

Regular Session, 2007

HOUSE CONCURRENT RESOLUTION NO. 208

BY REPRESENTATIVES CRANE, BARROW, CHANDLER, FANNIN, ELBERT
GUILLORY, HONEY, KENNEY, M. POWELL, T. POWELL, RITCHIE,
TRAHAN, WALKER, AND WALSWORTH

A CONCURRENT RESOLUTION

To provide for legislative approval of the formula to determine the cost of a minimum foundation program of education in all public elementary and secondary schools as well as to equitably allocate the funds to parish and city school systems as developed by the State Board of Elementary and Secondary Education and adopted by the board on June 11, 2007.

WHEREAS, Article VIII, Section 13(B) of the Constitution of Louisiana requires the State Board of Elementary and Secondary Education to develop and adopt annually a formula which shall be used to determine the cost of a minimum foundation program of education in all public elementary and secondary schools as well as to allocate equitably the funds to parish and city school systems; and

WHEREAS, at a special meeting of the State Board of Elementary and Secondary Education on June 11, 2007, the board adopted a formula for such cost determination and the equitable allocation of funds; and

WHEREAS, the board has indicated that the adopted formula considers all statutory and board policy requirements necessary to achieve an appropriate cost determination for a minimum education program as well as to distribute equitably the cost; and

WHEREAS, the following goals are recommended for the minimum foundation program:

GOAL 1 - - EQUITY: The school finance system in Louisiana provides equal treatment of pupils with similar needs with the requirement that local school systems have a tax burden sufficient to support Level 1.

GOAL 2 - - ADEQUACY: The school finance system in Louisiana provides programs and learning opportunities that are sufficient for providing a minimum educational

program for every individual. The State Board of Elementary and Secondary Education and the Legislature through the adoption of the minimum foundation program formula establish a minimum program.

GOAL 3 - - LOCAL CHOICE: The school finance system in Louisiana provides that local taxpayers and the school board establish the budget and set the tax levy for operating the schools above a set level of support for the minimum program.

GOAL 4 - - EVALUATION OF THE STATE SCHOOL FINANCE SYSTEM: The school finance system in Louisiana ensures the attainment of the goals of equity, adequacy, and local choice. Whereas the school finance system utilizes significant state general fund revenues, it is important that the system be evaluated on a systematic basis annually.

GOAL 5 - - PERFORMANCE MEASURES: The school finance system in Louisiana provides for financial accountability and program efficiency maximizing student achievement. Accountability means that the local school districts can demonstrate that they are operating in conformance with state statutes, financial accounting standards and student performance standards.

WHEREAS, to properly measure the achievement of the goals, a comprehensive management information system containing state-level and district-level components shall continue to be developed; and

WHEREAS, to provide fiscal and programmatic accountability, a fiscal accountability program and a school and district accountability program shall continue to be developed; and

WHEREAS, the fiscal accountability program shall verify data used in allocating minimum foundation program funds and report fiscal information on the effectiveness of the manner in which the funds are used at the local school system level; and

WHEREAS, the school and district accountability program in establishing the state goals for schools and students, creates an easy way to communicate to schools and the public how well a school is performing, recognizes schools for effectively demonstrating growth in student achievement, and focuses attention, energy, and resources on schools needing help in improving student achievement; and

WHEREAS, the Constitution of Louisiana requires the Legislature to fully fund the current cost to the state of the minimum foundation program as determined by applying the legislatively approved formula; and

WHEREAS, this minimum foundation program formula is designed to provide greater equity and adequacy in both state and local funding of local school systems; and

WHEREAS, the Constitution of Louisiana requires the appropriated funds to be allocated equitably to parish and city school systems according to the formula as adopted by the State Board of Elementary and Secondary Education and approved by the Legislature prior to making the appropriation.

