

Leads Implementation Monthly Webinars

All educators deserve coaching and support as they continue to reflect and refine instructional and leadership practices in order to positively impact student learning. LEADS provides evaluation processes to facilitate this support. LEADS Implementation Monthly Webinars build capacity of system and school leaders by providing focused, high-quality professional learning opportunities that can be replicated at the school and system level to develop a deeper understanding of LEADS components and processes and advance implementation. Learning will focus on the key evaluation components and will allow time for systems to network during breakout sessions. System and school leaders are encouraged to join calls below that are most relevant to meeting specific needs.
