

Virtual Workplace Experience II
Nepris Videos – 21st Century Skills

04-36	Unit 1 – 21st Century Skills
<p>Nepris Videos</p> <p>Live mentor interactions are the most inspiring assignments students will have during this course.</p> <p>When live interactions are not possible, such as when a student is absent, Nepris houses all past engagements (with teacher and industry professional approval) in the “Video Library” section of the platform. Much like google, teachers can access videos by simply typing keywords into the Video Library search bar to find an array of pre-recorded sessions.</p> <p>Key search terms for 21st Century Skills might include: Collaboration, Teamwork, Creativity, Imagination, Critical Thinking, Problem Solving, Flexibility, Cultural Awareness, Information Literacy, Social Responsibility, etc.</p> <p style="text-align: center;">Below are links to sample videos related to 21st Century Skill Building.</p>	

Session Title	Link	Student Outcomes