THEREFORE, BE IT RESOLVED by the Legislature of Louisiana, that the formula to determine the cost of a minimum foundation program of education in all public elementary and secondary schools as well as to allocate equitably the funds to parish and city school systems developed by the State Board of Elementary and Secondary Education and adopted by the Board on June 11, 2007 is hereby approved to read as follows:

MINIMUM FOUNDATION PROGRAM
ELEMENTARY AND SECONDARY EDUCATION
COST DISTRIBUTION FORMULA
2007-08 SCHOOL YEAR

I. BASIS OF ALLOCATION

A. Preliminary and Final Allocations

1. BESE shall determine preliminary allocations of the minimum foundation program formula for parish, city and other local school systems, Recovery School District Schools, and LSU and Southern Lab schools, using latest available data, no later than March 15 each year for the upcoming fiscal year. Upon adoption by the board of such preliminary allocations for the ensuing fiscal year, the superintendent shall submit the budget requirements in accordance with R.S. 39:33 and shall submit the minimum foundation program funding requirements to the Joint Legislative Committee on the Budget and to the House and Senate Committees on Education.

2. Upon final adoption by BESE and the Legislature of the minimum foundation program formula resolution in effect for the upcoming fiscal year, BESE shall determine final allocations of the minimum foundation program formula for parish, city and other local

school systems, the Recovery School District, and LSU and Southern Lab schools using latest available data, no later than June 30 for the fiscal year beginning July 1.

3. Latest available student count estimates will be utilized for newly opened school districts or local education agencies in the final allocations of the minimum foundation program formula no later than June 30 for the fiscal year beginning July 1.

B. Mid-year Adjustments

1. If any city, parish, or other local school system's, Recovery School District schools', LSU and Southern Lab schools' current year October 1 student count exceeds the previous year's February 1 membership by either 50 students or 1%, a mid-year adjustment to provide additional per pupil funding shall be made for each additional student based on the final MFP allocation per pupil amount for that city, parish or other local school system as approved by BESE. Districts and schools may request that the State Superintendent make estimated monthly payments based on documented mid-year growth prior to the October 1 count. For any district provided a minimum student count guarantee, the October 1 membership must exceed the minimum student count guarantee by 50 students or 1% to qualify for a mid-year allocation.

2. If any city, parish, or other local school system's, Recovery School District Schools', and LSU and Southern Lab schools' current year February 1 membership exceeds the current year October 1 membership by either 50 students or 1%, a second mid-year adjustment to provide additional per pupil funding shall be made for each additional student based on one-half the final MFP allocation per pupil amount for that city, parish or other local school system as approved by BESE. Districts and schools may request that the State Superintendent make estimated monthly payments based on documented mid-year growth prior to the February 1 count. For any district provided a minimum student count guarantee, the February 1 membership must exceed the minimum guarantee by 50 students or 1% to qualify for a mid-year allocation.

3. If the Recovery School District, the district of prior jurisdiction, and local education agencies have an increase in current year October 1 membership above the prior year February 1 number included in the final MFP allocation individually, the Recovery School District, the district of prior jurisdiction, and local education agencies shall receive individually a mid-year adjustment of MFP funding based upon the number of students

identified above the membership number used in the final MFP allocation. This transfer shall be based on the final MFP allocation per pupil for the district of prior jurisdiction times the number of students identified.

4. If the Recovery School District's current year October 1 membership count qualifies for a mid-year adjustment to state funds, a mid-year adjustment to provide additional local per pupil funding shall also be made for each additional student based on the local per pupil amount of the district of prior jurisdiction times the increased number of students and provided in the monthly MFP payments. For current year February 1 increases, one-half the local per pupil will be provided in the monthly MFP payments.

5. For the newly opened school districts or local education agencies, in the first year of operation, a special mid-year adjustment will be made to finalize their minimum foundation program formula allocations using October 1 data. This special mid-year adjustment will replace the October mid-year adjustment. The newly opened school districts or local education agencies will qualify for the February 1 mid-year adjustment.

II. LEVEL 1 - COST DETERMINATION AND EQUITABLE DISTRIBUTION OF STATE AND LOCAL FUNDS

A. Base Foundation Level 1 State and Local Costs

1. February 1 Membership (as defined by the State Board of Elementary and Secondary Education) including Recovery School District students.

