

AMERICAN
COLLEGE *of*
CARDIOLOGY®

Interested in science?

Would you like to learn
more about a career
in cardiology?

Apply for the Young
Scholars Program for the
opportunity of a lifetime!

You'll gain mentorship,
sponsorship, guidance
and recognition.

THE ACC YOUNG SCHOLARS PROGRAM

As an ACC Young Scholar, you can discover what it takes to pursue a career in cardiology directly from a practicing cardiovascular professional. You'll have the chance to learn about possible career options in the field, as well as the basics of investigational research.

Plus, you'll get to attend the opening day of the American College of Cardiology's Annual Scientific Session, and be paired with a mentor for a year afterward who will guide you through completing your very own research project.

Visit [ACC.org/YoungScholars](https://www.acc.org/YoungScholars) for more information
