activities should be no more than 10% of time devoted to any reading instruction.		See EdReports for more information.
	Required 8b) Materials do not confuse or substitute mastery of skills or strategies for full comprehension of text; reading strategies support comprehension of specific texts and focus on building knowledge and insight. Texts do not serve as platforms to practice discrete strategies.		See EdReports for more information.
	Required 8c) Materials include guidance and support that regularly directs teachers to return to focused parts of the text to guide students through rereading and discussion about the ideas, events, and information found there.		See EdReports for more information.
	Required 8d) Materials provide additional supports for expressing understanding through formal discussion and writing development (i.e. sentence frames, paragraph frames, modeled writing, student exemplars).		See EdReports for more information.
	Required 8e) Materials are easy to use and well organized for students and teachers. Teacher editions are concise and easy to manage with clear connections between teacher resources. The reading selections are centrally located within the materials and the center of focus.		See EdReports for more information.

I. K-12 Non-negotiable Criteria of Superior Quality⁷	1. Quality of Texts	Yes	Materials provide texts that are appropriately complex for the identified grade level according to the requirements outlined in the standards. At least 90% of texts are of publishable quality and offer rich opportunities for students to meet Grade 10 ELA standards. Texts are well-crafted, representing the quality of content, language, and writing that is produced by experts in various disciplines. Materials provide a coherent sequence or collection of connected texts that build vocabulary knowledge and knowledge about themes with connected topics and ideas through

			tasks in reading, writing, listening, speaking, and language. Within a sequence or collection, quality texts of grade level complexity are selected for multiple, careful readings throughout the unit of study.
	2. Text-Dependent Questions	Yes	A majority of questions in the materials are text dependent and text specific with student ideas expressed through both written and spoken responses. Questions and tasks include the language of the standards and require students to engage in thinking at the depth and complexity required by the grade-level standards to advance and deepen student learning over time.
	3. Coherence of Tasks	Yes	Coherence sequences of questions and tasks focus students on understanding the text and its illustrations, making connections among the texts in the collection, and expressing their understanding of the topics, themes, and ideas presented in the texts. Knowledge is built across the sequence of questions and tasks and supports students in making meaning of complex texts. Tasks and assessments demand the use of multiple texts and require students to build connections among texts that share a theme or topic. Questions and tasks are designed so that students build and apply knowledge and skills in reading, writing, speaking, listening, and language through quality, grade-level complex texts. Questions and tasks support students in examining the language critical to the meaning of texts measured by Criteria 1 and 2. Questions and tasks also focus on

Qualified for Abbreviated Review¹

The goal of English language arts is for students to read, understand, and express understanding of complex texts independently. To accomplish this goal, programs must build students' knowledge and skill in language, comprehension, conversations, and writing integrated around a volume of complex texts and tasks.² In grades K-5, programs must also build students' foundational skills to be able to read and write about a range of texts³ independently. Thus, a strong ELA classroom is structured with the below components.

¹ Abbreviated Reviews are conducted in K-12 ELA and K-12 Math for submissions that **Meet Expectations** for Gateways 1 and Gateway 2 through EdReports. Reviewers considered these reports as they reviewed materials for alignment to Louisiana state standards and quality Non-negotiable indicators. See the full EdReports review at <https://www.edreports.org/reports/overview/into-literature>.

² A volume of texts is a collection of texts written about similar topics, themes, or ideas.

³ A range of texts are texts written at different reading levels.

To evaluate instructional materials for alignment with the [standards](#) and determine tiered rating, begin with **Section I: Non-negotiable Criteria**.

- Review the **required**⁴ Indicators of Superior Quality for each **Non-negotiable** criterion.
- If there is a “Yes” for all **required** Indicators of Superior Quality, materials receive a “Yes” for that **Non-negotiable** Criterion.
- If there is a “No” for any of the **required** Indicators of Superior Quality, materials receive a “No” for that **Non-negotiable** Criterion.
- Materials must meet **Non-negotiable** Criterion 1 for the review to continue to **Non-negotiable** Criteria 2 and 3. For grades K-5, materials must meet all of the **Non-negotiable** Criteria 1-3 in order for the review to continue to Section II⁵ and all of the **Non-negotiable** Criteria 1-4 to continue to Section III. For grades 6-12, materials must meet **Non-Negotiable** Criteria 1-3 for the review to continue to Section III.
- If materials receive a “No” for any **Non-negotiable** Criterion, a rating of Tier 3 is assigned, and the review does not continue.

If all Non-negotiable Criteria are met, then continue to **Section III: Additional Criteria of Superior Quality**.

- Review the **required** Indicators of Superior Quality for each criterion.
- If there is a “Yes” for all **required** Indicators of Superior Quality, then the materials receive a “Yes” for the additional criteria.
- If there is a “No” for any **required** Indicator of Superior Quality, then the materials receive a “No” for the additional criteria.

Tier 1 ratings receive a “Yes” for all Non-negotiable Criteria and a “Yes” for each of the Additional Criteria of Superior Quality.

Tier 2 ratings receive a “Yes” for all Non-negotiable Criteria, but at least one “No” for the Additional Criteria of Superior Quality.

Tier 3 ratings receive a “No” for at least one of the Non-negotiable Criteria.

⁴ **Required Indicators of Superior Quality** are labeled “Required” and shaded yellow. Remaining indicators that are shaded white are included to provide additional information to aid in material selection and do not affect tiered rating.

⁵ For grades K-5: Materials must meet Non-negotiable Criterion 1 for the review to continue to Non-negotiable Criteria 2-3. Materials must meet all of the Non-negotiable Criteria 1-3 in order for the review to continue to Section II.

