STEM Renaissance Pathway Brief

Pre-Engineering

Pre-Engineering

The Louisiana pre-engineering pathway provides a pre-engineering program for both TOPS University and TOPS Tech diploma-seeking high school students. Through hands-on projects and interaction with industry professionals, the curriculum prepares students to compete in the 21st century by engaging them in understanding the fundamentals of engineering in the classroom as well as in the workplace. Students will understand the careers available to them in the field of engineering as well as learn key skills such as teamwork, oral and written technical communication, and work ethic that will serve them well whether they pursue an advanced degree or immediately join the workforce.

College and Career Connections

Finding high-wage career opportunities directly out of high school can be challenging. It typically requires advanced capstone credentials accompanied by work experience and/or apprenticeships in the field of study.

High School to Career	Community/ technical College to Career	University to Career
Automotive Technician Outboard Marine Technician Solar Panel Installer Wind Turbine Technician	Architectural and Civil Drafter Computer Integrated Manufacturing Computer Engineering Programmer Mechanical Drafter	Biomedical Engineering Chemical Engineering Civil/Construction Engineering Petroleum Engineering

****This Louisiana STEM Pathway must be used for students entering grade 9 in the 2024-2025 school year and future cohorts. The “Archived Pathway” briefs must be followed for students that entered grade 9 prior to the 2024-2025 school year. Email STEM@la.gov with any questions.**
