

## NEW HARMONY HIGH SCHOOL

### A. Description of overall philosophy (200 word limit):

New Harmony High values student identity. We believe that every child deserves to receive the best education possible. Being placed in the least restrictive environment, gaining necessary life skills and learning how to relate and communicate with people from different walks of life is imperative to the academic growth and success of any student.

New Harmony High believes that diverse learners do better in general education settings, and that this benefit is twofold as general education students benefit from a truly inclusive model as well. Thus, instructional strategies, curriculum adaptations, and behavioral interventions are applied in the least restrictive environment.

New Harmony High School empowers each student to discover their individual gifts and talents. We leverage those strengths to work on relevant, rigorous projects, and engage with the community through interest-based fellowships, working alongside mentors on real problems. We provide the staff, related services and resources to meet the unique needs of all students.

**E. Description of how the school plans to provide the continuum of special education placements for students whose IEP placement is outside of the regular education setting**

*School-based Supports (in-school)*

At New Harmony High we provide a continuum of services to ensure that every student is in their least restrictive environment and constantly exploring their passions and interests in a meaningful way. The IEP Team works together to ensure that each student is participating in the programming the will most benefit their individual graduation paths.

We are willing and prepared to provide services further along the continuum, but are successful with our inclusive supports.</p>

Examples of this type of support include, but are not limited to New Orleans Therapeutic Day Program, Raphael Academy, Substance Abuse Programs, homebound services, etc. At the time that a student is incarcerated and/or in a juvenile detention facility, jurisdiction of the student officially falls into the control of the OPSB; New Harmony will ensure that collaboration continues while student is in a juvenile detention center.</p>