<p>SECTION I. K-12 NON-NEGOTIABLE CRITERIA OF SUPERIOR QUALITY Materials must meet Non-negotiable Criterion 1 for the review to continue to Non-negotiable Criteria 2 and 3. For grades K-5, materials must meet all of the Non-negotiable Criteria 1-3 in order for the review to continue to Section II and all of the Non-negotiable Criteria 1-4 in order for the review to continue to Section III. For grades 6-12, materials must meet all of the Non-Negotiable Criteria 1-3 in order for the review to continue to Section III.</p>			
<p>Non-negotiable 1. QUALITY OF TEXTS: Texts are of sufficient scope and quality to provide text-centered and integrated learning that is sequenced and scaffolded to (1) advance students toward independent reading of grade-level texts and (2) build content knowledge (e.g., ELA, social studies, science, and the arts). The quality of texts is high—they support multiple readings for various purposes and exhibit exceptional craft and thought and/or provide useful information. Materials present a progression of complex texts as stated by Reading Standard 10.</p> <p><i>(Note: In K and 1, Reading Standard 10 refers to read-aloud material. Complexity standards for student-read texts are applicable for grades 2+.)</i></p> <p><input checked="" type="checkbox"/> Yes <input type="checkbox"/> No</p>	<p>Required 1a) Materials provide texts that are appropriately complex for the identified grade level according to the requirements outlined in the standards.</p> <ul style="list-style-type: none"> • A text analysis that includes complexity information is provided. Measures for determining complexity include quantitative and qualitative analysis, as well as reader and task considerations. Poetry and drama are analyzed only using qualitative measures. • In grades K-2, extensive read-aloud texts allow sufficient opportunity for engagement with text more complex than students could read themselves. 	<p>Yes</p>	<p>Materials provide texts that are appropriately complex for the identified grade level according to the requirements outlined in the standards. The materials include a qualitative and quantitative complexity text analysis in the Teacher’s Edition in the “Planning” section at the beginning of each text. The resource demonstrates that materials are appropriate in complexity for students in Grade 11. The units are composed of a broad range of complexities that build toward the culminating task of the unit. The essential questions of the unit guide the focus of reading the included texts. The texts meet both qualitative and quantitative measures of complexity for Grade 11.</p> <p>For example, in Unit 1, Foundations and Encounters: Early American Literature, students read “The World on the Turtle’s Back” which has a Lexile measure of 850. Qualitatively, the text is considered complex due to its use of symbolism and the greater demand for students to make inferences while reading. Knowledge demands are deemed complex due to the complexity in theme due to experiences that may be unfamiliar to many students and the need</p>

This short story measures a 1260L which is of appropriate complexity for the grade level. Multiple levels of meaning and symbolism are present in this selection making it rigorous enough for Grade 11.</p> <p>In Unit 4, The Quest for Freedom, the mentor text, “Declaration of Sentiments,” by Elizabeth Cady Stanton, has a quantitative measure of 1430L which meets grade level complexity requirements. Appropriately complex texts within Unit 5, America Transformed, include, “The Story of an Hour,” by Kate Chopin, with a Lexile of 970. While this text measures below grade level quantitatively, the theme of the text is complex and multiple meanings are present which will require students to engage in high order rigorous thinking on an independent level. “Why Everyone Must Get Ready For The Fourth Industrial Revolution,” by Bernard Marr, has a Lexile of 1320L. This text is qualitatively complex due to some implied meaning which requires inferential reasoning, as well as complex structures which deviate from chronological or sequential order.</p>

Students also read the poem, “Here Follow Some Verses Upon the Burning of Our House, July 10th, 1666” by Anne Bradstreet. Bradstreet is noted as being the most prominent Early English poet and the first writer in England’s North American colonies to be published.</p> <p>In Unit 2, Building a Democracy, students engage with public, historical documents such as “The Declaration of Independence.” Students engage with published commentary on historical people and events such as “Thomas Jefferson: The Best of Enemies,” by American writer Ron Chernow, journalist, historian, and biographer. “A Soldier for the Crown,” a short story by Charles Johnson, National Book Award for Fiction winner and American Literature Association member. “Abigail Adams; Last</p>

Robert Hayden’s poem depicts the Underground Railroad, which helped lead escaped slaves to freedom in the 1800s. Students also read, “An Occurrence at Owl Creek Bridge” a short story by American short story writer, journalist, and poet, Ambrose Bierce.</p>

During the task, students complete the following prompt: “Write a literary analysis explaining how your chosen selection connects with the idea of being a stranger in a strange land or unfamiliar surroundings.” Some text titles include, but are not limited to, “The World on the Turtle’s Back,” a myth written by Iroquois Storytellers; “Balboa,” a short story by Sabina Murray; “A Desperate Trek Across America,” an article by Andrés Reséndez; and “Here Follow Some Verses Upon the Burning of Our House, July 10th, 1666,” a poem by Anne Bradstreet. Students also end Unit 1 with a reflection task that directly requires them to revisit the essential question, and reflect on their reading throughout the whole unit and the culminating writing task.</p> <p>Text sets build understanding and knowledge of a connected topic and tasks connect topics and ideas across multiple lessons. For example, the texts in Unit 2, Building a Democracy, are centered around essential questions that provide an opportunity for deeper exploration. This unit focuses on the revolutionary time period, and presents multiple essential questions for students to analyze the texts, including: “What does oppression look like? How do we gain our freedom? How can we share power and build alliances? How do we transform our lives?” Students explore the following texts in an order which allows</p>

			<p>students to understand and build knowledge about the topic of building America's democracy. After a historical introduction to the Revolutionary period, students begin the unit with the "Declaration of Independence". With this text, students explore the essential question "How do we gain our freedom?" Students read the text, analyze structure, analyze arguments made by the colonists, and apply critical vocabulary. After reading, students research laws passed by the British government that are referenced in the Declaration in an effort to determine the colonists' response to these laws. The tasks and questions students engage with in this text lay the foundation for the beginning of American democracy. Students then engage with "Thomas Jefferson: The Best of Enemies," by Ron Chernow. This text explores the essential question "How can we share power and build alliances?" The text outlines the two visions produced by Hamilton and Jefferson and the clash between these two divergent views of the country's future. Students also engage with the "Federalist Papers" which are referred to in the text to further understand the foundations of American Democracy. Students continue to engage with texts from various perspectives that reveal how American democracy came to exist today.</p>

