Spotlight: Louisiana Educator Advancement and Development System (LEADS)

Reimagining Educator Evaluation

LEADS Responds to Needs of Educators

LEADS includes:

- A research-based vision for instructional excellence and a common language for best instructional practices.
- A system of continuous improvement that ensures positive impact on students.
- Observations that support individualized feedback that connects to opportunities for professional learning.
- Coaching plans that are differentiated based on the needs of each educator.
- Opportunities for educators to engage in self-reflection.

LEADS Supports Strong Classroom Instruction

Louisiana has invested in supporting strong classroom instruction as the most important lever for student success by:

- Prioritizing the implementation of high-quality instructional materials (HQIM).
- Supporting systems and schools to implement high-quality professional learning through proven strategies including: instructional leadership teams, teacher collaboration, and career pipeline support.
- Building on these investments with a system for observation, high-quality feedback, and coaching to help educators grow professionally.

What Educators are Saying About LEADS

Keeps Student Learning at the Forefront

“I have been teaching for 27 years, but LEADS has prompted me to think about my teaching differently. I’m learning to give my students control of their learning by giving them time to discuss strategies with a group. It’s exciting to hear students talking about their learning and even coaching each other through problems.”

Stephanie Peavy
3rd Grade Math Teacher, Waller Elementary School
Bossier Parish

Supports Classroom Application

“A coaching plan helps turn evaluation and post-conference feedback into actionable steps. These steps help minimize the stress of the evaluation process for a teacher and help build confidence and efficacy. An alignment between feedback, coaching, and observations promotes best practices that become habits.”

Domonica Fresch
Master Teacher for 2nd-5th Grade, Combre-Fondel Elementary School
Calcasieu Parish

Connects Feedback to Coaching Plans

“I have never had the kind of feedback conversations that I am having with teachers and leaders now that we’re using the LER. Teachers are listening and asking questions – and this is where the coaching begins. Teachers now leave post-observation conferences with a plan and next steps to begin working on immediately.”

Jodi Lemoine
Director of Accountability and Curriculum
West Feliciana Parish

DIBELS Progress Monitoring

- Research has demonstrated that when teachers use student progress monitoring, students learn more, teacher decision making improves, and students develop more ownership of their performance.
- It is recommended that school systems establish routines and procedures for progress monitoring on a **weekly** basis for students falling in the “Well Below” category according to DIBELS assessment data on a weekly basis.
- For students who fall in the “Below” category, it is recommended that progress monitoring is conducted every **10** instructional days, or **bi-weekly**.

DIBELS Professional Development Series for K-3 Literacy Educators

Recommended professional development sessions to strengthen fidelity of administration and strengthen responsiveness to literacy screener data

Purpose and Participants

The purpose of this document is to provide a comprehensive professional development plan for increasing fidelity of administration and strengthening instructional responsiveness to DIBELS literacy screener data in order to improve student literacy outcomes. The content and pacing of the series is strategically designed for educators based on the mandated Louisiana literacy screener benchmark assessments. All literacy educators and school leaders who support K-3 elementary students can benefit from completion of the professional development sessions.

Plan for Implementation

Session titles, session descriptions, and a suggested timeline for completion are provided to support school leaders with the effective implementation of the DIBELS literacy screener. While some sessions are available through the mCLASS PD Library, other sessions can be accessed through the Louisiana Literacy Library and through the [DIBELS PD Series](#) on Canopy. The sessions and coursework can be completed as part of an individualized professional growth plan, or they may be embedded in a variety of ways, including school professional development days, onboarding of newly hired educators, and teacher collaboration meetings. Additionally, it is recommended that educators strategically revisit these topics as needed to target and strengthen areas for schoolwide growth and to promote positive systemic change.

