TECHNOLOGY SPECIFICATIONS

Technology specifications refer to the minimal technical requirements needed by a school or school district in order to adequately access and implement the instructional materials in the manner in which the publisher intended. The Louisiana Department of Education (LDOE) is committed to supporting districts in achieving technology readiness goals in all schools across the state. Skillful coordination and planning are required to ensure students and teachers can access high quality electronic instructional materials. Alignment between the technical specifications and local capacity supports the local allocation of resources in ways that ensure students have access to high-quality instructional materials.

Instructions: Complete this form and save in the following filename format: **6_VendorName_TechSpecs.doc/pdf**
 For document 6, insert your company name, and leave the file named as TechSpecs, then save in either word or pdf file format.
 Upload or email this file as part of your IMR submission.

Sample technical specification components	Publisher technical specifications
Device required (e.g., Desktop, Laptop, Tablet)	The HMH Into programs are accessible on desktops, laptops, and mobile devices that meet the operating system, browser, and minimum display size requirements detailed in this table.
Operating System (Windows/Mac)	<p>Supported operating systems currently include Windows 7, 8.1, and 10; Mac 10.13, 10.14, and 10.15; iOS 11, 12, and 13 (7"+screen); Android 7.1 and above (7"+screen); Chrome OS. HMH maintains an updated <i>Product Technology Snapshot</i> at https://customercare.hmhco.com/csrportalnew/pts/home/ that provides details on supported operating systems and recommended configurations.</p> <p>Please note: Operating systems and browsers are frequently updated, and HMH attempts to maintain alignment with these updates as soon as possible to support the best learning experience. The <i>Product Technology Snapshot</i> may say that Windows 7, Mac 10.13, and iOS 11 are currently supported, but support for these operating systems will be ending in June 2020.</p>

Memory (RAM) (e.g., 4GB)	The following RAM details are recommended: 1 GB (minimum); 8 GB (optimum).
Hard Drive (e.g., 160GB)	Since our digital program materials are web-based, cloud-hosted, and accessed via modern browsers that utilize HTML5 technology, we do not have specific hard drive requirements.
Software Requirements (e.g., Office, Adobe, GameMaker etc.)	Some program content is in PDF format, so Adobe Reader or Adobe Acrobat 9 (or later) is needed.
Hardware Requirements (Laptop)	Any hardware requirements delineated in this table are applicable to desktops/laptops.
Internet Connection (e.g., 1Mbps, broadband)	<p>Our web-based platforms are global in scale and support over a million users on a daily basis. We can easily support all applicable Louisiana school district users at the same time.</p> <p>The number of users and their consumption will depend on how each district's network is configured (or user's home network), what activities students are doing, and the type of content being accessed (streaming video, for example, is much larger than taking a text-based assessment). We do recommend an average of 250 kbps of bandwidth per concurrent workstation or mobile device. No matter how fast the network connection between workstation and server, if other bandwidth-intensive activities (VoIP, streaming videos, audio downloads, database backups, etc.) are running on the network at the same time, program performance may suffer. For this reason, HMH recommends the use of packet-shaping techniques on heavily trafficked networks, as well as an industry-standard switched network for optimal performance.</p>
Web Browser Supported (Google Chrome, Safari, Internet Explorer)	<p>HMH's learning platforms are a web-based, cloud-hosted infrastructure. We currently support multiple modern browsers, including Chrome (latest; recommended browser), Firefox (latest), Safari (latest), and Edge. Please see our updated <i>Product Technology Snapshot</i> at https://customercare.hmhco.com/csrportalnew/pts/home/ for details on supported browsers.</p>
Antivirus Software	We utilize anti-virus and anti-malware software on our

	systems.
Accessories (Headsets, speakers, CD-RW/DVD Drive, Wireless or Ethernet Network, etc.)	No external devices are required.
Add Others	We recommend reviewers visit the following link for a listing of required ports and details on URLs that should be whitelisted and allowed to pass through school district firewalls, proxies, and content filters: https://customercare.hmhco.com/product/techsupport/CCTechSupportSearchResults.html?isid=52829 .