Signposts are employed in the materials to provide multiple opportunities for students to reread and cite evidence in support of student created written responses.</p> <p>For example, in Unit 1, students read “A Desperate Trek Across America,” an article by Andrés Reséndez. Students analyze elements of an informational text before reading the article to build background knowledge of the text format. As students read, they analyze and evaluate evidence, historical content, and language conventions. After reading the text initially, students refer back to the text in order to complete the check for understanding and then analyze the text questions which require students to cite text evidence such as, “The author includes descriptions of ‘makeshift vessels’ manufactured using ‘jury-rigged’ tools. How do these descriptions affect your perception of the situation? Support your response with evidence from the text.” Furthermore, the materials ask students to build knowledge by analyzing critical vocabulary, vocabulary strategies, and language conventions such as, “Write three of your own sentences about Cabeza de Vaca’s experience using the examples as</p>

Write one example of each type of function—noun, adjective, and adverb.”</p> <p>In Unit 2, Building a Democracy, after the initial read and check for understanding of the texts, students read specific sections of the texts to analyze for details, structure, and language. For example, within the unit students read “A Soldier For The Crown,” a short story by Charles Johnson. After reading the text and checking for understanding, students respond to the text by analyzing vocabulary and language usage. When analyzing vocabulary, students refer back to the selection to locate the critical vocabulary (capacity, belatedly, unalienable, elusive) to understand the context so that they can identify the base word and at least three other words that can be formed by adding other prefixes or suffixes. Then, when analyzing language conventions, students complete the following task: “Read the passage from the story that includes the escape from the Selby farm. Write a third-person narrative of what the three characters did to prepare and to flee. Use a mix of singular and compound subjects and choose the correct verb form to show subject-verb agreement.” Students must re-read the text and identify examples of subject-verb agreements within the specific section in order to apply the skill to their own writing.</p>

Students analyze the poem for voice, research historical figures for deeper understanding of allusion, paraphrase the text to maintain meaning, present research aloud to a group, examine connotations of synonyms, and analyze language for allusions. For the culminating writing task, students compose an argument. Students are prompted to “Write an argument in which you identify a current barrier to self-determination and specify what should be done to remedy it, so that self-determination is possible for more members of our society.” Students must be able to find and cite relevant evidence and adapt their argument for a debate upon completion. Materials include writing tasks for students to analyze the author’s argument, cite evidence to support it, and identify the author’s call to action. Students are asked to conduct research about opposing consequences of the Civil War and write a letter responding to Lincoln’s address. Students answer text questions such as “An ethical appeal is a kind of appeal in which a writer links a claim to a widely accepted value. How does Lincoln use ethical appeals to build his argument? Cite text evidence in your response.” Students study photographs from the Civil War in Unit 4 and answer questions such as “Choose two of the images. How do these photos and captions present the experience of the Civil War? Do they present it similarly or differently? Explain.”</p> <p>In Unit 5, America Transformed, the majority of the questions require students to refer to the text and cite textual evidence in responses. Finally, students are provided a description and example of parallel structure and an annotation model to use throughout the reading of the text. The instruction for the model states, “As you read, notice how Jefferson presents his ideas. Highlight words or phrases that reveal key ideas, present evidence, or move the argument forward.”</p> <p>Unit 5, America Transformed: An Age of Realism, focuses on stories and essays that ask important questions about the power humans wield and how they interact with and build unique places. Through reading the collected unit texts, students begin to form an opinion to answer the essential questions “To what degree do we control our lives?” and “What are the consequences for change?” Students learn that life was difficult for many Americans after the Civil War. Many people struggled with poverty and oppression. By the end of the unit, students will have gathered enough information to be able to complete a</p>

For example, in Lesson 1, students read “Second Inaugural Address” to analyze the author’s argument, cite evidence to support it, and identify the author’s call to action. They conduct research about opposing consequences of the Civil War, write a letter responding to Lincoln’s address, and discuss and evaluate Lincoln’s address. In Lesson 2, To My Old Master, students identify text evidence that expresses the writer’s attitude and cite examples of the writer’s tone, conduct research to show cause-effect relationship of amendments on African American lives, write a biographical essay about Frederick Douglass, and give a presentation about Frederick Douglass to a small group. In Lesson 4, An Occurrence at Owl Creek Bridge, students use literary elements to understand a story, analyze the structure of a literary work, conduct research to answer specific questions, and discuss and write a short story. In Lesson 7, Runagate, Runagate, students analyze a poem for voice, research historical figures for deeper understanding of allusion and present their research to a group, paraphrase a text to maintain meaning, examine connotations of synonyms, and analyze language for allusions. Then students read, “Incidents from the Life of a Slave Girl.” Students</p>

Finally, students complete the Collaborate and Compare section that asks them to complete a Venn diagram with similarities and differences between the writer’s voices in the two texts and to continue exploring the ideas in these texts by collaborating on research to share in a group presentation.</p> <p>In Unit 5, America Transformed: An Age of Realism, the opportunities for reading, writing, speaking, listening and language can be observed in the Unit Opener in which students read a description that provides background information for the essential questions. Students then read a selection titled, The Age of Realism: Historical Introduction, that provides context for the unit. The Response Log in the Unit Opener allows students to write responses to each of the essential questions with details from the many texts read throughout the unit. Students conduct research by determining things about this historical period that interests them and choosing a topic, event, or person to learn more about. Then, students add their own entry to the timeline in the selection titled “The Age of Realism: Historical Introduction.” In the Unit Opener, students also discuss the essential questions as a whole class. Then, in a small group,</p>

Then, students fill out a Word Network for the remaining four words. Students also note how the author’s language contributes to a consistent tone by responding to Notice and Note signposts throughout the reading that include tasks and questions such as: “Highlight details in paragraph 19 that reveal the story’s tone. Analyze: How does this tone reflect the author’s attitude about man’s ability to control nature? Highlight the sentences in paragraph 24 that indicate the story’s tone. Analyze: Is the tone still consistent or has it changed? If it has changed, how so?”</p>

Students are instructed to “Complete the sentences to see how many Critical Vocabulary words you already know.” As students move through each text in the unit, new critical vocabulary words are assigned. When students read “Balboa,” they analyze the following critical vocabulary: pristine, supplant, protrude, provision, discord, and distinction. They complete sentence stems using the words. Following this section, students engage in a vocabulary strategy for verb tenses. Students apply the strategy by identifying how the author moves the story around in time by changing the verb tense. Students then read “Of Plymouth Plantation” and focus on the critical vocabulary: patent, clave, calamity, sundry, and divers. Students complete sentence stems using the vocabulary. Then, students read the text “Coming of Age in Dawnland” and focus on</p>

