

**Beginning of the Year  
Universal Screener Analysis Template  
DISTRICT-LEVEL/MULTI-SITE LEADER**

This document is designed to support **district-level leaders** in analyzing their Beginning of the Year literacy screening data. Use one template per grade level. Teachers should use the Teacher Analysis Template, and site-level leaders should use the Site-Level Leader Analysis Template.

To use this document, the district-level leader must identify the screener used (Acadience, DIBELS 8th, iSTEP, STEEP, etc.) along with the different measures used during the Beginning of the Year screening (ex. Nonsense Word Fluency, Phoneme Segmentation Fluency, etc.). These measures will differ depending on the grade level and the screener used.

After identifying the measures used, the district-level leader should identify the percent of students who are “below benchmark” within the identified grade level at each school, along with an overall percentage of students in the grade level across the entire district who are “below benchmark.” This information can be used to support district-level leaders in identifying schools that may need additional support with reading foundational skills and/or district-wide patterns that may assist in developing areas of focus for professional learning.

A table is included for four measures, but there may or may not be four individual measures depending on the screener used and the grade level. You should only complete tables for measures included in the screener used.

**District:** \_\_\_\_\_

**Screener Used:** \_\_\_\_\_

**Grade Level:** \_\_\_\_\_

School (List individual school names under Overall Grade Level)	Percent of Students “Below Benchmark” Composite/Overall	Notes
Overall Grade Level		

For each table, in the second column labeled “Percent of Students ‘Below Benchmark,’” list the Measure being reported. For example, if Nonsense Word Fluency is being reported, list “Nonsense Word Fluency” or “NWF.”

<b>School</b> (List individual school names under Overall Grade Level)	<b>Percent of Students “Below Benchmark”</b> <b>Measure: _____</b>	<b>Notes</b>
Overall Grade Level		

<b>School</b> (List individual school names under Overall Grade Level)	<b>Percent of Students “Below Benchmark”</b> <b>Measure: _____</b>	<b>Notes</b>
