

# 2021-2022 Louisiana Comeback Commitment

In a coordinated effort to recover and accelerate learning due to the previous year’s challenges, we are calling on school systems across the state to join the “Louisiana Comeback” commitment for 2021-2022. This statewide collective impact is based on three primary investments:

1. Attendance and well-being
2. Recovery and acceleration
3. Professional learning

By focusing funding, time, and effort on key investments, school systems will use evidence-based best practices to propel their school’s academic recovery and accelerate learning for all students.

Each LEA is required to submit a [plan](#) for how they will use their ESSER formula funds during the 2021-2022 school year to support Louisiana’s students particularly those disproportionately impacted by the pandemic<sup>1</sup>. Within this plan, LEAs must indicate how they will support students who failed to achieve mastery on the statewide assessments<sup>2</sup>. LEAs will submit plans with the dollar amount they are budgeting for each key investment area by September 30, 2021. LDOE will review and approve plans by December, 2021.