Students are provided the following support: “Mann’s writing contains language from a variety of sources. For example, he cites an archaeologist and ethnohistorian, recounts observations from Pilgrim writers, uses foreign words and phrases, and even uses some Native American words when there is no accurate or exact English translation. Many of the words he uses are examples of specialized vocabulary, or words specific to a particular topic.</p> <p>In Unit 2, Building Democracy, students use the text, “Thomas Jefferson: The Best Of Enemies,” by Ron Chernow, as a mentor text for the Writing Task: Write a Research Report. While working with the text, students learn about the hyphen and the various uses/purposes. Students analyze examples of the use of hyphens in the text and use hyphens correctly in the essay they wrote comparing Hamilton’s and Jefferson’s visions of the future. Throughout the unit students are given descriptions and examples about various language conventions concepts and complete the Practice and Apply sections. For example, students review the essay that they wrote for the Create and Present activity in which they evaluated Jefferson’s ideas. They are prompted to incorporate parallel structure</p>

Students also read a passage from the story that includes the escape from the Selby farm and then write a third-person narrative of what the three characters did to prepare and flee. Students are instructed to use a mix of singular and compound subjects and to choose the correct verb form to show subject verb-agreement.</p> <p>Questions and tasks also focus on building a depth of vocabulary knowledge. With each text, students complete tasks where they analyze word meaning and etymology, and apply their understanding of the word in context. For example, in the Academic Vocabulary, Write and Discuss section, students are prompted to “Discuss your completed Word Network with a partner, making sure to talk through all of the boxes until you both understand the word, its synonyms, antonyms, and related forms. Then, fill out a Word Network for the remaining four words. Use a dictionary or online resource to help you complete the activity.” Finally, students fill in each chart to create a semantic map for the critical vocabulary words, using print or online references to check their work.</p>

FINAL EVALUATION

Tier 1 ratings receive a “Yes” for all Non-negotiable Criteria and a “Yes” for each of the Additional Criteria of Superior Quality.
Tier 2 ratings receive a “Yes” for all Non-negotiable Criteria, but at least one “No” for the Additional Criteria of Superior Quality.
Tier 3 ratings receive a “No” for at least one of the Non-negotiable Criteria.

Compile the results for Sections I-III to make a final decision for the material under review.

CRITERIA	INDICATORS OF SUPERIOR QUALITY	MEETS METRICS (YES/NO)	JUSTIFICATION/COMMENTS WITH EXAMPLES
Section	Criteria	Yes/No	Final Justification/Comments
I. K-12 Non-negotiable Criteria of Superior Quality⁷	1. Quality of Texts	Yes	<p>Materials provide texts that are appropriately complex for the identified grade level according to the requirements outlined in the standards. At least 90% of texts are of publishable quality and offer rich opportunities for students to meet the grade-level ELA standards; the texts are well-crafted, representing the quality of content, language, and writing that is produced by experts in various disciplines. Materials provide a coherent sequence or collection of connected texts that build vocabulary knowledge and knowledge about themes with connected topics and ideas through tasks in reading, writing, listening, speaking, and language. Within a sequence or collection, quality texts of grade level complexity are selected for multiple, careful readings throughout the unit of study. These texts are revisited as needed to support knowledge building. The materials have close reading and analysis tasks built in that ensure that multiple readings support a student’s ability to build knowledge throughout the course of the unit.</p>
	2. Text-Dependent Questions	Yes	<p>A majority of questions in the materials are text dependent and text specific; student ideas are expressed through both written and spoken responses. Most questions, tasks, and assignments are text dependent/specific, requiring students to</p>

⁷ Must score a “Yes” for all Non-negotiable Criteria to receive a Tier I or Tier II rating.

			<p>engage with the text directly that builds to a culminating writing task which integrates skills to demonstrate understanding. Majority of the questions are text dependent, require the students to analyze the author’s craft, and reinforce their response with evidence from specific texts they were required to read. Questions and tasks include the language of the standards and require students to engage in thinking at the depth and complexity required by the grade-level standards to advance and deepen student learning over time.</p>
	3. Coherence of Tasks	Yes	<p>Coherent sequences of questions and tasks focus students on understanding the text and its illustrations, making connections among the texts in the collection, and expressing their understanding of the topics, themes, and ideas presented in the texts. Questions and tasks are designed so that students build and apply knowledge and skills in reading, writing, speaking, listening, and language through quality, grade-level complex texts. Questions and tasks support students in examining the language (vocabulary, sentences, and structure) critical to the meaning of texts measured by Criteria 1 and 2. Questions and tasks also focus on advancing depth of word knowledge through emphasizing word meaning and relationships among words rather than isolated vocabulary practice, and engaging students with multiple repetitions of words in varied contexts.</p>

Qualified for Abbreviated Review¹

The goal of English language arts is for students to read, understand, and express understanding of complex texts independently. To accomplish this goal, programs must build students' knowledge and skill in language, comprehension, conversations, and writing integrated around a volume of complex texts and tasks.² In grades K-5, programs must also build students' foundational skills to be able to read and write about a range of texts³ independently. Thus, a strong ELA classroom is structured with the below components.

¹ Abbreviated Reviews are conducted in K-12 ELA and K-12 Math for submissions that **Meet Expectations** for Gateways 1 and Gateway 2 through EdReports. Reviewers considered these reports as they reviewed materials for alignment to Louisiana state standards and quality Non-negotiable indicators. See the full EdReports review at <https://www.edreports.org/reports/overview/into-literature>.

² A volume of texts is a collection of texts written about similar topics, themes, or ideas.

³ A range of texts are texts written at different reading levels.

To evaluate instructional materials for alignment with the [standards](#) and determine tiered rating, begin with **Section I: Non-negotiable Criteria**.

