WHAT DO YOU THINK STUDENTS ARE CONCERNED ABOUT WHEN IT COMES TO SCHOOL VIOLENCE?

There often isn’t a simple, straightforward reason why someone engages in school violence. A child may have been bullied or rejected by a peer, may be under a lot of academic pressure, or may be enacting something they’ve seen at home, in their neighborhood, on television, or in a video game.

What factors lend to increased violence in schools ?

- Poor academic performance
- Prior history of violence
- Hyperactive or impulsive personality
- Mental health conditions
- Witnessing or being a victim of violence
- Alcohol, drug, or tobacco use
- Dysfunctional family dynamic
- Domestic violence or abuse
- Access to weapons
- Delinquent peers
- Poverty or high crime rates in the community

[PROGRAM NAME] NOW PARTNERS WITH Crimestoppers Safe Schools Louisiana, A SCHOOL SAFETY TECHNOLOGY INITIATIVE FOR OUR SCHOOL COMMUNITY TO ANONYMOUSLY REPORT ANY SAFETY OR MENTAL HEALTH CONCERNS.

[CITY, STATE (Month Day, Year)] – [Program Name] is proud to announce that we have recently partnered with the Texas-based company, Anderson Software, to provide a seamless and efficient way for students, staff, and community members to offer information to help prevent tragedy and bring mental health needs to light. Anderson Software leads the industry with its secure and anonymous tip acquisition and management solution, called P3 Intel. This technology is the foundation of Crimestoppers Safe Schools Louisiana powered by P3 Campus, a comprehensive reporting solution designed specifically for the needs, behaviors, and attitudes of students. This partnership allows [City/County/Region] to foster a relationship between schools, law enforcement, mental health professionals, parents, and students themselves.

[Program Name] will now be accepting reports through mobile or desktop web browsers at *www.safeschoolsla.com* or through the Crimestoppers Safe Schools Louisiana mobile app. These methods of reporting seamlessly integrate into the lives of modern students. Reports are monitored 24/7 to ensure that time-sensitive matters are dealt with promptly. Reports made through the Crimestoppers Safe Schools Louisiana mobile app, unlike SMS text reports, have no length limitations or the need to remember a short code. Additionally, when reporters use the mobile app, they are notified when action has been taken on their report, which demonstrates the value of their time and concern. In both the web browser and app form, reporters can attach photos, screenshots, videos, documents or audio recording to their reports, and they can engage in two-way dialogue with a real person; both of these features greatly facilitate swift interventions.

[Program Name] feels that joining in the Crimestoppers Safe Schools Louisiana initiative will strengthen bonds between students and adults, identify subjects of social abuse, reveal emotional needs unmet, and preclude tragedy on both the personal and community level.
