

This document provides answers to questions regarding the Career Development Fund (CDF) allocation in FY2024-25.

For further information on the pay raises, send inquiries to ldoeMFPHelpdesk@la.gov or call the Office of School System Financial Services at 225.342.3617.

What is the purpose of the CDF Allocation?

CDF funds are intended to support increased student access to high-value CTE courses and training. BESE and the Legislature realized that it costs schools more to offer CTE courses in high-wage employment sectors (e.g., welding, information technology, manufacturing, etc.). As a result, dedicated CDF funds were provided in the MFP for the exclusive purpose of making high-value CTE courses and training available to more students across Louisiana.

Where are CDF funds located in the MFP formula?

The CDF allocation is part of Level 4, Supplementary Allocations.

Are the CDF funds released all at once?

No, the funds are released through two allocations, an Initial and a Final allocation.

What is the methodology for the CDF Initial allocation?

The initial CDF payments are based on the greater of:

- a. 75% of the previous year's CDF allocation, or
- b. A minimum of \$25,000/\$10,000

How are the funds released for the Initial allocation?

The CDF process provides an initial, single payment to school systems, charter schools, and state schools in July. This process allows funds to be available to support CDF programs early in the school year.

Are CDF funds included in the monthly MFP payments?

No, a separate payment is released just for the CDF Initial allocation.

When are the payments released for the Initial allocation?

The initial MFP CDF payments for FY 2024-2025 will be released *on or before August 14, 2024*.

When may recipients expect to receive the funds once released by the department?

Funds should appear in bank accounts within one to three business days depending on the banking institution with which a school system, charter school, or state school conducts business.

How is the CDF Final Allocation calculated?

In February/March 2025 the Initial CDF allocation will be trued up based on actual student enrollments in CDF-qualifying courses. Increases or decreases in the CDF allocation and payments may occur depending on the actual data.

How does a school system, charter school, or state school qualify for CDF funds?

Student enrollments in CDF-qualifying courses must be reported through the 2024-25 Jump Start Technical Course Grid, 2024-25 Class Schedule Data Collection.

Where can the CDF-qualifying course list be accessed?

The most recent CDF-qualifying courses are listed on the [All Things Jump Start](#) webpage.

What is the allocation methodology for the CDF Final allocation?

A 6% MFP adder (\$241 in FY 2024-2025) is provided for each student course enrollment in a CDF-qualifying course. A minimum allocation is provided as follows:

- City and Parish school systems receive the greater of:
 - a) \$25,000; or
 - b) the sum of 6% adders for all their students' CDF-qualifying courses;

- Charter and special schools (with grades 9-12) receive the greater of:
 - a) \$10,000; or
 - b) the sum of 6% adders for all their students' CDF-qualifying courses;

How are CDF Final allocation payments released?

Any additional CDF allocation due will be in a separate, single payment in February/March 2025.

How are reductions resulting from the CDF Final allocation handled?

For any overpayment of the CDF allocation, a reduction will be applied in an equivalent amount against the June 2025 MFP payment.

What are allowable expenses for CDF funds?

Allowable CDF funds are those that increase student access to high-value CTE courses/training. Specific uses include:

- Facilities, materials, equipment, and transportation expenditures related to student's identified on a Fast Forward pathway who are enrolled in a required Fast Forward pathway course.

- Teacher training towards attainment of Jump Start statewide credentials, which can include Super Summer Institute training and externship stipends for externships in regional or statewide high-demand industry sectors.

- Facilities, materials and equipment expenditures related to student attainment of Jump Start statewide credentials and IBCs that are a part of a statewide bundle. This type of expenditure may include:
 - the cost of student statewide industry-based credentials;
 - the cost to license software related to statewide credentials;
 - the cost to license software systems that provide students with access to experts in high-demand industry sectors;

- career counseling services and software that help students learn about how they can pursue the courses and industry credential for high-demand industry sectors;
- facilities, materials and equipment expenditures related to obtaining statewide credentials (i.e., welding shops, computers for approved credentialing courses, medical uniforms, food for ProStart, supplies for construction crafts, etc.).
- Transportation of students and teachers to sites where high-value CTE courses and training are available. Qualifying sites such as community and technical colleges, school facilities, and industry training organizations. Transportation costs include all the costs schools incur for transportation, such as driver costs and benefits. Bus tokens are also allowable expenses.
- Expenses incurred by having a JAG-Specialist on staff, including salary and benefits.
- Expenses incurred by having CTE staff provide instruction or IBC testing outside of the school day.
- Expenses for the new Career Readiness Quest for Success course.
- Expenses related to student internships not covered by partner business.
- Student tuition

What are non-allowable expenses for CDF funds?

- Non-allowable Expenses
 - Salaries or benefits for teachers, except for externship stipends in high-demand industry sectors and JAG specialist.
 - Teacher training for credentials other than Jump Start statewide credentials.

Where should programmatic questions including allowable expenses and reporting requirements for CDF funds be directed?

Questions may be sent to jumpstart@la.gov
