

## **Grade 8 – Flowers for Algernon**

### **Companion Resources for the ELA Guidebooks for Students with Significant Cognitive Disabilities**

*This past year, the Department created the Companion Resources for the ELA Guidebooks for Students with Significant Cognitive Disabilities to facilitate access and opportunity with a high-quality curriculum, improve professional learning between content area specialists and expert teachers of special education teachers, and increase options for students with the most complex needs to participate in an inclusive and least restrictive environment.*

*The Companion Resources are available for the 2020-2021 academic year in DRAFT form. For teachers/ schools/ systems choosing to use these Companion Resources, the Department requires you to complete a survey so that we may track implementation and solicit your feedback along the way. Thus, if you have not already, please complete the survey found at the link below.*

*The Companion Resources are now available in DRAFT form for teachers, schools, and systems to pilot during the 2020-2021 academic year. Please complete the brief survey linked below so that the Department can track implementation and solicit feedback in order to improve the quality of the Companion Resources.*

*Happy piloting!*

| Grade              | 8  | Modified Unit Overview   |
| Guidebook Text     | Flowers for Algernon   | Original and adapted versions of <i>Flowers for Algernon</i>   |
| Unit Description   | We will read the short story <i>Flowers for Algernon</i> by Daniel Keyes and a series of related literary and informational texts to explore the questions: What happens when humans try to manipulate the minds of others and how has our understanding of intelligence evolved over time? We will express our understanding through an essay that analyzes how Charlie in <i>Flowers for Algernon</i> has changed from the beginning, and if the surgery has improved or worsened his quality of life. | Students with significant cognitive disabilities will have access to both the original and adapted versions of “ <i>Flowers for Algernon</i> ” by Daniel Keyes to explore the questions: What happens when humans try to control the minds of others and how has our understanding of intelligence evolved over time? The students will express their understanding through a permanent product that analyzes how Charlie in <i>Flowers for Algernon</i> has changed from the beginning of the novel, and if the surgery has improved or worsened his quality of life. |

analyze relationships, and make meaning from the text. This prepares students to write a literary analysis.

**Reading/Knowledge Look Fors:**

- How well does the student analyze how the author’s word choice impacts our understanding of characters and events?
- How well does the student analyze how characters’ actions develop a theme?

**Writing/ELA Skill Look Fors:**

- How well does the student develop and clearly communicate meaningful claims that represent valid, evidence-based analysis?
- How well does the student gather and organize relevant and sufficient evidence to demonstrate understanding of texts and topics, support claims, and develop ideas?
- How well does the student integrate quotations while maintaining the flow of ideas to develop and support arguments, analyses, and explanations?
- How well does the student analyze relationships among the details of a text and how they develop ideas?

Students also demonstrate their ability to form a claim, summarize textual evidence, develop a response, identify relationships, and make meaning from the text. This prepares students to write a response to literature.

**Reading/Knowledge Look Fors:**

- How well does the student determine how Baldwin’s tone impacts how we understand the characters and events?
- How well does the student identify evidence from the text to support the claim?

**Writing/ELA Skill Look Fors:**

- How well does the student summarize what happens in his/her assigned section of “The Story of Prometheus?”
- How well does the student organize his/her summary into a response?
- How well does the student complete a sentence frame using the appropriate verbal?
- How well does the student analyze relationships among the details of a text and how they develop ideas?

| Section Number   | 3   | <b>Section is optional</b> |
| Description      | Flowers for Algernon  |                            |
| Assessment       | <p>Students write a response to this prompt: Explain whether the tests given to Charlie are useful for determining his suitability for the experiment. Use evidence from “What’s in an Inkblot? Some Say, Not Much” and “Flowers for Algernon” to support your claim and reasons.</p> <p><b>Culminating task connections:</b></p> |                            |

Students build their understanding of how intelligence is measured and explore both sides of the debate about the usefulness of projective tests. This prepares students to analyze the change in Charlie's character and in his intelligence as a result of his procedure. These changes will in turn help them to take a stance in determining if Charlie's surgery improved or worsened his quality of life.

Students also demonstrate their ability to form a claim, develop a response, integrate quotations, and use conventions to produce clear writing. This prepares students to write a literary analysis.

