Principal Survey

A Guide for Educators Completing the Survey

Overview

The [Louisiana Principal Survey](#) is a key component of the Louisiana Educator Advancement and Development System (LEADS), designed to incorporate educator feedback regarding the principal of their school. This **anonymous survey** allows educators to provide input on their principal's leadership and effectiveness, ensuring honest and constructive responses. By including educator perspectives in the evaluation process, the survey helps promote accountability and continuous improvement in school leadership. Educators will complete the survey only for their principal, and their feedback will contribute to 15% of the principal's overall evaluation score.