As storm affected districts, the following shall receive a minimum base membership: Cameron - 1,640 students; Jefferson - 43,000 students; Orleans Parish - 33,500 to be divided proportionately with the Recovery School District; Plaquemines - 4,200 students; St. Bernard - 4,000 students; and City of Bogalusa - 2,236. This minimum membership amount will apply in FY 2007-08 only.

Plus

2. Add-on Students/Units

a. At-Risk Students weighted at 0.21.

At-Risk students are defined for purposes of allocating funds as those students whose family income is at or below income eligibility guidelines or other guidelines as provided by the State Board of Elementary and Secondary Education and the number of students

identified as English Language Learners that were not included based on income eligibility guidelines times the weighted factor of 0.21.

The State Board of Elementary and Secondary Education shall seek to increase the at-risk weight over five years by an appropriate amount annually until reaching a total at-risk weight of .40.

- b. Vocational Education course units weighted at .05.

The number of combined fall and spring student units enrolled in secondary vocational education courses times the weighted factor of 0.05.

- c. Special Education/Other Exceptionalities students weighted at 1.50.

The number of students identified as having Other Exceptionalities as reported in the membership count as defined by the State Board of Elementary and Secondary Education times the weighted factor of 1.50.

d. Special Education/Gifted and Talented students weighted at .60. The number of students identified as Gifted and Talented as reported in the membership count as defined by the State Board of Elementary and Secondary Education times the weighted factor of 0.60.

e. Economy of Scale calculated as a curvilinear weight of .20 at 0 student membership level down to zero at 7,500 student membership level. This weight will vary depending on the size of the school system. There will be no benefit to school systems with a membership of 7,500 or greater. The formula for this weight is:

(1) for each district with less than 7,500 students, subtract its membership from 7,500;

(2) divide this difference by 37,500 to calculate each district's economy of scale weight; then

(3) multiply each district's economy of scale weight times their membership count.

Equals

3. Total Weighted Membership and/or Units (Sum of I.A.1 and I.A.2.a. through e.)

Times

4. State and Local Base Per Pupil Amount of \$3,752.

In the event no provision for an annual increase has been provided and this Resolution remains in effect in the fiscal year 2008-09 or thereafter, the State Board of

Elementary and Secondary Education shall annually adjust the state and local base per pupil amount with approval by the Joint Legislative Committee on the Budget. If the Joint Legislative Committee on the Budget does not approve the rate established by the State Board of Elementary and Secondary Education, then an annual growth adjustment of 2.75% shall automatically be applied to the state and local base per pupil amount beginning in the Fiscal Year 2008-09.

Equals

5. Total Base Foundation Level 1 State and Local Costs (I.A.3 times I.A.4.)

B. Local School System Share Calculation

1. Property Revenue Contribution is calculated by multiplying the state's computed property tax rate (including debt service) by each school system's Net Assessed Property Value for the latest available fiscal year including TIF areas. If a district's Net Assessed Property Value has increased equal to or greater than 10% over the prior year Net Assessed Property Value, then the growth in the Net Assessed Property Value will be capped at 10%. This cap will be applied on a year-to-year basis comparing the current year Net Assessed Property Value to the prior year uncapped Net Assessed Property Value. Each district's Net Assessed Property Value is then multiplied by the state's projected yield of the property tax millage. In FY 2007-08, this millage will be set at a level appropriate to yield a state average share of 65% and a local average share of 35%. The millage set in FY 2007-08 will remain the same in FY 2008-09 and beyond. The State Board of Elementary and Secondary Education may revise the millage as deemed appropriate in order to reestablish the 65%/35% share.

