

## Annual Plan Guidance for Positive Behavior Interventions and Supports (PBIS) Consortium

### PBIS Consortium Annual Plan Guidance Document

The guidance document is designed to assist with the development of an annual plan to support the implementation of evidence-based interventions that address the behavioral needs of students with disabilities.

**Consortium Goals** Provide regional goals that have been collaboratively developed by school systems in the consortium. The goals should convey the priority activities and focus areas for the fiscal year. Goals should be specific to the unique needs of the region, and should utilize data based decision making from the prior year tiered fidelity inventory. Goals should be both qualitative and quantitative.

#### **Consortium Trainings:**

Provide information regarding the required training topics (listed below) the consortium selected to provide quarterly.

- Tier 1 Intervention Training
- Tier 2 Intervention Training
- Tier 3 Intervention Training
- Data Based Decision Making
- Evidence Based Classroom Management Strategies
- Functional Behavior Assessment
- Behavior Intervention Plan
- Tiered Fidelity Inventory Process and Expectations

Refer to evidence based interventions and training providers.

**Quarterly Meeting** Provide dates of the consortium quarterly meeting calendar.

**Projected Budget** Provide planned expenditure amounts, by quarter, and descriptions. The total expenses are not to exceed the maximum allocation (\$53,125). The following allowable items must be accompanied by supporting documentation and invoices when submitting for reimbursement :

- Training Materials
- Presenter Fees
- Room and equipment rental for training purposes
- Travel within the state/region
- Stipends/Subpay

### **Additional Training Request**

Provide information about additional training, outside of the mandatory training, the consortium is requesting to provide. All requests must be submitted to LDOE prior to conducting the training. Any training not submitted for prior approval will not be considered for reimbursement.
