

Guest_Portal

The Guest_Portal SSID allows Internet-only access for visiting guests. Once connected to the Guest_Portal SSID, an Internet browser will need to be opened and an attempted connection to any URL should prompt for Visitor Registration.

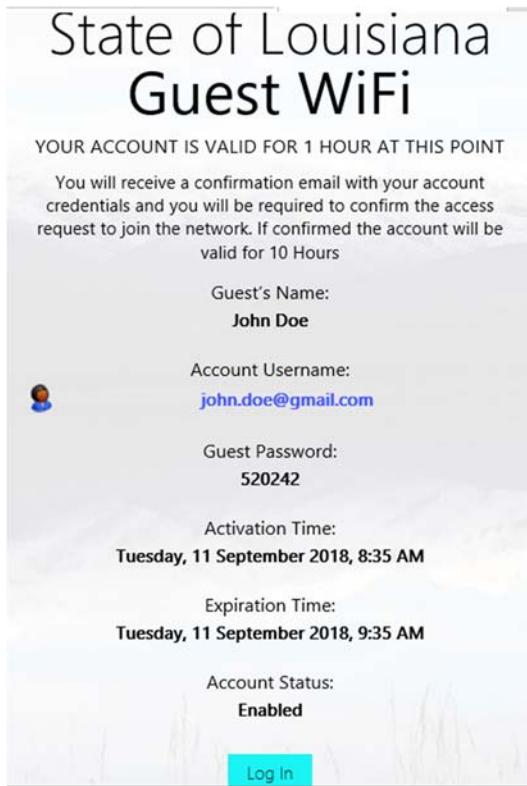

Due to newer device and site security restrictions some sites may not permit the redirect to the registration page. A new STATE site was setup to help mitigate this issue. Please browse to WifiWelcome.la.gov after connecting to Guest_Portal and the registration page should be displayed.

The screenshot shows a mobile browser interface for the 'clearpass.la.gov Guest_Portal'. The page title is 'State of Louisiana Guest WiFi'. Below the title, it says 'Please complete the form below to gain access to the network.' There are three input fields: 'Your Name:' with a blue border and a prompt 'Please enter your full name.', 'Email Address:' with a prompt 'Please enter your email address. This will become your username to log into the network.', and a 'Confirm:' section with a checkbox and the text 'I accept the terms of use'. At the bottom is a blue 'Register' button.

The visiting guest should complete the form using a valid email address and accept the terms of use and click register.

A login receipt will be displayed.

State of Louisiana
Guest WiFi

YOUR ACCOUNT IS VALID FOR 1 HOUR AT THIS POINT

You will receive a confirmation email with your account credentials and you will be required to confirm the access request to join the network. If confirmed the account will be valid for 10 Hours

Guest's Name:
John Doe

Account Username:
john.doe@gmail.com

Guest Password:
