

LSU NCBRT/Academy of Counter-Terrorist Education at Louisiana State University invites you to join us for a unique training opportunity.

Readiness: Training Identification Preparedness Planning

Course Overview

This course teaches participants how to create effective training plans for their schools and districts. By evaluating their abilities to meet their emergency operations plan (EOP) using traditional and national preparedness tools, participants can answer the following critical readiness questions:

- How prepared do we need to be?
- How prepared are we?
- How do we prioritize efforts to close the difference?

Agencies that plan and train together are much better equipped to successfully respond together. In this course, participants learn a Jurisdiction Training Assessment Process in which an integrated assessment team creates a school profile and evaluates their abilities to meet their EOP. Participants are then able to identify and catalog training gaps and identify ways to close them by prioritizing training efforts, developing improvement plans, and implementing a course of action.

Course Takeaways

- A three-year training plan that will ensure they can implement their EOP
- A training grid that can be used to enhance and upgrade existing emergency operation plans
- A full risk analysis of school threats and hazards
- A foundation to be used for school grants
- Assurance EOPs meet or exceed FEMA guidelines

Target Audience

The target audience for the Direct Delivery version of this course must include individuals from LEAs or schools whose responsibilities include the following:

- Plan development, including emergency operations plan
- Training needs determination and management
- Resource allocation and management (personnel, equipment, and systems)
- Purchasing and logistics management
- Exercise coordination, development, and evaluation
- Capabilities evaluation
- Organizational design and management