- Review the **required**⁴ Indicators of Superior Quality for each **Non-negotiable** criterion.
- If there is a “Yes” for all **required** Indicators of Superior Quality, materials receive a “Yes” for that **Non-negotiable** Criterion.
- If there is a “No” for any of the **required** Indicators of Superior Quality, materials receive a “No” for that **Non-negotiable** Criterion.
- Materials must meet **Non-negotiable** Criterion 1 for the review to continue to **Non-negotiable** Criteria 2 and 3. For grades K-5, materials must meet all of the **Non-negotiable** Criteria 1-3 in order for the review to continue to Section II⁵ and all of the **Non-negotiable** Criteria 1-4 to continue to Section III. For grades 6-12, materials must meet **Non-Negotiable** Criteria 1-3 for the review to continue to Section III.
- If materials receive a “No” for any **Non-negotiable** Criterion, a rating of Tier 3 is assigned, and the review does not continue.

If all Non-negotiable Criteria are met, then continue to **Section III: Additional Criteria of Superior Quality**.

- Review the **required** Indicators of Superior Quality for each criterion.
- If there is a “Yes” for all **required** Indicators of Superior Quality, then the materials receive a “Yes” for the additional criteria.
- If there is a “No” for any **required** Indicator of Superior Quality, then the materials receive a “No” for the additional criteria.

Tier 1 ratings receive a “Yes” for all Non-negotiable Criteria and a “Yes” for each of the Additional Criteria of Superior Quality.

Tier 2 ratings receive a “Yes” for all Non-negotiable Criteria, but at least one “No” for the Additional Criteria of Superior Quality.

Tier 3 ratings receive a “No” for at least one of the Non-negotiable Criteria.

⁴ **Required Indicators of Superior Quality** are labeled “Required” and shaded yellow. Remaining indicators that are shaded white are included to provide additional information to aid in material selection and do not affect tiered rating.

⁵ For grades K-5: Materials must meet Non-negotiable Criterion 1 for the review to continue to Non-negotiable Criteria 2-3. Materials must meet all of the Non-negotiable Criteria 1-3 in order for the review to continue to Section II.

The resource demonstrates that materials are appropriate in complexity for students in Grade 12. The units are composed of a broad range of complexities that build toward the culminating task of the unit. The essential questions of the unit guide the focus of reading the included texts. The texts meet both qualitative and quantitative measures of complexity for Grade 12.</p> <p>For example, in Unit 1, Origin of a Nation, students read the mentor text “Chivalry,” by Neil Gaiman, with a Lexile of 810L. The quantitative measure falls well below the grade band; however, the qualitative measures make this text appropriate for Grade 12 due to the structure and language used and because the ideas presented require some inferential reasoning. In Unit 2, A Celebration of Human Achievement: The English Renaissance (1485L–1660L), students engage with texts that fall within the</p>

			<p>recommended Lexile for Grade 12. For example, students engage with text titles that include but are not limited to: “Hamlet’s Dull Revenge,” literary criticism by René Girard (1290L), “Speech Before the Spanish Armada Invasion,” a speech by Queen Elizabeth I (1310L), “For Army Infantry’s First Women, Heavy Packs and the Weight of History,” an article by Dave Philipps (1140L), and “Elizabeth I: The Reality Behind the Mask,” an article by Brenda Ralph Lewis (1220L).</p> <p>Texts in Unit 3 have Lexile measures between 1160L and 1590L on a quantitative scale ensuring these materials are within the appropriate range for Grade 12. In Unit 4, Emotion and Experimentation, students read “Frankenstein: Giving Voice to the Monster,” by Langdon Winner, (1350L) which meets the grade level requirements. It is appropriately supported with collaborative discussion questions, vocabulary mini-lessons on Latin roots, and a selection of the Frankenstein novel precedes it.</p> <p>Furthermore, in Unit 4, students read several poems such as “Ode on a Grecian Urn” that do not have Lexile levels, but the qualitative measures make them appropriate for Grade 12. Unit 6 materials range between 640L and 1260L on a quantitative scale. Qualitatively, the unit tackles heavy topics and are of appropriate complexity for Grade 12.</p>

For example, in Unit 4, Emotion and Experimentation, students read “Frankenstein,” a novel by Mary Shelley. This science fiction novel asks students to analyze how a character deals with a moral dilemma caused by scientific progress. Students also read various poems by English Romantic poet, William Wordsworth, whose works contributed to the Romantic Age in English literature. “Ode on a Grecian Urn” by prominent English poet, John Keats. Students also read the article, “William Blake: Visions and Verses” by author and poet, Rachel Galvin</p> <p>In Unit 5, An Era of Rapid Change: The Victorians, students engage with texts written by world-renowned, historical British authors. For example, students read excerpts from the text “Great Expectations,” written by Charles Dickens, which is a coming-of-age novel, and it is a classic work of Victorian literature. The novel was first published in serial form in Dickens's weekly periodical, “All the Year Round,” from December 1860 to August 1861. Afterwards, students engage in with the text “The Victorians Had the Same Concerns About Technology as We Do,” an essay written by</p>

The Victorian poet Robert Browning (1812 – 1889) is known for his inspired development of the dramatic monologue. Other texts within the unit that are of publishable quality include: an excerpt from “Jane Eyre,” by Charlotte Bront; “Factory Reform,” a documentary by Timelines.tv; “The Lady Of Shalott,” a narrative poem by Alfred, Lord Tennyson; “Dover Beach Poem,” by Matthew Arnold; and “The Darkling Thrush,” a poem by Thomas Hardy. Students also have the choice of multiple high quality texts for use during independent reading such as: “Sonnet 43,” a poem by Elizabeth Barrett Browning; “Remembrance,” a poem by Emily Brontë; “The Great Exhibition,” an article by Lara Kriegel; “Christmas Storms and Sunshine,” a short story by Elizabeth Cleghorn Gaskell; and “Evidence of Progress,” an essay by Thomas Babington Macaulay.</p>

