

Louisiana Transfer Degree

Overview

Each universal transfer pathway consists of 60 credit hours of coursework that can be seamlessly transferred and applied toward the requirements of a BA or BS degree at any public four-year institution in Louisiana that offers that degree. The pathway contains courses that satisfy the graduation requirements for an associate's degree. Any student who completes the requirements of the universal transfer pathway and then transfers to a four-year public institution in Louisiana will not be required to complete more than the total credits required for the BA or BS degree in that program, less than 60 credit hours earned in the transfer pathway.

The Fast Forward Transfer Degree pathway offers Associate Degree opportunities through Bossier Parish Community College, Delgado Community College, Fletcher Technical Community College, Louisiana Delta Community College, Louisiana State University - Alexandria, Northshore Technical Community College, Northwestern State University, Nunez Community College, River Parish Community College, and Southern University - Shreveport.

Guidance Overview

This guidance is meant to help school systems and parents navigate the opportunities to complete an Associate Degree in high school. School systems should verify information with the post-secondary institution to ensure students are enrolled in the appropriate college classes to earn the associates degree. This guidance includes:

- [Post-Secondary Degree Paths](#) details all courses required for the Applied Associate Degree. The Applied Associate Degree has limited general education courses and is primarily designed to prepare students for immediate employment or career entry.
- [Secondary Courses not included in the Post-Secondary Program of Study](#) detail all courses the student must take prior to or in tandem with the college courses to meet secondary graduation requirements. Typically, these are courses students are scheduled to take in grades 9 and 10.
- [Capstone Credentials](#) details all Industry Based Certifications a student can receive to complete the Applied Associate Degree. Students working towards a Jump Start Diploma must complete at least one capstone credential to graduate.
- [High School Transcription](#) details the LDOE course code a counselor should use to transcribe the college courses that do not have a dedicated LDOE course code.
