JUMP START! 2.0 — SUMMERS PROGRAM

2022 EVALUATION REPORT

Jump Start Summers Programs were approved for fifty-two school systems and three private providers for the summer of 2022.

Jump Start Summers programs offered students the opportunity to:

1. earn academic credits during the summer;

2. earn industry-based credentials (IBCs) in their areas of career interest;

3. engage in workplace-based learning by job shadowing and/or internship experiences;

4. receive a stipend based on attendance, engagement, and achievement.

INDUSTRY BASED CREDENTIALS

Complementary/Core IBCs offer employability value in all industry sectors, but on their own do not qualify the credential holder to attain entry-level employment. They are typically regional IBCs that indicate credential holders have mastered basic knowledge and skills for industry sectors that are either lower-wage and/or concentrated only in specific regions of the state.

Statewide IBCs offer the greatest "employability value," indicating that credential holders have mastered critical knowledge and skills essential to attaining entry-level employment in high-wage, high-demand industry sectors that will drive Louisiana's future prosperity.

NEXT STEPS

The Department approves Jump Start Summers providers for a three-year cycle. We will continue to work with approved providers to provide quality programs and expand opportunities for students including increased opportunities to participate in Fast Forward Pathways. The Department will also work with additional school systems and providers wishing to gain approval to begin a Jump Start Summers program in 2023. We will work with those finishing the three-year cycle to get reauthorized by BESE. The goal is expanding Jump Start Summers opportunities for all students, regardless of where they live, their academic interests or their personal circumstances.