**Reading/Knowledge Look Fors:**

- How well does the student identify each side of the debate over the Rorschach and other projective tests?
- How well does the student explain why the tests given to Charlie are or are not useful for determining his suitability for the experiment?
- How well does the student analyze opposing viewpoints?

**Writing/ELA Skill Look Fors:**

- How well does the student develop and clearly communicate meaningful claims that represent valid, evidence-based analysis?
- How well does the student gather and organize relevant and sufficient evidence to demonstrate understanding of texts and topics, support claims, and develop ideas?
- How well does the student integrate quotations while maintaining the flow of ideas to develop and support arguments, analyses, and explanations?

and “intelligent” and consider Charlie’s understanding of what it means to be smart. Students also consider for the first time if the surgery has improved Charlie’s quality of life, an opinion that will evolve throughout the unit.

Students also demonstrate their ability to form a claim, develop a response, integrate quotations, and use conventions to produce clear writing. This prepares students to write a literary analysis.

**Reading/Knowledge Look Fors:**

- How well does the student explain how the surgery has changed Charlie?
- How well does the student explain the relationship between being considered smart and being considered intelligent?
- How well does the student explain how irony helps the reader understand Charlie’s character.

**Writing/ELA Skill Look Fors:**

- How well does the student develop and clearly communicate meaningful claims that represent valid, evidence-based analysis?

Students build their understanding of how Charlie’s surgery has changed him. They contrast the meaning of the words “smart” and “intelligent” and consider Charlie’s understanding of what it means to be smart. Students also consider for the first time if the surgery has improved Charlie’s quality of life, an opinion that will change throughout the unit.

Students also demonstrate their ability to write a persuasive text that includes a claim, develop a response in which ideas are logically grouped to support the claim, integrate evidence including quotations, and use conventions to produce clear writing. This prepares students to write a literary response.

**Reading/Knowledge Look Fors:**

- How well does the student explain how Charlie has changed as a result of his surgery?
- How well does the student select an event or quotation from Progress reports 4-8 that reveals Charlie’s understanding of what it means to be smart?
- How well does the student explain an example of dramatic irony in Progress Report 9?

| Section Number   | 5  | <b>Modified Section Overview</b>  |
| Description      | Flowers for Algernon   | Original and adapted versions of <i>Flowers for Algernon</i> and <i>Frankenstein</i> .  |
| Assessment       | In their reading log, students write an answer to this question: Charlie has surgery to be like others around him. What happens as a result of the surgery? How is this ironic? Include evidence from the text to support your answer. | In their reading log, students will discuss with a partner then write an answer to this question: Charlie has surgery to be like others around him. What happens as a result of the surgery? How is this ironic? Include evidence from the text to support your answer. |

**Culminating task connections:**

Students build their understanding of how Charlie’s surgery has changed him, analyzing specifically what makes the change ironic. Students should understand that Charlie’s new intelligence has changed the way he communicates with others and how others communicate with him. Students continue to consider if the surgery, and the resulting changes, have improved Charlie’s quality of life, an opinion that will continue to evolve throughout the unit.

Students also demonstrate their ability to form a claim, develop a response, integrate quotations, and use conventions to produce clear writing. This prepares students to write a literary analysis.

**Reading/Knowledge Look Fors:**

- How well does the student explain how communication with others has changed since Charlie’s surgery and what makes this change ironic?
- How well does the student explain the similarities in characters and events in “Flowers for Algernon” and *Frankenstein*?

**Culminating task connections:**

Students build their understanding of how Charlie’s surgery has changed him, identifying specifically what makes the change ironic. Students should understand that Charlie’s new intelligence has changed the way he communicates with others and how others communicate with him. Students continue to consider if the surgery, and the resulting changes, have improved Charlie’s quality of life, an opinion that will continue to change throughout the unit.

Students also demonstrate their ability to write a persuasive text that includes a claim, develop a response in which ideas are logically grouped to support the claim, integrate evidence including quotations, and use conventions to produce clear writing. This prepares students to write a literary response.