By the end of the unit, students write a short story which is related to one of the essential questions. All of the texts in the unit revolve around the essential question and require students to read fiction and nonfiction texts to build their knowledge so that they can demonstrate their understanding at the end of the unit writing task. During the task, students complete the following prompt: “Write a short story about a hero from the past or in your own world. For an example of well-written fiction, you can review, and use as a mentor text, the short story ‘Chivalry’ by Neil Gaiman.” The texts within the unit include: an excerpt from “Beowulf: Grendel, Beowulf, The Battle with Grendel,” an epic poem translated by Seamus Heaney; an excerpt from from “The Canterbury Tales: The Wife of Bath’s Tale,” a narrative poem written by Geoffrey Chaucer and translated by Nevill Coghill; an excerpt from “Le Morte d’Arthur,” a romance written by Sir Thomas Malory and retold by Keith Baines; “Chivalry,” a short story by Neil Gaiman; excerpts from “The Paston Letters,” letters by the Paston family; “My Syrian Diary,” a diary by Marah; “The Wanderer,” a poem translated by Burton Raffel; and “Loneliness,” a poem by Fanny Howe. As students progress throughout the unit, they explore four different essential questions: “What can drive someone to seek revenge? How does time affect our feelings? What’s the difference between love and passion? How do you defy expectations?” For example, as students read “Hamlet,” by William Shakespeare, they explore the ideas of conflict and the various struggles that Hamlet faces in an effort to respond to the first essential question, “What can drive someone to seek revenge?” The following questions are provided to guide students thinking while reading: “How can he be certain about what happened to his father? How can he live up to his family duties? How should he judge his mother’s behavior? How will his actions affect the fate of his soul as well as his enemy’s soul? How can he reconcile the corruption and nobility within human nature?” This exploration continues with the viewing of a clip from “Hamlet,” a film by BBC Shakespeare, and the reading of “Hamlet’s Dull Revenge,” a literary criticism by René Girard. Similarly, within the same unit, students engage with texts to respond</p>

These texts are revisited as needed to support knowledge building. The materials have close reading and analysis tasks built in to ensure that multiple readings support a student’s ability to build knowledge throughout the course of the unit. Signposts are employed in the materials to provide multiple opportunities for students to reread and cite evidence in support of student created written responses.</p> <p>For example, in Unit 4 students read, “Lines Composed a Few Miles Above Tintern Abbey”, “Composed upon Westminster Bridge, September 3, 1802”, and “I wandered lonely as a cloud”, poems by William Wordsworth. Throughout this section of the unit, students analyze romantic poetry and imagery in several different poems, conduct research about places in England that were settings for Wordsworth’s poems, write a summary, and participate in a discussion. Support your response with evidence from the text.” Furthermore, students read the mentor text “Frankenstein.” In this part of the unit, students analyze science fiction and motivation, conduct research about scientific and medical knowledge in the early 19th century, write a science fiction story, and participate in a discussion. Students refer back to the text repeatedly to answer the Analyze the Text questions such as: “In paragraph 3, Frankenstein dreams that Elizabeth, a woman he loves, turns into a corpse after he kisses her. How does this dream reflect his experience in the previous paragraph? Support your response with evidence from the text.” After students move through the entire unit, they are prompted to refer back to the mentor texts to help them complete the culminating writing task.</p> <p>In Unit 5, An Era of Rapid Change: The Victorians, students carefully read texts multiple times to further analyze the author's choices. For example, after the initial read of “Jane Eyre,” students obtain a film version of the text in order to write a comparison between the text and film to analyze how effectively the film version</p>

Then students find and view similar scenes from the film. When students read an excerpt from “Great Expectations,” by Charles Dickens, they return to the text for a second time to analyze the language within the text. After an initial read, students are prompted to “Read the following line from Great Expectations. Identify the adjectives and verbs in the sentence that create imagery, and then write your own sentence using similar elements to appeal to the senses.”</p> <p>In Unit 6, students read, “Budget 2016: George Osborne's Speech/Will the Sugar Tax Stop Childhood Obesity?” and are tasked with analyzing a persuasive speech. Repeated re-reads are focused on evaluating the rhetoric of the argument. Knowledge builds as students are working on the analysis of the various appeals used by the speaker.</p>

Why or why not? Support your response with evidence from the text.” Students analyze characterization and fantasy, conduct research about Sir Galahad, write and dramatize a fantasy scene, use context clues to determine the meaning of words and phrases, and identify appositives and appositive phrases. Support your responses with evidence from the text.”</p> <p>In Unit 2, A Celebration of Human Achievement: The English Renaissance (1485–1660), students engage with informational texts to consider the historical context, time period, and purpose of each text. Students also consider similarities and differences in how each audience is addressed. Finally, students make note of the topics and ideas shared by both texts. While reading an excerpt from the “Speech Before The Spanish Armada Invasion,” by Queen Elizabeth I, students respond to the following questions: “In lines 1-7, highlight Elizabeth’s reason for ignoring warnings about her safety. Why were some people worried about her giving this speech?” and “Highlight instances of repetition and parallelism in lines 16–26. What ideas are emphasized by the queen’s use of these devices?”</p> <p>In Unit 4, Emotions and Experimentation: The Flowering of Romanticism, questions require students to refer to the text and cite textual evidence in the majority of their responses. For example, after reading “Lines Composed a Few Miles Above Tintern Abbey,” students analyze the details in lines 1-22 and determine which lines suggest that Wordsworth preferred to celebrate the individual in his work rather than society.</p>

This can be found in Writing Tasks, Respond, Notice & Note and other exercises throughout each reading assignment. Lessons and activities are meant to build upon the text and allow students to complete culminating tasks. In Lesson 1, students read the text “Beowulf” and work to analyze characteristics of epic poems and the techniques of Old English poetry, conduct research about epic poems of various cultures, and write a poem about a person with strong ideals and values. Finally, students complete the Collaborate and Compare section that asks them to analyze the use of imagery, diction, figurative language, and other elements to determine the theme of the poems. In a group, students discuss questions such as “With your group, review the imagery that you cited in your chart. How are the images in the two poems similar? How do they differ?” and “In ‘Ode to the West Wind,’ Shelley uses elevated language and formal diction; however, in ‘Song of a Thatched Hut Damaged in Autumn Wind,’ Du Fu does the opposite. This should include monitoring that will allow students to receive regular feedback on their oral reading fluency in the specific areas of appropriate rate, expressiveness, and accuracy.		
	Required *Indicator for grades K-5 only 4h) Materials provide opportunities for students to self-monitor to confirm or self-correct word errors directing students to reread purposefully to acquire accurate meaning.	N/A	Not applicable for this grade level.
	Required *Indicator for grades K-5 only 4i) Materials provide instruction and practice in word study. <ul style="list-style-type: none"> • In grades K-2, materials provide instruction and practice in word study including pronunciation, roots, prefixes, suffixes and spelling/sound patterns, as well as decoding of grade-level words, by using sound-symbol knowledge and knowledge of syllabication and regular practice in encoding (spelling) the sound symbol relationships of English. (<i>Note: Instruction and practice with roots, prefixes, and suffixes is applicable for grade 1 and higher.</i>) • In grades 3-5, materials provide instruction and practice in word study including systematic examination of grade-level morphology, decoding of multisyllabic words by using syllabication, and automaticity with grade-level regular and irregular spelling patterns. 	N/A	Not applicable for this grade level.
	Required *Indicator for grades K-2 only 4j) Materials provide opportunities for teachers to assess students' mastery of foundational skills and respond to the needs of individual students based on ongoing assessments offered at regular intervals. Monitoring includes attention to invented spelling as appropriate for its diagnostic value.	N/A	Not applicable for this grade level.

