

Professional Learning Communities (PLC) at Work™
Solution Tree Professional Development Team
Levels of Support and Costs

PLC at Work™ Overview: Gain a big-picture view of the PLC process—and learn how to customize it to meet individual school or district needs. During this full-day session, discover how to create and maintain an effective collaborative culture, as well as how to answer the four critical questions every PLC must address. The PLC Toolkit is included.

PLC at Work™ Customized Workshop: One or more days tailored to meet needs and goals of district and schools.

PLC at Work™ Coaching Academy: This dynamic series of PD engagements typically occurs over nine to twelve months and is designed to develop a cadre of leaders (3-4 people/school) who will act as informed agents of change districtwide. The academy includes six on-site days of training, a coaching academy binder and two books for each participant, and the PLC Toolkit.

PLC at Work™ Progress Report: Receive an unbiased observation of PLC implementation at the school level. An expert facilitation team will conduct an on-site analysis of current practices and recommend next steps for improvement. The team will visit the school onsite to assess PLC progress and present their findings during a conference call and in a written report highlighting commendations and recommendations.

PLC at Work™ Virtual Coaching: This long-term PD service is exclusively for principals. By meeting with online coaches at least once each month throughout the school year, teams of principals will receive ongoing counsel and support from coaches who have been carefully selected based on their proven expertise and success in leading a PLC. Includes 10 one-hour team meetings, 5 one-hour individual meetings, and phone and email support.

PLC at Work™ Interactive Web Conference: Plan an in-depth discussion with a notable expert focused on a specific topic or follow up a book study with a Q and A with the author.

SERVICE	COST	PARTICIPANTS	PREREQUISITE
