

Changing thinking and approaches to chronic absenteeism by understanding student and family needs.

Approach

Collaborative strategic partnership to provide research-based professional development to attendance teams and stakeholders within a school/system.

Goals & Objectives

- Provide virtual training to build capacity in school/district teams to analyze and respond to student attendance data.
- Strengthen team practices.
- Develop targeted intervention menus with an emphasis on Tier 1 and Tier 2 supports.

Services & Deliverables

- **Needs assessment:** Survey and analysis to determine needs related to systems of support, teaming and data practices, and engagement strategies.
- **Training teams:** Provide three 1-hour virtual trainings based on identified needs.
- **Follow-up support:** Host two 30-minute Zoom office hours to consult on intervention systems and menus.
- **Support school self-assessment:** Facilitate self-assessment to capture growth, highlight outstanding needs and gaps, and identify opportunities to support students, families, and communities.

\$9,500 per school

Social Research & Evaluation Center

The Social Research and Evaluation Center advances social initiatives to improve the lives of individuals, families, and their communities through our research, evaluation, professional services, and partnerships.

We are a leader in addressing chronic absenteeism through capacity-building and attendance intervention.

We understand Louisiana.

Multidisciplinary team of social workers and educators who have practiced in school-based, community-based, and university-based settings to support Louisiana students and families.
