ECCE Commission Report

The February 2024 Commission report noted that investment in early childhood education delivers both immediate and long-term gains for Louisiana.

The report recommended the Louisiana State Legislature:

1. Invest \$98 million of additional state funds in high-quality early care and education now and annually over 10 years to ensure statewide access
2. Enact legislation that guarantees the State's commitment to the ECE Fund, to match and incentivize ongoing and increasing local investment
3. Continue to review state and local revenue and resources to identify potential sustainable funding for early care and education

IV. Consideration of the September 2024 Early Childhood Care and Education Commission Report
