The 2020 Census is around the corner!

**Did you know that young children are among the hardest-to-count populations?
Did you know that Census data help the government determine funding for programs kids use? This includes support for schools, special education students, psychologists, 1:1 teacher's assistants, and resources for teachers. For ten years! That's why we need YOUR help to make sure students and families know about why the Census matters and to encourage their participation. Flip this card to take the pledge!!!**
