Program Overview

Louisiana Believes...

Children are our highest priority

Families are our partners

Educators are valued professionals

Graduates must be ready

Equity matters

Choice expands opportunities

Schools are invaluable to communities

Our future is bright

Louisiana's Goals and Priorities

SIX CRITICAL GOALS

Students enter kindergarten ready.

Students will achieve mastery on third-grade assessments and enter fourth grade prepared for grade-level content.

Students will achieve mastery on eighth-grade assessments and enter ninth grade prepared for grade-level content.

Students will graduate on time.

Students will graduate with a college and/or career credential.

Students will graduate eligible for a TOPS award.

EDUCATIONAL PRIORITIES

Ensure every student is on track to a professional career, college degree, or service.

Remove barriers and create equitable, inclusive learning experiences for all children.

Provide the highest quality teaching and learning environment.

Develop and retain a diverse, highly effective educator workforce.

Cultivate high-impact systems, structures, and partnerships
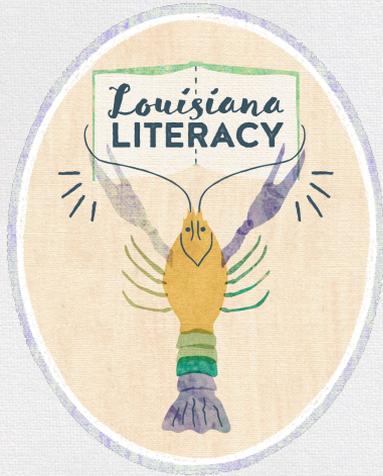

Believes

Importance of Early Literacy

The need to prioritize early literacy is significant.

- Early literacy is a critical predictor of educational and lifelong success.

- A long-term study found that students who were not proficient in reading by the end of third grade were four times more likely to dropout of high school than proficient readers. In fact, 88 percent of students who failed to earn a high school diploma were struggling readers in third grade (Annie E. Casey Foundation, 2010).

- Research shows that only 1 in 10 students who are behind in reading at the end of first grade will catch up to their peers later on. (Juel, 1988; Francis et al., 1996; Shaywitz et al., 1999)

The Coronavirus pandemic has exacerbated existing gaps in early literacy.

REAL Alignment to Louisiana Literacy Pillars

LOUISIANA'S LITERACY PILLARS

Student literacy outcomes will increase when schools create and monitor **literacy goals.**

Literacy outcomes will improve when students are provided high-quality core instruction together with **explicit literacy interventions and extensions** based on individual student needs.

Ongoing professional growth is an essential component of effective teaching and literacy development.

Families play an essential role in the literacy development of children at all ages and stages.

Believes

Real-time Early Access to Literacy: Program Overview

- **Real-time Early Access to Literacy (REAL)** provides early literacy support for students in pre-K through grade 3.
- Through REAL, school systems are allocated funding to provide students in pre-K through grade 3 with technology and tutoring services.
- The REAL Program is funded by a federal grant, **Education Stabilization Fund Rethinking Education Models (ESF-REM)**. The grant provides approximately $17 million total to Louisiana over the course of three years to improve early literacy outcomes across the state.
- School systems receive funding to establish literacy tutoring microgrant accounts for eligible students.
- Tutoring for REAL participants is provided by LDOE approved **Tutoring Service Providers**.

REAL Supports Your Current Initiatives

real-time early access to literacy

REAL should be used to support early literacy tutoring for pre-k through 3rd grade students in conjunction with all other current initiatives that support unfinished learning due to the Pandemic.

Think of ways to support your current early literacy work with REAL.

REAL Guidance

REAL Guidance

- **Application Name**
  The eGMS application is labeled **REAL Consolidated**.

- **Group Size**
  Face-to-face literacy tutoring group size can be up to 3 students. (Reimbursement for tutoringing $40 per hour 1:1, $30 per hour 2:1 or $27 per hour 3:1.)

- **Streamlined Registration Process**
  The registration process will begin with the Tutoring Service Providers. This will eliminate the amount of wait time prior to beginning tutoring services.

- **REAL Portal**
  School systems will finalize registration by entering student information into the REAL portal.

Breakdown of Tutoring Service Providers

School System Providers	Private Company Providers
Ascension Parish School System	Canopy Ed- Minton Education Consulting
Calcasieu Parish School Board	Sylvan Learning Metairie
Central Community Schools	MARK- Meaningful Autistic Resources for Kids
East Baton Rouge Parish School System	One on One Learning
East Feliciana School System	Sylvan Learning Acadiana
St. Landry School System	Sylvan Learning Houma
Venture Educational Services	Cornerstone Learning Systems, Inc.
St. Martin Parish School System	
St. Bernard Parish School System	
Natchitoches Parish School System	

Believes

School System Role in REAL

School System REAL Responsibilities

Complete the eGMS application for Real-time Early Access to Literacy by January 30 IF your school has not been in participation with REAL in 2021.

Identify eligible students (pre-K through grade 3 students enrolled in CIR/UIR-A schools) and provide their families with registration information.

Complete registration of students by uploading the LASID numbers, grade level, and tutoring section ID of registered students into the REAL portal.

Make payments to REAL Tutoring Service Providers for services provided. Ensure that providers complete all school system requirements for contract services and data sharing.

