### **What is the Certificated and Support Staff Stipend Allocation?**

This allocation provides funding for certificated and support staff stipends from funds appropriated during the 2025 Regular Session of the Legislature.

### **What is a stipend?**

A one-time nonrecurring payment to employees.

### **Were these funds included in the Minimum Foundation Program (MFP) formula?**

No, this funding is a separate Legislative appropriation. The funds for the certificated and support staff stipends are NOT included in the FY 2025-26 MFP Formula Resolution.

### **What stipend amounts are included in the allocation?**

The allocation provides stipends in the amount of \$2,000 for certificated staff and \$1,000 for support staff.

### **Will the employer's share of the contribution rate for these stipends be included in the allocation?**

Yes, the associated employer retirement costs for the stipends are funded at 20.95% for certificated and 22% for support staff.

### **Which systems and schools are eligible to receive an allocation?**

City and parish school systems, Legacy Type 2 charter schools, New Type 2 charter schools, Lab schools, state schools, and RSD operated and Type 5 charter schools are eligible for the allocation.

### **Should a Type 1 charter school authorizer pass along the stipends to the Type 1 charter schools?**

Yes, the certificated and support worker counts for Type 1 charter schools are reported to the department through the staffing data collection and included in the source data for the allocation.

### **Will charter schools receive the portion of the stipend allocation for the employer's share of the retirement contribution?**

Yes, in order to address the associated costs of the retirement obligations of their particular retirement plans, charter schools will receive the allocation for the employer's share of the retirement contribution for both certificated and support personnel stipends.

**What is the calculation methodology for the stipend allocation?**

The number of eligible full-time equivalent positions multiplied by the certificated and support stipend amount determines the allocation.

**What is the data source for the full time equivalent (FTE) position count data?**

The full-time equivalent staff counts from the prior school year were reported by school systems and schools across the state to the EdLink 360 staffing data collection system in the annual fall reporting.

**What specific information determines if a position is a certificated or support staff position?**

The object and function code combinations reported in the annual fall staffing data collection for each position are the determining factors for identifying positions as either certificated or support staff. The staffing collection submission guidance provides information on the different object/function combinations available and can be viewed at [EdLink 360 support page](#).

**What is an object code?**

An object code is used to describe the service or commodity obtained as the result of a specific expenditure. In the case of staffing, the object code identifies that the expense is for salaries and then further defines the type of salaries.

**What is a function code?**

The function code describes the activity for which a service is acquired. In the case of staffing data, the function code identifies the activity in which a staff member participates.

**In what document are the object and function codes defined?**

Certificated and support staff are defined in the LDOE's accounting framework found within *Bulletin 1929, Louisiana Accounting and Uniform Governmental Handbook* ([LAUGH](#)).

**Which positions are eligible to be counted in the certificated staff data?**

With the BESE policy regarding ancillary certificates for ROTC instructors, these instructors now meet the dual requirement qualifying them to be included in the staff data for the stipend allocation.

**Is each individual certificated or support staff person eligible for the stipend?**

No, the allocation is based on the positions, not the individual staff members.

Yes, school systems and schools are required to pay these funds to staff.

**What are the required timelines for distribution of the stipends?**

The distribution schedule for the stipends is a local decision. However, the total stipend amount must be paid to staff *prior to December 15, 2025* per the legislation authorizing the funds.

**Must the school board approve these funds prior to the distribution of the stipends to employees?**

Yes, prior to distribution of the stipends, the school board must adopt the stipend distribution plan.

**What documents should be presented to the local school board for approval of the stipend distribution plan?**

**If the local school board has already approved the salary schedule for this year, is a separate vote and approval needed to amend the plan for the stipends?**

Payroll records detailing the amount and date of the release of the stipend payments to employees must be maintained to substantiate the appropriate use of these funds.

**Will recipients of these funds be required to submit documentation on the approved plan, along with dates and amounts of the distributions to the Department?**

Yes, the department will require that recipients provide data on the use of these funds. This data request will come in early spring 2026.