**Reading/Knowledge Look Fors:**

- How well does explain how the characters and events are similar in *Frankenstein* and “Flowers for Algernon?”

| Section Number | 6  | Section is optional |
| Description    | Flowers for Algernon   |                     |
| Assessment     | <p>Students re-read the following paragraph from the May 20 progress report:</p> <p style="text-align: center;"><b>Suddenly, I was furious at myself and all those who were smirking at him. I jumped up and shouted, ‘Shut up! Leave him alone! It’s not his fault he can’t understand! He can’t help what he is! But for God’s sake...he’s still a human being!’”</b></p> <p>They write a multiparagraph essay that explains what this quotation reveals about the changes in Charlie’s understanding of intelligence. Students should cite evidence from the texts to support their response and observe the conventions of standard English.</p> <p><b>Culminating task connections:</b></p> <p>Students build their understanding of how Charlie’s surgery has changed him, analyzing specifically how Charlie’s understanding of intelligence has changed. Students continue to consider if the surgery, and the resulting changes, have improved Charlie’s quality of life, an opinion that will continue to evolve throughout the unit.</p> <p>Students also demonstrate their ability to form a claim, develop a response, integrate quotations, and use conventions to produce clear writing. Students practice writing a literary analysis.</p> |                     |

**Reading/Knowledge Look Fors:**

- How well does the student explain how Charlie changes in the progress reports from May 23- July 28?
- How well does the student explain their reasoning for determining that Charlie is or is not better off as a result of the surgery?
- How well does the student explain a theme from *Flowers for Algernon*?

**Writing/ELA Skill Look Fors:**

- How well does the student develop and clearly communicate meaningful claims that represent valid, evidence-based analysis?
- How well does the student gather and organize relevant and sufficient evidence to demonstrate understanding of texts and topics, support claims, and develop ideas?
- How well does the student integrate quotations while maintaining the flow of ideas to develop and support arguments, analyses, and explanations?

**Reading/Knowledge Look Fors:**

- How well does the student determine a similarity in character between Charlie and the monster?
- How well does the student explain their reasoning for determining that Charlie is or is not better off as a result of the surgery?
- How well does the student determine a theme in *Flowers for Algernon*? How well does the student explain how the structure of each text contributes to the shared theme?

- How well does the student explain why authors draw on traditional stories to tell new stories?
- How well does the student explain how the discussion reinforced or refined the claim they made prior to the discussion?

**Writing/ELA Skill Look Fors:**

- How well does the student cite evidence from the text to support their response?
- How well does the student cite evidence from the text to support their theme?
- How well does the student integrate quotations while maintaining the flow of ideas to develop and support arguments, analyses, and explanations?

- maintain a formal style and use grade-appropriate grammar and language

**Culminating task connections:**

Students summarize their understanding of how Charlie’s surgery changed him by responding to the culminating task writing prompt during this section. Students have already made a final judgement in determining if the surgery, and the resulting temporary changes to Charlie’s intelligence, improved Charlie’s quality of life, an opinion that evolved throughout the unit.

Students also demonstrate their ability to form a claim, develop a response, integrate quotations, and use conventions to produce clear writing.

**Reading/Knowledge Look Fors:**

- How well does the student explain how Charlie changes throughout the text?
- How well does the student explain their reasoning for determining that Charlie is or is not better off as a result of the surgery?

*the structure of the text as a series of journal entries) reveal Charlie’s changes.*

- *Evaluate whether the changes had a positive or negative impact on Charlie. Determine how the author’s choices impact the way the reader views the changes in Charlie.*
- *Locate evidence to support your claim and acknowledge evidence that supports an opposing claim.*

In order to do this, students will:

- Include a thesis statement and acknowledge counterclaims
- Provide evidence to support your thesis statement
- Maintain a formal style and use grade-appropriate grammar and language

The permanent product should state and logically support a claim about the impact of the surgery on Charlie’s life and distinguish your claim from opposing claims. Be sure to use proper grammar, conventions, spelling, and grade-appropriate words and phrases. Cite several pieces of relevant textual evidence, including direct quotations with parenthetical citations.

**Culminating task connections:**

Students summarize their understanding of how Charlie’s surgery changed him by responding to the culminating task

- How well does the student acknowledge a counterclaim in their response?

