

School System Leaders: Please share the following with your K-8 principals.

Over the course of the 23-24 school year, the Department will host a series of six webinars for K-8 principals that focus on key literacy and math initiatives. These webinars will be brief – 30 minutes each as we appreciate and value each principals' time. We have specifically planned these webinars to take place in August, September, October, January, February, and March. These are not mandatory for anyone but simply a service/resource we are providing because of the emphasis being placed on literacy and math, including key shifts resulting from legislation.

Hopefully you will find these brief webinars to be filled with tangible information and resources to drive best practices in literacy and math improvement work in your schools. We invite you all to mark your calendars for these dates and please join us for our first webinar in the series next **Monday, August 7th at 1 pm.**

Webinar Date and Time: August 7 at 1 p.m.
