## TECHNOLOGY SPECIFICATIONS

Technology specifications refer to the minimal technical requirements needed by a school or school district in order to adequately access and implement the instructional materials in the manner in which the publisher intended. The Louisiana Department of Education (LDOE) is committed to supporting districts in achieving technology readiness goals in all schools across the state. Skillful coordination and planning are required to ensure students and teachers can access high quality electronic instructional materials. Alignment between the technical specifications and local capacity supports the local allocation of resources in ways that ensure students have access to high-quality instructional materials.

**Instructions:** Complete this form and save in the following filename format: **6\_VendorName\_TechSpecs.doc/pdf**  
 For document 6, insert your company name, and leave the file named as TechSpecs, then save in either word or pdf file format.  
 Upload or email this file as part of your IMR submission.

Sample technical specification components	Publisher technical specifications
Device required (e.g., Desktop, Laptop, Tablet)	Carolina Science Online (CSO) is delivered as a web service that is device agnostic.
Operating System (Windows/Mac)	Carolina Science Online (CSO) is a web service that functions within any industry standard browser on all platforms and operating systems.
Memory (RAM) (e.g., 4GB)	CSO is delivered as a web service via industry standard browser. Minimums RAM requirements (e.g. Chrome 128MB) are easily eclipsed by devices available in today’s market (e.g. Standard Chromebook 2GB).
Hard Drive (e.g., 160GB)	CSO is delivered as a web service and does not require local storage to operate.
Software Requirements (e.g., Office, Adobe, GameMaker etc.)	CSO is delivered as a web service. Content is accessed via industry standard browser and does not require proprietary plugins, or third-party software.
Hardware Requirements (Laptop)	Carolina Science Online (CSO) is device agnostic. Content operates in an industry standard browser but is not optimized for mobile/smartphone devices.
Internet Connection (e.g., 1Mbps, broadband)	The largest assets (or most bandwidth intensive) are video files for which we recommend a minimum bandwidth, per user session, of 0.1MB/second.

Web Browser Supported (Google Chrome, Safari, Internet Explorer)	Carolina Science Online (CSO) is a web service that functions within any industry standard browser on all platforms and operating systems.
Antivirus Software	CSO does not require antivirus software, however, using said software is a recommended practice for all devices exposed to network traffic.
Accessories (Headsets, speakers, CD-RW/DVD Drive, Wireless or Ethernet Network, etc.)	Carolina Science Online (CSO) is a web service and requires internet access. We recommend a minimum bandwidth, per user session, of 0.1MB/second.