2. Sales Revenue Contribution is calculated by dividing the district's actual sales tax revenue collected (including debt service) in the latest available fiscal year by the district's sales tax rate that was applicable to create a sales tax base. If a local school system's sales tax goes into effect during the fiscal year, the tax rate is prorated to an annual rate applicable for the total revenue generated. If a district's Computed Sales Tax Base increased equal to or greater than 15% over the Computed Sales Tax Base calculated in the prior year formula, then the growth in the Computed Sales Tax Base will be capped at 15% over the amount used in the prior year formula. This cap will be applied on a year-to-year basis comparing the current year sales tax base to the prior year uncapped sales tax base. Each district's sales

tax base is then multiplied by the state's projected yield of the sales tax rate. In FY 2007-08, this rate will be set at a level appropriate to yield a state average share of 65% and a local average share of 35%. The rate set in FY 2007-08 will remain the same in FY 2008-09 and beyond. The State Board of Elementary and Secondary Education may revise the rate as deemed appropriate in order to reestablish the 65%/35% share.

3. Other Revenue Contribution is calculated by combining (1) State Revenue in lieu of taxes; (2) Federal Revenue in lieu of taxes; and (3) 50% of Earnings on Property.

4. Local School System Share is the sum of adding Item 1- Property Tax Contribution, Item 2 - Sales Tax Contribution and Item 3 - Other Revenues Contribution.

C. State Share Calculation

The State Share is calculated by subtracting the Local Share from the Total Level 1 Costs. In no event shall the State Share of the Total Level 1 Costs be less than 25% for any district.

III. LEVEL 2 - INCENTIVE FOR LOCAL EFFORT

A. Level 2 Eligible Local Revenue

1. Local Revenue.

Prior year revenues collected for educational purposes from total Sales Tax, total Property Tax, State and Federal Revenue in Lieu of Taxes, and 50% of Earnings on Property

Minus

3. Local School System Share Contribution of Level 1 Costs

Equals

4. Local Revenue over Local School System Share Contribution of Level 1 Costs.

This is the funding available for consideration in Level 2 incentive funding.

5. Limit on Revenue Eligible for Level 2.

The maximum local revenue eligible for incentive funding is equal to 33% of Total Base Foundation Level 1 State and Local Costs (I.A.5 times .33).

6. Eligible Local Revenue collected for educational purposes. The Lesser of:

a. Local Revenue Over Level 1 Local Share (II.A.4.),

or

b. Limit on Revenue Eligible for Level 2 Incentive Funding (II.A.5)

B. State Support of Level 2 Local Effort

1. State Support of Level 2 equals Eligible Revenue in Level 2 minus the Local Share of Level 2.

2. Local Share of Level 2 revenue equals the district's Eligible Local Revenue in Level 2 times the district's local share percentage of Level 1 times a factor of 1.72 in FY 2007-08. For FY 2008-09 and beyond, this factor will remain in effect. The State Board of Elementary and Secondary may calculate this factor on an annual basis.

Equals

3. State Support of Level 2 Incentive for Local Effort

IV. MINIMUM FOUNDATION PROGRAM LEVEL 3 LEGISLATIVE ENHANCEMENTS**A. 2001-02 Certificated Personnel Pay Raise Continuation Enhancement**

The supplemental funding provided for the 2001-02 certificated pay raise will continue for each district based on the prior year per pupil amount times their current year membership.

B. 2006-07 Certificated Personnel Pay Raise Continuation Enhancement

The supplemental funding provided for the 2006-07 certificated pay raise will continue for each district based on the prior year per pupil amount times their current year membership.

C. 2002-03 Support Worker Pay Raise Continuation Enhancement

The supplemental pay raise allocation for noncertificated support workers provided in FY 2002-03 will continue based on the prior year per pupil amount times the current year membership.

D. 2006-07 Support Worker Pay Raise Continuation Enhancement

The supplemental pay raise allocation for noncertificated support workers provided in FY 2006-07 will continue based on the prior year per pupil amount times the current year membership.

E. Foreign Language Associate Enhancement

Any local school system employing a Foreign Language Associate shall receive a supplemental allocation from BESE of \$20,000 per teacher not to exceed a total of 300 teachers in the program.