**Writing/ELA Skill Look Fors:**

- How well does the student develop and clearly communicate meaningful claims that represent valid, evidence-based analysis?
- How well does the student gather and organize relevant and sufficient evidence to demonstrate understanding of texts and topics, support claims, and develop ideas?
- How well does the student integrate quotations while maintaining the flow of ideas to develop and support arguments, analyses, and explanations?

writing prompt during this section. Students have already made a final judgement in determining if the surgery, and the resulting temporary changes to Charlie’s intelligence, improved Charlie’s quality of life, an opinion that changed throughout the unit.

Students also demonstrate their ability to write a persuasive text that includes their ability to form a claim, develop a response in which ideas are logically grouped to support the claim, integrate evidence, and use conventions to produce clear writing.

**Reading/Knowledge Look Fors:**

- How well does the student explain how Charlie changes throughout the text?
- How well does the student explain their reasoning for determining that Charlie is or is not better off as a result of the surgery?
- How well does the student explain the score their own draft should receive? How well does the student revise their own draft using indicators from the rubric to improve their score?

From those scenes, viewers can see that Charlie views children as his equals and feels like an outsider with people who are close to his age. Charlie doesn’t belong with his age group. This is further supported when we see Charlie writing at the end of clip one and then discussing how he wants to be smart like those around him in clip two. These details are similar to what we learn from the written progress reports in “Flowers for Algernon.”</p> <p>Students also demonstrate their ability to form a claim, develop a response, and integrate quotations.</p> <p><b>Reading/Knowledge Look Fors:</b></p> <ul style="list-style-type: none"> <li>● How well does the student explain how <i>Charly</i> remains faithful to “Flowers for Algernon?”</li> <li>● How well does the student explain how the director’s choices helped the viewer to better understand Charlie?</li> </ul> <p><b>Writing/ELA Skill Look Fors:</b></p> <ul style="list-style-type: none"> <li>● How well does the student develop and clearly communicate meaningful claims that represent valid, evidence-based analysis?</li> <li>● How well does the student gather and organize relevant and sufficient evidence to demonstrate understanding of texts and topics, support claims, and develop ideas?</li> <li>● How well does the student integrate quotations while maintaining the flow of ideas to develop and support arguments, analyses, and explanations?</li> </ul> |                   |

| Section Number   | 11  | Section is optional |
| Description      | Flowers for Algernon  |                     |
| Assessment       | <p>Students read these sentences from Progress Report 10 (April 21) from “Flowers for Algernon” by Daniel Keyes.</p> <p><b>I’m not sure what an I.Q. is. Dr. Nemur said it was something that measured how intelligent you were—like a scale in the drugstore weighs pounds. But Dr. Strauss had a big argument with him and said an I.Q. didn’t weigh intelligence at all. He said an I.Q. showed how much intelligence you could get, like the numbers on the outside of a measuring cup. You still had to fill the cup up with stuff. Then when I asked Burt [. . .] he said that both of them were wrong [. . .]. Burt says that the I.Q. measures a lot of different things including some of the things you learned already, and it really isn’t any good at all.</b></p> |                     |

Then, students write a multiparagraph essay that explains which character’s opinion (Dr. Nemur, Dr. Strauss, or Burt) is most supported by “Does IQ Test Really Measure Intelligence?” and “IQ Tests are ‘Meaningless and Too Simplistic’ Claim Researchers.” Students also cite evidence from the both texts to support your response. Be sure to observe the conventions of standard English.

**Culminating task connections:**

Students have finished writing the culminating task, however, students should understand, as previewed by character point of view in “Flowers for Algernon” and their extension task research, that there are many different opinions when it comes to intelligence. Dr. Nemur believes IQ tests are a good measure of how intelligent a person is. Dr. Strauss believes IQ tests don’t measure how much intelligence a person has but how intelligent a person could be. Burt believes IQ tests measure the knowledge you’ve gained by learning, but the tests aren’t good for measuring intelligence. Students should conclude, that of these three characters, the one whose opinion is most supported by the two articles is Burt’s opinion.

Students also demonstrate their ability to form a claim, develop a response, integrate quotations, and use conventions to produce clear writing.