	Check All That Apply	Comment or Explanation	Organization that Maintains the Standard
Available in PDF Format	X	Some program content is available in PDF format.	Adobe
Available in ePub Format	X		International Digital Publishing Form
Accessible Course within an Open Learning Management System (LMS)	X	HMH programs available in the IMS Global Common Cartridge Standard combine the high-quality curriculum with the IMS interoperability standards to deliver digital content that can be accessed in an IMS-conformant LMS. HMH Common Cartridges are currently compliant to the following IMS interoperability technical specifications: CC v1.2 (Thin Profile), CC v1.3 (Thin Profile), and QTI v2.1.	Moodle
Accessible Course within another Learning Management System (LMS)	X	HMH programs available in the IMS Global Common Cartridge Standard combine the high-quality curriculum with the IMS interoperability standards to deliver digital content that can be accessed in an IMS-conformant LMS. HMH Common Cartridges are currently compliant to the following IMS interoperability technical specifications: CC v1.2 (Thin Profile), CC v1.3 (Thin Profile), and QTI v2.1.	LMS Provider
Available in an accessible media format and includes alternative text or subtitles	X	Text alternatives are provided in every place they are required, including for audio-only, audio-video, video-only, images, and user	Provider or Publisher

		interface elements. Please note: All HMH Into Math content and electronic instructional materials will be WCAG 2.0 AA compliant in December 2020	
Includes alternative text (image)	X	Images in the program's Interactive Digital Student Lessons and Teacher's Edition have alternate text for images. Please note: All HMH Into Math content and electronic instructional materials will be WCAG 2.0 AA compliant in December 2020	Provider or Publisher
Includes captions and subtitles (video)	X	Alternate text, such as transcripts and closed captioning, are provided for audio-only, audio-video, and video-only. Please note: All HMH Into Math content and electronic instructional materials will be WCAG 2.0 AA compliant in December 2020	Provider or Publisher
Includes flash accessibility functions (SWF)	X*	*Adobe Flash is being discontinued in HMH products. We are working with major browser providers to ensure our programs continue to function during this period of transition. Our web-based platforms, at this time, are predominately using HTML5 to render content.	Adobe http://www.images.adobe.com/www.adobe.com/content/dam/Adobe/en/devnet/swf/pdf/swf-file-format-spec.pdf

		provide students, teachers, and administrators with a WCAG 2.0 AA user experience. All HMH Into Math content and electronic instructional materials will be WCAG 2.0 AA compliant in December 2020.	
Complies with W3C Recommendations for web page	X	The digital program targets Federal Rehabilitation Act, Section 508 standards, W3C standards, and WCAG 2.0 AA compliance. Any accessibility gaps in the user experience are currently under development in order to provide students, teachers, and administrators with a WCAG 2.0 AA user experience. All HMH Into Math content and electronic instructional materials will be WCAG 2.0 AA compliant in December 2020.	W3C Recommendations http://www.w3.org/WAI/eval/Overview.html
Is Bobby approved website		Core student materials can be converted into alternative assistive technology products for braille, large print, and screen reader programs via a NIMAS file on the NIMAC system.	CAST no longer supports the Bobby accessibility testing software; however, it remains one of the tests included within the IBM Rational Policy Tester Accessibility Edition software, the comprehensive enterprise application for testing websites.
Is a 508 compliant website	X	The digital program targets Federal Rehabilitation Act, Section 508 standards, W3C standards, and WCAG 2.0 AA compliance. Any accessibility gaps in the user experience are currently under	US Government

		development in order to provide students, teachers, and administrators with a WCAG 2.0 AA user experience. All HMH Into Math content and electronic instructional materials will be WCAG 2.0 AA compliant in December 2020.	
Available in the National Accessible Instructional Materials Standard (NIMAS) Format – Accessible XML	X	In compliance with the requirements of the Individuals with Disabilities Education Act (IDEA) of 2004 and its latest revision issued in 2006, HMH provides electronic files to the National Instructional Materials Access Center (NIMAC) system for all printed textbooks and other required core content. Those materials can be converted into alternative assistive technology products for braille, large print, and screen reader programs via a National Instructional Materials Accessibility Standard (NIMAS) file on the NIMAC system. Authorized entities may access the NIMAS files through NIMAC in order to create specialized formats for use by students with blindness, visual impairments, and other print disabilities. To see the range of HMH products available from NIMAC, please visit https://nimac.overdrive.com/ContentInventory .	NIMAC
