**DATE:** August 25, 2020

**SUBJECT:** USDA Required School Lunch Match (FY2020-2021)

The United States Department of Agriculture (USDA) requires a match of state funds for the school lunch program. The match is evidenced, in part, through the Minimum Foundation Program (MFP) funds identified in the Annual Financial Report (AFR) for each school system and school.

The Louisiana Department of Education calculates the match amount on an annual basis. To correlate the match requirement to the Federal School Lunch Program, the match is derived using a subset of Economically Disadvantaged (ED) data. The proportion of the Economically Disadvantaged student count on the official MFP student count date for each school system and school is applied to the State total match requirement to determine the required contribution.

For new entities, the proportion of the required match is determined by calculating the average Economically Disadvantaged percentage in the district of prior jurisdiction and applying it to the initial MFP funded amount. In subsequent years, the actual number of Economically Disadvantaged students will be utilized.

The attached schedule contains the required match amount for FY2020-2021. This calculation is based on a subset of the February 1, 2020, MFP Economically Disadvantaged membership for each school system and school. School Lunch Match data includes SNAP matches and Free & Reduced Lunch Counts for all schools regardless of CEP status. The match amount must be recorded in the revenue keypunch code 4450 in the Annual Financial Report (AFR).