LOUISIANA DEPARTMENT OF EDUCATION

Best Practices for Administering DIBELS Benchmark Assessments

Additional recommendations for the administration of DIBELS Benchmark assessments (BOY, MOY, EOY)

Overview and Purpose

This document is intended to highlight recommendations and best practices for the successful administration of DIBELS Benchmark assessments to all K-3 students. The Louisiana Department of Education has selected mCLASS[®] with DIBELS[®] 8th Edition, an integrated literacy system based on the Science of Reading, as the state's K-3 literacy assessment. mCLASS has been customized to meet the needs of Louisiana, based on the latest research and the Science of Reading. It is a valid and reliable assessment, supporting universal literacy screening, screening for risk of dyslexia, and progress monitoring. The [Test Administration Manual for BOY and MOY](#) provides information and instructions about assessment administration for the mCLASS DIBELS 8th Edition State Administered K-3 Literacy Screener for Louisiana at BOY and MOY. Additionally, the [Test Coordinator Manual \(TCM\) for BOY and MOY](#) provides a review of relevant information for District and School Test Coordinators at BOY and MOY.

Benchmark Assessments

Louisiana state law requires that all students in grades kindergarten through third grade be screened by a single statewide screener during the first 30 days of school, in December and in April. The screener serves as an indicator of whether core instruction is meeting the needs of the majority of students and can also be used to identify which students may be at risk for experiencing reading difficulties so that teachers can provide timely and effective support. The literacy screener also assists in identifying students for further evaluation for specific programming, including students who display characteristics of being dyslexic or gifted.

Family Engagement

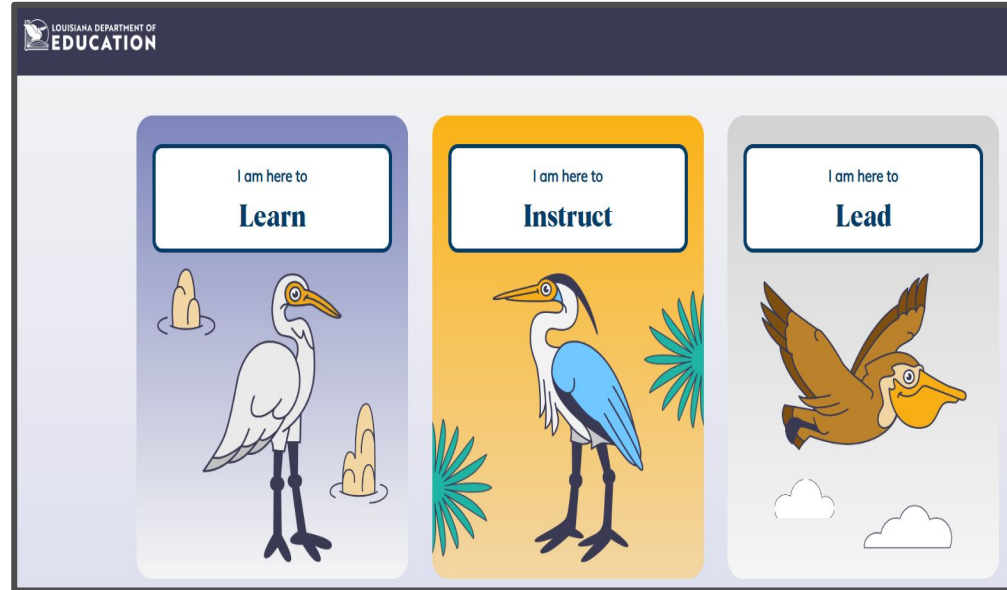

A family's involvement can be key to a student's educational achievement. For students identified as needing an [Individual Academic Support Plan](#), Louisiana education policy requires families to be informed about activities they can do to support extended learning at home. Accordingly, teachers should print and send home a copy of the DIBELS Home Connect letter along with resources found under the [Families Literacy Pillar](#) and family resources connected to high-quality instructional materials. Each DIBELS Home Connect letter contains results for all Benchmark assessments administered to a student using mCLASS during the current school year. These letters serve many purposes and are aimed at enhancing students' learning outcomes by providing information about the student's results for each completed measure.

Science and Art of Teaching Reading Course

Part 1 is now available through the [Louisiana Professional Learning Platform](#). Part 1 is approximately 30 hours with checks along the way. Participants must score at least an 80% to pass.

Course Code: 8CBF0261

Reading Enrichment Academic Deliverables

The R.E.A.D program is now accepting additional students in grades Kindergarten through 5 to enroll for free books mailed to their home through Scholastic.

Schools should print the [English Flyer](#) or the [Spanish Flyer](#), add the site code (testing code) and send home with all eligible students. Students scoring below proficiency on the literacy screener or below Mastery on the ELA LEAP assessment are eligible.
