Louisiana Educator & Staff Vaccine Access

On February 18, Governor John Bel Edwards announced that the state of Louisiana would move to Phase 1B, Tier 2 of COVID-19 vaccinations. This new phase allows for K-12 and early childhood education staff to receive the COVID-19 vaccine.

In order to ensure that all school systems have equitable access to COVID-19 vaccines and information about the vaccine, the Department worked with the Louisiana Department of Health to recommend that school systems develop a partnership with local clinics, hospitals or pharmacies to orchestrate logistics in administering the vaccine. We also asked that systems determine the number of employees who wish to receive the voluntary vaccine. Educators and support staff also have the option to schedule their vaccinations independently with their local providers.

- Eligible employees include those who are housed on site at a center or school.
- It also includes system employees whose work takes them to centers or school sites routinely.
- Employees will most likely be asked to present a badge, paystub or some form of school system identification to receive a vaccine.

Louisiana Department of Health COVID Vaccine Update for School Systems

.At this time, each school system should have devised a vaccine distribution plan in order to ensure that all school systems have equitable access to COVID-19 vaccines and information about the vaccine.

In order to be ready when the state reaching Phase 1B, Tier 2 school systems could:

- 1) Coordinate with a vaccination partner such as a hospital, clinic, pharmacy, Public Health Office, or other entity.
- 2) Identify the total number of vaccinations that will be needed for your school system.
- 3) Regional Medical Health Office

As a courtesy, LDOE will pass your information along to LDH when you have secured a partner and a number of vaccines needed. This information can be shared at LDOECOVID19support@la.gov.