Request for reimbursement for tutoring services provided to eligible students in eGMS can be made on March 16 and May 9.

How to Prioritize Student Grants

There are several factors that school systems should take into consideration when making a decision about student grant amounts. School systems should begin by developing and overall strategy for implementation.

Considerations for school systems include:

- Number of weeks in the tutoring cycle;
- Per hour cost of a tutoring session;
- Number of students in the target population; and
- Frequency of tutoring sessions.
- Suggested grant amounts should be a minimum of $500 per cycle.

For example, a school system with an allocation of $10,000 could decide to provide about 20 students with a $500 grant. Each student would receive about 12 hours of tutoring over the Spring tutoring cycle.

Believes

Student Registration Process

1. Eligible families receive registration information from their school system.
2. Families choose from a library of qualified Tutoring Service Providers by completing a registration link for their preferred provider.
3. Providers submit interested students' registration submissions to the school system for eligibility verification.
4. School systems verify eligibility and finalize enrollment into the program by registering students into the REAL portal and designating (suggested $500) microgrants per eligible student during each tutoring cycle.
5. Upon completion of the eligibility verification, the Tutoring Service Provider will contact the family to schedule tutoring sessions.

Portal Access Information

- The Real-time Early Access to Literacy registration portal can be accessed at https://leads5.doe.louisiana.gov/real/.

- Each school system should identify a person(s) responsible for student eligibility verification and enrollment. Users with the "district staff" role will have the ability to upload enrollments for all students in their district. Users with the "school counselor" role will only be able to upload enrollments for students at their specific school.

- Each school system should complete the REAL Portal User Account request form by January 30. However, only new users need to complete the request form at this time.

- School systems may utilize the REAL Student Registration and Enrollment Guidance document for instructions to register students.

Allocations and E-Grants Management System (eGMS)

REAL Grant Application

School systems were already awarded funding. In order for the funding process to begin all school systems must complete an application in eGMS located under the "Funding" tab on our website. The application will be labeled REAL Consolidated.

- As a school system you can choose a preferred tutoring service provider, allow families to choose form the list, or provide the tutoring service yourselves.
- Once a school system agrees to contacts and assurances from tutoring service providers, the application should appear on their homepage with the rest of the grants, under the section titled **available.**
- The school system will select the **create** button to start the application.
- All Real-time Early Access to Literacy grants should be complete in EGMS by **January 30**. If you have already completed an application in eGMS for the current school year, it is not necessary to complete another application.

Believes

eGMS REAL Application Assurances and Contacts

To view your school system's allocation in the E-Grants Management system (eGMS) you must first complete the assurances and contact information in LEA Central Data.

REAL Application Sample Budget Detail for School Systems who are not Providers

*The REAL grant has only object code 300 and EIC 13. All funds associated with the 2021-2022 REAL allocation can only be utilized for **tutoring services** with an LDOE approved vendor.*

Sample Expenditure Description and Itemization

- Tutoring Services from the LDOE approved list of Tutoring Service Providers for students in grades pre-K through grade 3.

Reimbursement Request

- Reimbursement requests can be submitted as frequently as a school system wishes, but at least once per quarter.
- Periodic expense reports (PERs) must be submitted quarterly.
  - The last PER should be marked as Final.

REAL School System Provider Webinar

Several school systems served as providers during the 2020-2021 cycles of REAL. Many may choose to provide the tutoring service again this year.

The Department will host a REAL Tutoring Service Provider webinar on January 25 at 2 p.m. to discuss provider expectations and updates for the spring 2022 REAL cycle.

Webinar Date/Time: Tuesday, January 25 at 2 p.m.

Webinar Link: https://ldoe.zoom.us/j/96702694193?pwd=ZE9uamtYYktqc3dZQ1lxeVNzMGh3QT09

Meeting ID: 967 0269 4193

Passcode: 475043

Spring Cycle Timeline

REAL Spring Timeline

Timeframe	Next Steps	Description
January 17-19	Family Registration Flyers Available	Family registration materials will be available for school systems to distribute.
January 17- 28	School System Eligible Student Recruitment	Eligible Families will receive registration information from their school systems. Families will choose from a library of qualified Tutoring Service Providers (TSPs) and begin the registration process.
January 17-28	Student Eligibility Verification and Student Enrollment	TSPs will provide school systems with student registration information. Schools systems will verify eligibility and complete enrollment in the REAL portal.
January 24 - 28	Student Tutoring Sessions Scheduled	TSPs contact the families to schedule students in specific tutoring sessions.

Believes

REAL Spring Timeline (Continued)

Timeframe	Next Steps	Description
January 31 - May 1	Tutoring Sessions Begin	Students begin individualized literacy tutoring with an LDOE-approved vendor.
March 16	Invoice for Services	TSPs will invoice school systems for tutoring services provided through March 11.
January 31 - May 1	Pre/Post Literacy Assessment	TSPs will administer a pre/post literacy screener during each tutoring cycle. A screening reporting template will be provided.
May 9	Invoice for Services	TSPs will invoice school systems for tutoring services provided through May 1.

Believes

When are the next tutoring cycles?

Spring 2022(13 weeks)	Summer 2022 (TBA)
January 31-May 1	Information regarding summer session will be announced in March after the BESE meeting.
The State of Louisiana reserves the right to revise this schedule.
