Footnotes:	
New Charters in FY2014-15	The initial calculation of the funds generated for each of the weights in the MFP for charter schools whose first year of operation is FY2014-15 is based on projected student counts using the average of the district in which the school is located. A final calculation of the weighted funds for new charters in FY2014-15 will be based on the residency of the actual number of students on February 1, 2015, multiplied by the per-pupil amount for each of the weights. Expenditures based on the final calculation are to be reported in the FY2014-15 AFR of the charter school.
Type 2 Charter Schools	The calculation of the weighted funds for Type 2 Charter Schools is based on the per-pupil amounts of the district in which the student resides.
Legacy Type 2 Charter Schools	The calculation of the weighted funds for Legacy Type 2 Charter Schools is based on the per-pupil amounts of the district in which the charter school is located.
LSU and Southern Lab Schools	The calculation of the weighted funds for LSU and Southern Lab is based on the state average per-pupil amount for each of the weights.
Louisiana School for Math, Science, and the Arts (LSMSA) and New Orleans Center for Creative Arts (NOCCA)	The calculation of the weighted funds for LSMSA and NOCCA is based on the state average per-pupil amount for each of the weights.

Footnotes:	
New Charters in FY2014-15	The initial calculation of the funds generated for each of the weights in the MFP for charter schools whose first year of operation is FY2014-15 is based on projected student counts using the average of the district in which the school is located. A final calculation of the weighted funds for new charters in FY2014-15 will be based on the residency of the actual number of students on February 1, 2015, multiplied by the per-pupil amount for each of the weights. Expenditures based on the final calculation are to be reported in the FY2014-15 AFR of the charter school.
Type 2 Charter Schools	The calculation of the weighted funds for Type 2 Charter Schools is based on the per-pupil amounts of the district in which the student resides.
Legacy Type 2 Charter Schools	The calculation of the weighted funds for Legacy Type 2 Charter Schools is based on the per-pupil amounts of the district in which the charter school is located.
LSU and Southern Lab Schools	The calculation of the weighted funds for LSU and Southern Lab is based on the state average per-pupil amount for each of the weights.
Louisiana School for Math, Science, and the Arts (LSMSA) and New Orleans Center for Creative Arts (NOCCA)	The calculation of the weighted funds for LSMSA and NOCCA is based on the state average per-pupil amount for each of the weights.
