

Approved Literacy Screener and Diagnostic Assessments

In accordance with [Act 964 \(2026\)](#), the Louisiana Department of Education (LDOE), through the Literacy Screeners and Diagnostics Request for Applications (RFA), approved providers for literacy skills screeners in grades 4–12 and literacy diagnostic assessments in grades K–12, along with related professional learning and implementation support, to help school systems identify student literacy needs and inform targeted instruction and intervention. Approval applies only to the listed screener and/or diagnostic assessments. This is not an approval of intervention programs and instructional materials, as they are reviewed separately through the LDOE Instructional Materials Review (IMR) process. DIBELS 8th Edition remains the only approved universal screener for grades K–3. Diagnostic results can help educators pinpoint specific skill needs and inform targeted instruction and intervention for K–3 students and beyond. Act 964 screening and diagnostic assessment requirements take effect in the 2027–2028 school year. School systems are encouraged to use the 2026–2027 school year to review approved assessment options and plan for implementation.

The partners listed below met the criteria established through the RFA and are approved to partner directly with Louisiana school systems. Partner information will be added to the [LDOE Professional Learning Partner \(PLP\) Guide](#) under Literacy. In the interim, this resource provides approved options and partner contact information. Questions may be directed to louisianaliteracy@la.gov.

Approved Partners for 4-12 Literacy Screeners and K-12 Literacy Diagnostics			
Company/Program	Approved Categories	Primary Contact	Secondary Contact