**Reading/Knowledge Look Fors:**

- How well does the student identify and explain each character’s opinion of intelligence?
- How well does the student compare and contrast each character’s opinion with the information presented in the cold-read texts?

## Guidance for Accessing and Adapting Grade-Level Text

### Purpose

The *SWSCD Companion Resources for the ELA Guidebooks* promote the goal of providing meaningful opportunities for students with significant cognitive disabilities (SWSCD) to comprehend and learn aligned, grade-level content and skills while promoting participation in inclusive education settings. This document presents guidance for educators on the purpose, creation, and use of adapted texts to be used along with the Companion Resources.

To support literacy instruction of SWSCD, educators will use grade-level texts in their original form and will differentiate instruction by using adapted text. Adapted text, a term which refers to any text that is changed from its original print format, promotes text accessibility and comprehension for SWSCD based on individual needs. While a text may be augmented or modified to make grade-level text accessible to students who have a wide range of reading ability, it is important to retain enough of the original text characteristics necessary to address student learning expectations.

**Educators must provide opportunities for SWSCD to interact with the original text to ensure language development and comprehension.** There are multiple ways to present original text to SWSCD such as:

- **Read Aloud:** The teacher “simply” reads the text aloud which taps into students’ listening comprehension level which may surpass their independent reading comprehension level; this allows for students to engage with texts that they might not be able to read on their own.
- **Interactive Read Aloud:** The teacher orally reads a text to the class, while asking corresponding, thought-provoking discussion questions throughout the reading of the book; the teacher also models comprehension strategies (e.g., text-to-self connections) and pauses for conversation in a whole group or in small student groups.
- **Partner Read:** A partner (e.g., same grade-level peer) reads the text aloud to an individual student or a small group of students.
- **Re-reading:** The teacher reads (more than once) sections of the text which contain text-based evidence to support students’ ability to answer comprehension questions.
- **Audio Books:** The teacher provides commercially available audio books, physical media (e.g., Compact Discs), and digital media (e.g., webpages, online books).

Note that these same presentation modes may be used with adapted text as well.

**Educators must also employ adapted text, along with the additional scaffolds and supports as necessary, to ensure student access and opportunity to meet grade-level learning expectations.** Finding and creating “just right” adapted texts is best accomplished in partnership with general education teachers.

Educators facilitate access and use of text through adaptations tailored to the individual needs of the student. Several strategies can be utilized to present the text in a different 1) visual manner (e.g., enlarged text, chunking the text, adding pictures); 2) auditory manner (e.g., audio book); and/or 3) simplified manner (e.g., abridged version, text/chapter summaries). When adapting text, educators ensure the content is sufficient (i.e., breadth, depth, complexity) for a student to respond to questions in the lesson and complete the culminating tasks. Note the student’s communication system determines the type of augmentation strategies needed to adapt a text. Suggestions for adapting a text are:

- **Including pictures and or objects:**
  - add simple pictures at the beginning of each chapter section or summary
  - add picture symbols paired with key words in the text
  - add/attach objects paired with key words or ideas in the text
  - consider if the images are age appropriate and relevant and if they require inferencing (a comprehension skill) to interpret meaning
- **Shortening text:**
  - reduce the amount of text, but retain the essence of the text
  - omit pages or paragraphs; for example, if the student is working on characterization or setting, ensure the remaining text includes enough detail to understand the literary elements
- **Rewriting text as a summary:** (Note: A summary of text is very different than shortening text. A summary is a brief statement that presents the main points in a concise form. It may not have the details needed for all literary/comprehension skill instruction.)
  - summarize the text into brief sections (e.g. chapter summaries)
  - summarize the text and use some picture/symbol support
  - add a repeated story line that emphasizes a main idea or key concept of the text
- **Using a predictable structure:** (e.g., younger children include a repeated story line in the same place such as at the bottom of every page; older students might have the main idea in the first sentence of the first paragraph and add signal words)
- **Reducing Lexile level:** The *Lexile*® *Framework for Reading* measure represents the student’s reading level on a developmental scale of reading ability (<https://lexile.com/>). Reducing the Lexile level of a passage might assist students who are introduced to grade-level content.
