

## STEM Renaissance Pathway Brief

# Environmental Protection & Sustainability

AN INITIATIVE OF  **LDOE**

# Environmental Protection & Sustainability

The Environmental Protection and Sustainability Pathway has been established to provide both TOPS University and TOPS Tech diploma-seeking high school students with the knowledge and skills necessary to pursue careers connected to the natural environment. The ultimate goal of this pathway is to allow students the opportunity to understand the weather, geology, and ecology that are specific to our region. Students will understand careers available to them in a variety of different settings in order to prepare for the sustainability of natural resources and the future of our state’s citizens.

## College and Career Connections

*Finding high-wage career opportunities directly out of high school can be challenging. It typically requires advanced capstone credentials accompanied by work experience and/or apprenticeships in the field of study.*

High School to Career	Community/ technical College to Career	University to Career
<b>Agricultural/ Farmer</b> <b>Logger</b> <b>Recycling Worker</b> <b>Seafood Industry Worker</b>	<b>Environmental Compliance Officer</b> <b>Forest Conservation Worker</b> <b>Occupational Health &amp; Safety Technician</b> <b>Water Distribution Technician</b>	<b>Environmental Science/ Law</b> <b>Geologist</b> <b>Meteorologist</b> <b>Wildlife Enforcement Agent</b>

**\*\*This Louisiana STEM Pathway must be used for students entering grade 9 in the 2024-2025 school year and future cohorts. The “Archived Pathway” briefs must be followed for students that entered grade 9 prior to the 2024-2025 school year. Email [STEM@la.gov](mailto:STEM@la.gov) with any questions.**

# Capstone Credentials

In order to graduate, Jump Start students must earn at least one credential from the options below.

\*Please contact the individual providers to confirm if provider specific courses are structured to offer the credential.

INDUSTRY BASED CREDENTIALS: Depending on student course completion
Ducks Unlimited Ecology Conservation and Management Certification
Geographic Information System (GIS)- Entry Level Technician Certification
Water Distribution Operator I
Water Production Operator I
Water treatment Operator I

## STEM Renaissance Digital Design & Emergent Media Pathway Structure

To earn the **Silver STEM Diploma Seal** students must pass one course from each of the four following concentration areas: Environmental Science STEM Pathway Approved course, Humans in the Biosphere, Surveying and cartography, and Environmental Protection and Sustainability Career Exploration Course. (These course options are listed on the following chart.)

To earn the **Gold STEM Diploma Seal** students must complete the requirements for the Silver STEM Diploma Seal, pass three Environmental Protection and Sustainability Elective courses from the approved STEM Pathway listing, and pass an additional Math or Science course. (These course options are listed on the following chart.)

To complete the **TOPS Tech Diploma** students must complete the Gold STEM Diploma Seal requirements and one course from the approved Career Readiness Course list.
