

Office of Technology Services

Essential Whitelisting for Bayou Bridges and Foundations of Freedom Curriculum Implementation

To access all curricula and resources, the following sites should be whitelisted. School systems can create more direct links or embed certain content in their Learning Management System if the system prefers not to open up the full content for any of the sites listed. This information is solely provided as a guide, it is up to each school system to determine the best method for allowing students and teachers access to all content and resources

Important Notes:

- Always consult your district's technology policies first.
- Curriculum providers update their online resources as needed. Thus, there may be outliers to this list.
- We encourage districts to test access to these resources before the start of the school year.