F. Accountability Student Transfer Enhancement

Any district that includes in their membership a student who:

1. Transferred from a SI2, SI3, SI4, SI5, or SI6 school in another district; and
2. Attended the SI2, SI3, SI4, SI5, or SI6 school in the immediate preceding year

before transferring; and

3. Transferred to an academically acceptable school in accordance with BESE Accountability Transfer policy, will receive additional funding equal to the current year MFP state-average local share per pupil for each such student for a maximum of 3 years as long as the student is enrolled.

G. Hold Harmless Enhancement

The concept for the present formula was first enacted in Fiscal Year 1992-93. At that time, there were school systems that were "underfunded" by the state and those that were "overfunded" by the state. In fiscal year 1999-2000, this MFP formula concept was fully implemented for the first time with 52 systems funded at the appropriate state level, eliminating the "underfunded" situation. School systems identified as "overfunded" in FY 2000-01 have since received their prior year per pupil Hold Harmless amount times their current year membership not to exceed the total Hold Harmless amount received in the prior year. Beginning in FY 2007-08, the Hold Harmless amount as identified in the FY 2006-07 formula provided to these "overfunded" systems will be phased out. After subtracting amounts attributable to insurance supplements and legislative pay raises provided between FY 1993-94 and FY 1998-99 from the FY 2006-07 Hold Harmless amount, a revised Hold Harmless amount will be calculated. Each of the school districts identified as "overfunded" in FY 2006-07 will receive a reduction in FY 2007-08 equivalent to 10% of their total revised "overfunded" amount. The annual 10% reduction will continue each year for 10 years. On an annual basis, any hold harmless district may choose to reduce the remaining balance by an amount greater than 10% through formal notification to the Department. This request must take place no later than June 30th each year. The annual 10% reduction amount will be redistributed in a per pupil amount to all non-hold harmless districts.

H. Support for Increasing Mandated Costs in Health Insurance, Retirement, and Fuel

City, Parish, and other local school systems shall receive a minimum of \$86.50 for each student in the prior year February 1 membership and this amount will be increased by any additional funding as provided in the appropriation.

I. Support for Hurricane Affected Districts

As provided for in the appropriation, the following hurricane affected districts will be eligible to receive funding to assist with their recovery efforts in the event they experience a loss in total MFP funding between FY 2006-07 and FY 2007-08. Funds in the amount of 55.25% of the loss will be provided to Cameron, City of Bogalusa, and Jefferson only in FY 2007-08.

V. Funding for Recovery School District

A. MFP State Share Per Student

1. The student membership and weighted student counts of schools transferred to the Recovery School District shall continue to be included in the membership and weighted student counts of the city, parish, or other local public school board from which jurisdiction of the school was transferred.

2. Once all final MFP calculations have been made, the MFP state share per prior year February 1 student membership from Levels 1, 2 and 3 of the MFP formula for the city, parish, or other local public school board which counted the Recovery School District students, shall be multiplied by the number of students in the Recovery School District and converted to a monthly amount. The monthly amount(s) shall be reduced from the city, parish, or other local public school board MFP monthly allocation and transferred to the Recovery School District.

B. MFP Local Share Per Student

1. In addition to the appropriation required in V.A.2. of this section, the Recovery School District shall receive an applicable local revenue per student allocation.

2. To begin the fiscal year July 1, the local per student allocation is based on the local revenue from the latest available data, of the city, parish, or other local public school board that had jurisdiction of the school prior to its transfer divided by the total MFP student

membership in the Recovery School District and in the district of prior jurisdiction used in the MFP final allocation.

3. For purposes of the Recovery School District calculation, local revenue is defined to include revenue, from the following sources, excluding any portion which has been specifically dedicated by the legislature or by voter approval to capital outlay or debt service, or which was actually expended by the school board for facilities acquisition and construction as reported to the Department of Education:

- a. Sales and use taxes, less any tax collection fee paid by the school district.
- b. Ad valorem taxes, less any tax collection fee paid by the school district.
- c. Earnings from sixteenth section lands owned by the school district.

4. The total local revenue allocation for the Recovery District is determined by multiplying the local revenue per student times the number of students in the Recovery School District.

