

A. Description of overall philosophy (200 word limit): The mission of the Department of Exceptional Student Services in the Algiers Charter School Association is to educate all students with exceptionalities and to meet their unique academic, social, emotional and physical needs in the least restrictive environment. Within the context of this mission, Exceptional Student Services ensures compliance with federal and state laws regarding the education of students with disabilities as well as those who are identified as Gifted and/or Talented. Towards this end, special education services and related and support services are available to meet the needs of all students under the leadership of the Executive Director of Exceptional Student Services. These services reflect implementation of procedures that are grounded in "Best Practices" research as found in the large body of validated special education research data. In addition, so that these students with special needs may be effectively identified, Exceptional Student Services complies with regulations that require a student suspected of being exceptional receive a comprehensive multidisciplinary evaluation conducted by pupil appraisal professionals certified by the State Department of Education. Through Pupil Appraisal's adherence to specific regulations in the Pupil Appraisal Handbook, Bulletin 1508, these students are identified and provided a Free Appropriate Public Education.

C. Data Snapshots	
2015-16 enrollment rate of students with disabilities served by the school	10.7%
2014-15 in school and out of school suspension rate of students with disabilities served by the school	2.9%
2014-15 number of students with disabilities who are removed for disciplinary reasons for more than 10 school days in one academic year	0%

D. Description of how pupil appraisal, special education, and related services are provided by the school  Appraisal/Evaluation		
Response to Intervention Overview	Examples of universal screeners: LinkIt, iStation, Dibels iReady	

	Examples of reading interventions: Dibels, iStation, iReady, MyOn
	Examples of math interventions: iStation, MyOn
	Examples of behavior interventions: Check In/Check Out, Intervention Room, Positive Behavior Intervention Support (PBiS), Functional Behavior Assessment/Behavior Intervention Plan (FBA/BIP)
	In addition, for the 2016-2017 School Year, Landry-Walker High School will incorporate as part of the school the following:
	A designated, confidential area for initial and on-going mental/behavioral health counseling, case management, and crisis intervention upon referral by the school social worker.
	An on-site, part time child/adolescent psychiatrist to provide on-site evaluation and therapy in addition to and in conjunction with counseling services provided by the school worker(s).
	Therapeutic planning for students with mental/behavioral disabilities to successfully transition back to the regular school environment.
	Behavior Screenings: Connors Behavioral Screening; Beck Depression Scales; Pierre-Harris Behavioral Scales; BASC (Behavioral Assessment Screening Scale); GAD (General Anxiety Disorder); UCLA PTSD Index; Mood-Feeling Scales.
School Building Level Committee (SBLC)	Members of the SBLC team: The committee is comprised of at least the principal/designee, a classroom teacher, the referring teacher, and the parent of the student being discussed. Other invited members include the school counselor/social worker, the school nurse, the reading/math interventionist, the behavior interventionist, the speech/language therapist, the pupil appraisal representative, and other appropriate personnel. Parents may also choose to be accompanied by an advocate or supporter.
	Example engagements with parents: : Parent involvement is essential in the SAT process. Parents must be invited to the SAT meetings when decisions are made regarding their child. They must provide signed permission for any screenings, a Section 504 evaluation, dyslexia, and related disorders' screenings and evaluations, and special education evaluations. To assure parental involvement, the chairperson shall provide a written parent invitation to the meeting and call the parent to confirm their attendance. The parent shall also be provided with a copy of the Rights Booklets, which should also be documented on the 300R.

Example decisions SBLC team can make: The teams' decisions on any student may be to:

Determine that no further action is needed.

- Continue current interventions and progress monitoring through RtI.
- Refer the student for screening to the 504 Committee.
- Conduct additional interventions through the RtI process.
- Depending on the student's needs, referral to appropriate schoolbased personnel/programs (social worker, nurse, reading specialist, etc.)
- Referral to community agencies.
- Referral for a multi-disciplinary evaluation through the Appraisal Team.

Immediate referral for a multi-disciplinary evaluation should take place when there are suspected (low incidence) impairments such as: hearing impairment, vision impairment, traumatic brain injury, intellectual disability (moderate or severe), or severe impairment (such as severe autism, severe orthopedic impairments, etc.).

#### **Appraisal Team**

Members of appraisal team: On any evaluation, the school site representative from the appraisal team shall serve as the Evaluation Coordinator (EC) and assemble the multi-disciplinary team appropriate to the student's needs. The EC shall ensure that at least two appropriate and qualified personnel representing different disciplines participate in the individual evaluation. Team members most often include the Appraisal Social Worker, the Educational Diagnostician, School Psychologist, and the Appraisal Speech and Language Pathologist. However, the following may also be included: General Education Teacher, the Occupational Therapist, the Physical Therapist, the Adapted Physical Education Evaluator, the School Nurse, the Assistive Technology Team, the Orientation and Mobility Team, the parent, evaluators in music, theater, or visual arts, etc., depending on the student's needs.

Example engagements with parents: In addition to interaction with parents during the SAT meeting(s) in which the decision to evaluate was made, the appraisal team members will interact with the parent through written permission for the evaluation, a review of any pertinent reports provided by the parent, a family interview, provision of ongoing information on the progress of the evaluation, etc.

Example decisions appraisal team can make: Example decisions appraisal team can make: At the conclusion of the multi-sensory evaluation and staffing, the team may make the following decisions:

- The student is classified with an exceptionality and the educational needs of the student are identified.
- The student is not classified with an exceptionality. The child is either referred back to the SAT to be considered for 504 or back to

	the general education setting without additional services.

		Model targets Transition	
		Goals as identified on the	
		Transition Page of the	
		student's IEP.	
Description of extended Identification: : As established by the SDE, there are three criteria used to			

school year services:	determine a student's eligibility for Extended School Year services. Each of
	the criteria below is fully explained in Bulletin 1530.
	1. Regression-Recoupment
	2. Critical Point of Instruction
	3. Employment
	4. Transition to Part B
	5. Transition to Post-School Outcomes
	6. Excessive Absences
	7. Extenuating Circumstances
	7. Externating circumstances
	During the screening process, the instructional team will review data
	collected all year on IEP goals (and objectives, if written) to determine if the
	student is eligible for ESYS. Parents must be notified, in writing, of the ESYS
	decision.
	Delivery: ESYS services are delivered within the context of a three-week
	program during the summer at one the six ACSA schools. Instruction is
	delivered on those goals and objectives that were identified by the student's
	special education teacher on the IEP itself. Materials are made available to
	certified teachers and paraprofessionals to address said goals and objectives.
	Progress Monitoring takes place during this time to ensure adequate
	progress is being made and to adjust implementation of instruction where it
	is deemed necessary. The student's performance is summarized.
Description of	Criteria for participation: Students met the LAA 1 criteria and expressed
specialized program(s):	interest in the hospitality industry. In addition, inclusive services are
	rendered according to each student's IEP. A student with more severe
	disabilities, for example, may receive some time in the Choral Music class to
	experience and participate in the music via giving a signal to start a song with
	the support of a paraprofessional. Furthermore, students also participate in
	art classes to enhance their fine and gross motor skills.
	<b>6</b>
	Delivery: External provider to implement hands-on instruction and
	experiences relevant to earning a certificate in the hospitality pathway.
