#### **Undergraduate Pathway**

In Louisiana, there are two pathways to teaching: Undergraduate and Post-Baccalaureate. The undergraduate teacher preparation pathway consists of a Bachelor of Arts or Science university degree program. If you do not have a Bachelor's degree or are in the process of completing a Bachelor's degree, the undergraduate pathway may be the right pathway for you. There are 19 programs in Louisiana who offer undergraduate pathways.

#### **The Process**

The process to both pathways includes a <u>competency-based</u> <u>curriculum</u> and a year-long teaching residency experience. Use this website to explore Louisiana's teacher preparation programs and pathways to becoming a teacher. If you are not sure this is the correct pathway for you, take this <u>survey</u> to determine the correct pathway.

#### Number of Program Completers

2,551 candidates completed this program from 2017-2018 through 2019-2020.

2020-2021 Teacher Preparation Program Informational Performance Profile Data Verification User Guide

#### Introduction

In June 2017, the Louisiana Board of Elementary and Secondary Education (BESE) approved the Teacher Preparation Program Quality Bating System. The purpose of the Teacher Preparation Program Quality Rating System is to provide teacher preparation providers with meaningful information for improvement, identify programs of excellence and programs in need of improvement, and reward programs for meeting Louisiana's educator workforce needs.

In order to calculate the quality rating scores for the performance profiles, teacher preparation providers must verify that their program completer data are accurate. The Louisiana Data Review (LDR) system is a secure, online system that allows educator preparation providers to view and verify program completer data, making modifications to the data where necessary.

This guide is designed to provide users with instructions for using the Louisiana Data Review system. For more information about how to use the Louisiana Data Review system, please contact Erich Schultz at <u>erich schultz@la.gov</u>.

Important: All teacher preparation providers must complete the data verification process by the closing date of Friday. December 17th, 2021 to ensure the data that will be used to calculate the performance profiles are accurate. They Department will use the program completer information that was previously uploaded in the system for any providers that do not submit updates to their data by the closing date. Providers cannot make changes to the data after the closing date of friday. December 17th, 2021.

## **Data Flagged by the Department**

The column titled "Error\_Notes" on the program completer roster can be used to filter records that were flagged by the Department for errors. These records will not be used for calculations unless they are resolved during the data verification process. Only records submitted for 2020-2021 cohort have "Error\_Notes" flagged. The following table outlines how to resolve the errors that were flagged by the Department.

| Error Description                        | Guidance to Resolve Error   |
|--|---|
| ADD-ON CERTIFICATION AREA ALREADY ISSUED | The add-on certification area that was indicated by the provider was already issued during a previous academy year. Either update the certification area with the correct add-on or leave as is and it will be removed. |
| ADD-ON CERTIFICATION AREA NOT HIGH-NEED  | The add-on certification area that was indicated is not a high-need certification area. Either update the certification area with the correct add-on or leave as is and it will be removed                              |
| DUPLICATE                                | Determine the duplicate record and flag for removal of the one that should be deleted. If none are flagged, the earliest instance submitted will be used.   |
