# **LEADS Corner**

As you continue through the LEADS process, keep in mind that feedback is fundamental to a growth-oriented system and teachers appreciate and deserve valuable feedback, especially following a formal observation. The reflection and feedback on teaching and learning are rooted in student outcomes. Your passion with this process demonstrates your dedication towards advancing student achievement. Below are a few steps to continue a smooth transition to LEADS.

- School leaders develop a long-range plan for teacher collaboration professional learning opportunities, where educators/teachers build LER depth of knowledge and self-assessment skills. This plan should align with the instructional leadership team's learning (extended LER indicator deep dives, connections to HQIM implementation, connections to student work).
- School instructional leadership teams conduct trend analysis with observation data from the first cycle of educator observations, identify strengths and growth opportunities, and determine next steps for the team's professional learning.
- For eligible educators, designated observers/evaluators of educators at each school conduct the second cycle of observations and the subsequent follow-up coaching and support cycle.

The <u>Guide for School Leaders: Planning for Implementation</u> is an available resource to support LEADS implementation.

Please contact <a href="mailto:leads@la.gov">leads@la.gov</a> with questions.
