Program Description

Overview

OJP is committed to advancing work that promotes civil rights and racial equity, increases access to justice, supports crime victims and individuals impacted by the justice system, strengthens community safety and protects the public from crime and evolving threats, and builds trust between law enforcement and the community.

With this solicitation, BJA seeks to increase school safety by implementing training that will improve school climate using school-based behavioral threat assessments and/or intervention teams to identify school violence risks among students, technological solutions shown to increase school safety such as anonymous reporting technology, and other school safety strategies that assist in preventing violence.

Samples of previous, successful applications can be found at <https://bja.ojp.gov/funding/successful-applications>.

Statutory Authority

Any awards under this solicitation would be made under statutory authority provided by the Department of Justice Consolidated appropriations Act, 2023 (P.L. 117-328, 136 Stat 4459, 4537). Additionally, funds provided to the program under the Bipartisan Safer Communities Supplemental Appropriations Act (Pub. L. No. 117-159, 136 Stat. 1313, 1339), 28 U.S.C. 530C, are included in this solicitation.

Specific Information

BJA's Students, Teachers, and Officers Preventing (STOP) School Violence Grant Program is designed to improve K-12 school security by providing students and teachers with the tools they need to recognize, respond quickly to, and prevent acts of violence and ensure a positive school climate.

Eligible applicants for Categories 1 or 2 may submit only **one application**. The proposals may include one or more of the following areas:

(1) **Develop and operate technology solutions** such as anonymous reporting systems (ARS) for threats of school violence, including mobile telephone applications, hotlines, websites, or other school safety technology solutions, for accurate identification of danger (without resorting to discriminatory stereotypes or violating privacy) or other technology solutions shown to improve school safety. Applicants will demonstrate in their applications or with attached letters of support or memorandums of understanding (MOUs) that they have the support of relevant team partners, including local law enforcement. Applicants should also discuss how this system will not duplicate but complement existing ARS systems in the jurisdiction or state. Applicants will need to detail how the data collected through this system is handled, secured, and shared and review data to ensure there is no disparate impact based on race, ethnicity, or disability in outcomes.

(2) **Develop and implement multidisciplinary behavioral threat assessment (BTA) and/or intervention teams**. BTA and/or intervention teams must be multidisciplinary and should

Digital Trust

Technological devices, artificial intelligence, predictive analytics, and other data-driven solutions ("Technological Enhancements") are increasingly used to augment crime reduction strategies and efforts. Care must be taken to assess and address any potential harm that could be activated by these solutions to ensure privacy, civil rights, and civil liberties are protected. Applicants proposing to utilize grant funds to support technological enhancements directly or via training and technical assistance may receive priority consideration if their proposal addresses tenets of digital trust such as:

How the technology will be carefully implemented through training of personnel and the setting and enforcement of policies governing its use to ensure that it contributes to positive outcomes for public safety, the community, and/or the criminal justice system.

How the applicant will safeguard privacy, civil rights, and civil liberties throughout the duration of the project period.

Applicants proposing to implement an anonymous reporting system in a state or jurisdiction that has an existing ARS system should describe how the proposed ARS system will not be duplicative.

STOP funds may not be used to address violence on the campus of an institution of higher education.

All applicants should be aware that under federal law, OJP may not award grant funds to procure or obtain any equipment, system, or service that uses "covered telecommunications equipment or services" as a substantial or essential component of any system, or as critical technology as part of any system. In general, with limited exceptions, "covered telecommunications equipment or services" includes telecommunications and video surveillance equipment or services produced by a foreign entity that is specifically designated by statute or by the federal government pursuant to statute.

Determination of Suitability for Covered Individuals Who May Interact with Participating Minors Award Condition

If the applicant indicates that a purpose of some or all of the activities to be carried out under the award (whether by the recipient or a subrecipient at any tier) is to benefit a set of individuals under 18 years of age, the recipient and any subrecipient at any tier, must make determinations of suitability before certain individuals may interact with participating minors. This requirement applies regardless of an individual's employment status. The recipient (and any subrecipient at

any tier) may not permit any covered individual to interact with any participating minor in the course of activities under the award, unless the recipient or subrecipient first has made a written determination of the suitability of that individual to interact with participating minors. A condition will be attached to all awards related to this requirement but applies to an award only if it is indicated in the application that the purpose of the activities will benefit individuals under the age of 18.

How to accept an award in Justgrants.gov

My Worklist displays all available awards.

Sign into JustGrants.

1) Select an award from *My Worklist*.

Note: The Authorized Representative has legal authority to enter into agreements with the federal government and bind the organization to the award's conditions.

If the Authorized Representative does not see an application in their worklist, it is not assigned to them. The Entity Administrator must assign the application to them using the steps found in the Entity Management Job Aid Reference Guide.

ACCEPTING AN AWARD

ACCEPTING AN AWARD

Make sure to select each checkbox.

- 2) To accept the award, you will need to expand each section of the award package and certify that you have read and understand the information in each section.

Note: Carefully review the Award Conditions.
