

### Ongoing Professional Development for Early Childhood Educators

In the 2020-2021 school year, many early learning programs will be shifting their professional development from in-person to virtual sessions due to center closures or modified operations. In an effort to support the shift to virtual professional development, the Department has asked vendors to add virtual training to their professional development offerings for summer and fall 2020. The offerings below are low-cost or free options for sites or individuals to continue to engage in professional development around assessments, interactions, and more.