5. Once the local amount is determined, it is adjusted to a monthly amount that is transferred from the MFP monthly allocation of the city, parish, or other local public school board from which jurisdiction the school was transferred to the Recovery School District.

6. The local revenues per student will be recalculated to include any increases in students recognized for the October 1 count. As a result of an increase of students in the October 1 Mid-Year Adjustment, there will result a corresponding decrease in the local revenues per student. No recalculation of the local revenue per student will occur at the February Mid-Year Adjustment.

7. On February 1 each year, certifications from the local tax collection agent will be obtained to identify the local revenues paid to the district of prior jurisdiction to date minus any portion dedicated to capital outlay or debt service. A certification will be obtained from the district of prior jurisdiction for the amount of current year expenditures to date made for facilities acquisition and construction per the definitions in the Annual Financial Report and the Louisiana Accounting and Uniform Governmental Handbook (LAUGH). The expenditures will be subtracted from the local revenue certified. A comparison will be made between the local revenue amount utilized beginning July 1 and the latest available local revenue certified minus the expenditures to determine a difference. If an increase in local revenue collections exists, then the district of prior jurisdiction will

be required to pay to the Recovery School District its proportion of the increased revenues based on the number of students in the Recovery School District on February 1. These funds shall be provided to the Recovery School District over the remaining monthly MFP payments. Upon close of the fiscal year, final certifications of revenues and expenditures will be obtained and a final reconciliation will be performed. If an increase in local revenue collections exists, payments will be required from the district of prior jurisdiction no later than 60 days after the close of the fiscal year. In the event that the fiscal status of the district of prior jurisdiction changes during the fiscal year, the State Superintendent may determine a reduced local revenue allocation from the additional revenues identified.

C. Except for administrative costs, monies appropriated to the Recovery School District that are attributable to the transfer of a school from a prior school system and monies allocated or transferred from the prior system to the Recovery School District shall be expended solely on the operation of schools transferred from the prior system to the jurisdiction of the Recovery School District.

VI. Funding for Louisiana State University and Southern University Laboratory Schools

A. Any elementary or secondary school operated by Louisiana State University and Agricultural and Mechanical College or by Southern University and Agricultural and Mechanical College shall be considered a public elementary or secondary school and, as such, shall be annually appropriated funds as determined by applying the formula contained in Subsection B of this Section.

B. Each student in membership, as defined by the State Board of Elementary and Secondary Education, at the schools provided for in Subsection A of this Section shall be provided for and funded from the minimum foundation program an amount per student equal to the amount allocated per student for the state share of the minimum foundation program.

C. The funds appropriated for the schools provided for in this section shall be allocated to the institution of higher education operating such a school. Each such institution of higher education shall ensure the equitable expenditure of such funds to operate such schools.

D. Fifty percent of increased funds provided are to be directed to certificated staff pay raises as defined in Section VIII. A. Provisions specified in section VII through X of this Resolution shall apply to these schools.

VII. Adjustments for Audit Findings and Data Revisions

Review and/or audit of the districts' data used in determining their Minimum Foundation Program allocation may result in changes in final statistical information. The Minimum Foundation Program allocation adjustments necessary as a result of these audit findings will be made in the following school year.

VIII. Required Expenditure Amounts

A. Required Pay Raise for Certificated Personnel

Fifty percent of a district's increased funds provided in Levels 1 and 2 over the prior year after adjusting for increases in student membership shall be used only to supplement and enhance full-time certificated staff salaries and retirement benefits for city, parish or other local school systems, state charter schools, and lab schools with an average teacher salary below the latest published SREB average teacher salary.

For purposes of determining the use of these funds, certificated personnel are defined per state Department of Education Bulletin 1929 and are to include: teachers (all function codes 1000-2200, object code 112); therapists/specialists/counselors (function codes 1000-2200, object code 113); school site-based principals, assistant principals, and other school administrators (function code 1000-2200 and 2400, object code 111); central office certificated administrators (function code 1000-2300 & 2831 (excluding 2321), object code 111); school nurses (function code 2134, object code 118); and sabbaticals (function code 1000-2200, 2134, and 2400, object code 140).