	Required *Indicator for grades K-5 only 4k) Foundational Skill materials are abundant and easily implemented so that teachers can spend time, attention and practice with students who need foundational skill supports.	N/A	Not applicable for this grade level.
Section III. Additional Criteria of Superior Quality			
5. RANGE AND VOLUME OF TEXTS: Materials reflect the distribution of text types and genres suggested by the standards (e.g. RL.K.9, RL.1.5, RI.1.9, RL.2.4, RI.2.3, RL.3.2, RL.3.5, RI.4.3, RL.5.7, RI.7.7, RL.8.9, RI.9-10.9, and RL.10/RI.10 across grade levels.) <input type="checkbox"/> Yes <input type="checkbox"/> No	Required 5a) Materials seek a balance in instructional time between literature and informational texts. (Reviewers will consider the balance within units of study as well as across the entire grade level using the ratio between literature/informational texts to help determine the appropriate balance.) <ul style="list-style-type: none"> • The majority of informational texts have an informational text structure. • In grades 3-12, narrative structure (e.g. speeches, biographies, essays) of informational text are also included. 		See EdReports for more information.
	Required 5b) Materials include print and/or non-print texts in a variety of formats (e.g. a range of film, art, music, charts, etc.) and lengths (e.g. short stories and novels).		See EdReports for more information.
	5c) Additional materials provide direction and practice for regular, accountable independent reading of texts that appeal to students' interests to build reading stamina, confidence, motivation, and enjoyment and develop knowledge of classroom concepts or topics.		See EdReports for more information.
6. WRITING TO SOURCES, SPEAKING AND LISTENING, AND LANGUAGE: The majority of tasks are text-dependent or text-specific, reflect the writing genres named in the standards, require communication skills	Required 6a) Materials include a variety of opportunities for students to listen, speak, and write about their understanding of texts measured by Criteria 1 and 2; those opportunities are prominent, varied in length and time demands (e.g., informal peer conversations, note taking, summary writing, discussing and writing short-answer responses, whole-class formal discussions, shared writing, formal essays in different genres, on-demand and process writing, etc.), and require students		See EdReports for more information.

	Required *Indicator for grades 3-12 only 6b) The majority of oral and written tasks require students to demonstrate the knowledge they built through the analysis and synthesis of texts, and present well defended claims and clear information , using grade-level language and conventions and drawing on textual evidence to support valid inferences from text.		See EdReports for more information.
	Required 6c) Materials include multiple writing tasks aligned to the three modes of writing (opinion/argumentative, informative, narrative) as outlined by the standards at each grade level. <ul style="list-style-type: none"> • As students progress through the grades, narrative prompts decrease in number and increase in being based on text(s). • In grades 3-12, tasks may include blended modes (e.g., analytical writing). 		See EdReports for more information.
	Required 6d) Materials address the grammar and language conventions specified by the language standards at each grade level and build on those standards from previous grade levels through application and practice of those skills in the context of reading and writing about unit texts. <ul style="list-style-type: none"> • For example, materials create opportunities for students to analyze the syntax of a quality text to determine the text’s meaning and model their own sentence construction as a way to develop more complex sentence structure and usage. 		See EdReports for more information.

⁶ Technology and digital media may be used, when appropriate, to support the standards addressed in this indicator.

<p>7. ASSESSMENTS: Materials offer assessment opportunities that genuinely measure progress and elicit direct, observable evidence of the degree to which students can independently demonstrate the assessed grade-specific standards with appropriately complex text(s).</p> <p><input type="checkbox"/> Yes <input type="checkbox"/> No</p>	<p>Required 7a) Materials use varied modes of assessment, including a range of pre-, formative, summative and self-assessment measures.</p>		See EdReports for more information.
	<p>Required 7b) Materials assess student understanding of the topics, themes, and/or ideas presented in the unit texts. Questions and tasks are developed so that students demonstrate the knowledge and skill built over the course of the unit.</p>		See EdReports for more information.
	<p>Required 7c) Aligned rubrics or assessment guidelines (such as scoring guides or student work exemplars) are included and provide sufficient guidance for interpreting student performance.</p>		See EdReports for more information.
	<p>Required 7d) Measurement of progress via assessments include gradual release of supporting scaffolds for students to measure their independent abilities.</p>		See EdReports for more information.
	<p>7e) Materials assess student proficiency using methods that are unbiased and accessible to all students.</p>		See EdReports for more information.
<p>8. SCAFFOLDING AND SUPPORT: Materials provide all students, including those who read below grade level, with extensive opportunities and support to encounter and comprehend grade-level complex text as required by the standards.</p> <p><input type="checkbox"/> Yes <input type="checkbox"/> No</p>	<p>Required 8a) As needed, pre-reading activities and suggested approaches to teacher scaffolding are focused and engage students with understanding the text itself (i.e. providing background knowledge, supporting vocabulary acquisition). Pre-reading activities should be no more than 10% of time devoted to any reading instruction.</p>		See EdReports for more information.
	<p>Required 8b) Materials do not confuse or substitute mastery of skills or strategies for full comprehension of text; reading strategies support comprehension of specific texts and focus on building knowledge and insight. Texts do not serve as platforms to practice discrete strategies.</p>		See EdReports for more information.

CRITERIA	INDICATORS OF SUPERIOR QUALITY	MEETS METRICS (YES/NO)	JUSTIFICATION/COMMENTS WITH EXAMPLES
	<p>Required 8c) Materials include guidance and support that regularly directs teachers to return to focused parts of the text to guide students through rereading and discussion about the ideas, events, and information found there.</p>		See EdReports for more information.
	<p>Required 8d) Materials provide additional supports for expressing understanding through formal discussion and writing development (i.e. sentence frames, paragraph frames, modeled writing, student exemplars).</p>		See EdReports for more information.
	<p>Required 8e) Materials are easy to use and well organized for students and teachers. Teacher editions are concise and easy to manage with clear connections between teacher resources. The reading selections are centrally located within the materials and the center of focus.</p>		See EdReports for more information.
	<p>Required 8f) Appropriate suggestions and materials are provided for supporting varying student needs at the unit and lesson level (e.g., alternate teaching approaches, pacing, instructional delivery options, suggestions for addressing common student difficulties to meet standards, reteaching strategies or suggestions for supporting texts, suggestions for more advanced texts for extension, etc.).</p>		See EdReports for more information.
	<p>8g) The content can be reasonably completed within a regular school year and the pacing of content allows for maximum student understanding. Materials provide guidance about the amount of time a task might reasonably take.</p>		See EdReports for more information.

FINAL EVALUATION

Tier 1 ratings receive a “Yes” for all Non-negotiable Criteria and a “Yes” for each of the Additional Criteria of Superior Quality.
Tier 2 ratings receive a “Yes” for all Non-negotiable Criteria, but at least one “No” for the Additional Criteria of Superior Quality.
Tier 3 ratings receive a “No” for at least one of the Non-negotiable Criteria.

Compile the results for Sections I-III to make a final decision for the material under review.

CRITERIA	INDICATORS OF SUPERIOR QUALITY	MEETS METRICS (YES/NO)	JUSTIFICATION/COMMENTS WITH EXAMPLES
Section	Criteria	Yes/No	Final Justification/Comments
I. K-12 Non-negotiable Criteria of Superior Quality⁷	1. Quality of Texts	Yes	Materials provide texts that are appropriately complex for the identified grade level according to the requirements outlined in the standards. At least 90% of texts are of publishable quality and offer rich opportunities for students to meet the grade-level ELA standards; the texts are well-crafted, representing the quality of content, language, and writing that is produced by experts in various disciplines. Materials provide a coherent sequence or collection of connected texts that build vocabulary knowledge and knowledge about themes with connected topics and ideas through tasks in reading, writing, listening, speaking, and language. Within a sequence or collection, quality texts of grade level complexity are selected for multiple, careful readings throughout the unit of study. These texts are revisited as needed to support knowledge building. The materials have close reading and analysis tasks built in that ensure that multiple readings support a student's ability to build knowledge throughout the course of the unit.
	2. Text-Dependent Questions	Yes	A majority of questions in the materials are text dependent and text specific; student ideas are expressed through both written and spoken responses. Most questions, tasks, and assignments are text dependent/specific, requiring students to

⁷ Must score a "Yes" for all Non-negotiable Criteria to receive a Tier I or Tier II rating.

			engage with the text directly that builds to a culminating writing task which integrates skills to demonstrate understanding. Majority of the questions are text dependent, require the students to analyze the author’s craft, and reinforce their response with evidence from specific texts they were required to read. Questions and tasks include the language of the standards and require students to engage in thinking at the depth and complexity required by the grade-level standards to advance and deepen student learning over time.
	3. Coherence of Tasks	Yes	Coherent sequences of questions and tasks focus students on understanding the text and its illustrations, making connections among the texts in the collection, and expressing their understanding of the topics, themes, and ideas presented in the texts. Questions and tasks are designed so that students build and apply knowledge and skills in reading, writing, speaking, listening, and language through quality, grade-level complex texts. Questions and tasks support students in examining the language (vocabulary, sentences, and structure) critical to the meaning of texts measured by Criteria 1 and 2. Questions and tasks also focus on advancing depth of word knowledge through emphasizing word meaning and relationships among words rather than isolated vocabulary practice, and engaging students with multiple repetitions of words in varied contexts.

⁹ Must score a “Yes” for all Additional Criteria of Superior Quality to receive a Tier I rating.

Instructional materials are one of the most important tools educators use in the classroom to enhance student learning. It is critical that they fully align to state standards—what students are expected to learn and be able to do at the end of each grade level or course—and are high quality if they are to provide meaningful instructional support.

The Louisiana Department of Education is committed to ensuring that every student has access to high-quality instructional materials. In Louisiana all districts are able to purchase instructional materials that are best for their local communities since those closest to students are best positioned to decide which instructional materials are appropriate for their district and classrooms. To support local school districts in making their own local, high-quality decisions, the Louisiana Department of Education leads online reviews of instructional materials.

Instructional materials are reviewed by a committee of Louisiana educators. Teacher Leader Advisors (TLAs) are a group of exceptional educators from across Louisiana who play an influential role in raising expectations for students and supporting the success of teachers. Teacher Leader Advisors use their robust knowledge of teaching and learning to review instructional materials.

The [2020-2021 Teacher Leader Advisors](#) are selected from across the state and represent the following parishes and school systems: Acadia, Ascension, Beauregard, Bossier, Caddo, Calcasieu, City of Monroe, Claiborne, Diocese of Alexandria, East Baton Rouge, Evangeline, Firstline Schools, Iberia, Iberville, Jefferson, Jefferson Davis, Jefferson Parish Charter, KIPP, Lafayette, Lafourche, Lincoln, Livingston, Louisiana Tech University, Louisiana Virtual Charter Academy, Lusher Charter School, Natchitoches, Orleans, Ouachita, Plaquemines, Pointe Coupee, Rapides, Richland, Special School District, St. Charles, St. Landry, St. Tammany, Tangipahoa, Tensas, Vermillion, Vernon, West Feliciana, and Zachary Community. This review represents the work of current classroom teachers with experience in grades 3-12.