B. 70% Local General Fund Required Instructional Expenditure at the School Building Level

To provide for appropriate accountability of state funds while providing local school board flexibility in determining specific expenditures, local school boards must ensure that 70 % of the local school system general fund expenditures are in the areas of instruction and school administration at the school building level as derived by the Department of Education.

1. The definition of instruction shall provide for:
 - a. The activities dealing directly with the interaction between teachers and students to include such items as: teacher and teacher aide salaries, employee benefits, purchased professional and technical services, textbooks and instructional materials and supplies, and instructional equipment;
 - b. Student support activities designed to assess and improve the well-being of students and to supplement the teaching process, including attendance and social work, guidance, health and psychological activities; and
 - c. Instructional support activities associated with assisting the instructional staff with the content and process of providing learning experiences for students including activities of improvement of instruction, instruction and curriculum development, instructional staff training, library/media, and instructional related technology.
2. School administration shall include the activities performed by the principal, assistant principals, and other assistants while they supervise all operations of the school, evaluate the staff members of the school, assign duties to staff members, supervise and maintain the records of the school, and coordinate school instructional activities with those of the school district. These activities also include the work of clerical staff in support of the teaching and administrative duties.

C. Expenditure Requirement for Foreign Language Associate Program

The State must maintain support of the Foreign Language Associate program at a maximum of 300 Foreign Language Associates employed in any given year. These teachers shall be paid by the employing local school system the amount of classroom teacher average salary (without PIP) by years of experience and degree beginning with year one.

D. Expenditure Requirement for Educational Purposes

State MFP funds shall only be expended for educational purposes. Expenditures for educational purposes are those expenditures related to the operational and instructional activities of a district to include: instructional programs, pupil support programs, instructional staff programs, school administration, general administration, business services, operations and maintenance of plant services, student transportation services, food services operations, enterprise operations, community services operations, facility acquisition and

construction services and debt services as defined by Louisiana Accounting and Uniform Governmental Handbook, Bulletin 1929.

IX. Accountability for School Performance

A. Each school district (LEA) with a school that has a School Performance Score below 60 AND growth of less than 2 points in the School Performance Score will be included in an MFP Accountability report submitted to the House and Senate Committees on Education by June 1 of each year. Specific information to be included in the report is as follows.

1. School Data - School name, city, and district; Type of school; October 1 elementary/secondary enrollment; and grade span.
2. Accountability Data - scores and labels.
3. Fiscal Data - expenditures per elementary/secondary enrollment for classroom instruction (less adult education) and pupil/instructional support.
4. Student Demographic Data - percent of students eligible for free and/or reduced lunch ("at-risk"), students with exceptionalities (special ed), gifted/talented, and Minority; Advanced Placement data; student attendance rates; and pupil-teacher ratios.
5. Teacher Data - Average FTE teacher salaries (object 112, function 1000 series); percent of teachers certified; average years of experience; percent master's degree and above; percent turnover; percent Minority; and teachers' days absent. All teacher data (excluding salaries) reported for certified teachers.
6. Staffing Data - number per 1000 pupils for certified teachers, uncertified teachers, and instructional aides.

B. Any student attending an Academically Unacceptable school in School Improvement 5 (SI5) that does not have a BESE-approved Reconstitution Plan shall not be considered in the MFP formula calculations. Any student attending an Academically Unacceptable school in School Improvement 6 (SI6) that does not have a BESE-approved and implemented Reconstitution Plan shall not be considered in the MFP formula calculations.

C. Any staff assigned to a SI5 School that does not have a BESE-approved Reconstitution Plan shall not be considered in the MFP for any purpose. Any staff assigned

to a (SI6) School that does not have a BESE-approved and implemented Reconstitution Plan shall not be considered in the MFP for any purposes.

SPEAKER OF THE HOUSE OF REPRESENTATIVES

PRESIDENT OF THE SENATE
